

**PERSONAL AND LOCAL**

From Sunday's Daily.

Benjamin Figg of Coquille spent the day in Marshfield yesterday.

The subject of the sermon at the Presbyterian church this evening will be: "The love that passeth knowledge."

Rusty Mike's Diary Sept. 13, 1908—If you are turning the grindstone make the fire fly—if you are advertising make it count for something.

Twenty-three passengers arrived down on the new gasoline launch Carlew, it seemed like all Catching slough had broken loose.

For a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by Jno. Preuss.

Mr. and Mrs. A. P. Owen returned yesterday from Coos river, where they have been camping out at Elk rock since Monday. A. P. reports a fine cutting, lots of fish and a good time generally.

Captain Norman Nelson, of the Cape Arago Life-Saving Station, will take passage on the Alliance, having been called to Oakland, Cal., on account of the serious illness of his father-in-law, on whom Mrs. Nelson has been in attendance since Aug. 31.

The new Coquille river steamers Dispatch and Liberty were inspected at Coquille City yesterday. They are both said to be fine boats, the Dispatch being the largest in the county, and the Liberty the swiftest, being intended to make a speed of 15 miles an hour.

F. M. Frieberg received a new dynamo on the Alliance, together with the lamps and equipment for making the change in the street lights, ordered by the town board at its last meeting. It will take several weeks to make the change.

Mr. and Mrs. Wm. Lawler, Jr. and Mr. and Mrs. J. W. Flanagan will leave on the Alliance for San Francisco, where they will remain for several weeks. Messrs Flanagan and Lawler will take this well earned vacation during the pleasant month of weather at California's metropolis.

Hon. Binger Hermann, who has been on the Coquille for the past week, is expected on the Bay tomorrow, and arrangements are under way to give him a fitting reception and to furnish facilities by which he can visit the different points on the bay, the Life-Saving station and government works, go out over the bar etc. Mr. Hermann is already quite familiar with the possibilities of this harbor, and his visit now will show him its immediate needs, and the later developments in the progress of this section.

**Travel by Sea.**

The following passengers arrived on the Alliance from the north in addition to the list received by wire: Wm E Terph, N Gause, L. Monar, M Wallace, A B Colby, C H Hull, Mrs. Hull.

**There Were Seven.**

Seven of the Coliver boys, all brothers, Oris, of eastern Oregon, Andrew of Yaquina Life Saving station and Ansel, John, Albert, Tillo and Howard of this county were in town today. This is the first time the boys have all been together for some time.

**Stomach Trouble**

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook Farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better. If you have any trouble with your stomach try a box of these Tablets. You are certain to be pleased with the result. Price 25 cents. For sale by Jno. Preuss.

**Who Can Beat It**

Bert Anderson and John Sawyer, of Allegany, hold the record for the biggest catch of trout this season. The fishing was all done in about three hours. While the catch was not so large in number it was made up in weight. The catch numbered 53. The shortest one being 14 inches and some measured 20 inches long the entire lot weighed a little more than 100 pounds. The boys lost several leaders and when they were almost out had to shoot them while yet on the lines in order to land them safely.

**Excursion on Mill Slough**

Alfred Matson, the coal dealer, gave his work team an excursion of several hours duration on Mill slough yesterday. It seems that his coal scow, which he moors to the bank, was nearly empty, and when the team was backed on, to load up, the craft was so near afloat that she slid down the flat on which she rested into the channel and it was a work of time to get the team ashore.

**Who Was He?**

F. Timmermann is mourning the loss of a brand new brass pail that he has had for over 20 years, and the mail mourns the absence of particulars about a good news item. It seems that one day this week a man whose identity has not been revealed started from the Marshfield dock in a sail boat, and swamped her before he got across the channel. It being high tide, he managed to reach the East Marshfield point, and landing went up to Mr. Timmermann's horse and borrowed the brass pail in question to bail out his boat. There the record ceases, and the pail has not been returned.

From Tuesday's Daily.

The three masted schooner Alpha just built at North Bend, was brought up yesterday to the railroad wharf where she will load lumber.

Noble Brothers received 12 head of fine fat beef cattle today from Henry Herman, of Myrtle Point.

**Mortgage Burned**

There was a large attendance at the Methodist church Sunday evening, it being the last service conducted by Rev. B. F. Peck, before conference. A pleasing feature, of the evening was the mortgage-burning ceremony, when the evidence of an indebtedness that has been hanging over the church for about five years was destroyed. The church is now free from debt, some \$435 of indebtedness having been cleared up under Rev. Peck's administration, about \$150 of improvements having also been made.

**Painfully Burned**

The 5-year-old son of Mrs. Sarah Wilson was quite painfully, but not dangerously, burned yesterday and Mrs. Wilson's hands were also burned in extinguishing the flames. Mrs. Wilson had been applying alcohol to the little boy's head, and one of the other children dropped a lighted match into her hair, which instantly blazed up. Mrs. Wilson tried to put out the fire with her hands, and was painfully burned, then wrapped some bedclothes about the child's head and quenched the blaze in that way, before any serious injury was inflicted.

**The Proper Treatment for a Sprained Ankle**

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by Jno Preuss.

**Foresters' Picnic**

The Foresters' picnic to the lower bay Sunday was a great success in the way of an enjoyable time. The Life Saving Station and government works were visited and the excursionists walked over to the ocean beach. They were fortunate enough to see a schooner come in over the bar while there. The weather was unusually good for a visit to the beach, it being warm and pleasant with very little wind. Provisions were bountifully furnished, and in fact all the arrangements were perfect, and the crowd wished that the Foresters might give a picnic every week.

**Binger Hermann Here**

Hon. Binger Hermann came over on yesterday's train, from Myrtle Point, to look over the situation on the Bay.

He was met by members of the Chamber of Commerce, including President L. J. Simpson, and the party went down the bay on the Cruiser visiting North Bend and noting the new developments there which excited the surprise and admiration of Mr. Hermann. Others of the party were Jas. H. Flanagan, H. Sengstacken, Dr. Tower, I. S. Kaufman and W. J. Butler. Today Mr. Hermann will be taken to the lower bay and probably out over the bar on the tug. He will return to Myrtle Point tomorrow morning.

**How to Run a Newspaper.**

"To run a newspaper," says an Oklahoma editor, "all a fellow has to do is to write poems, discuss the tariff and money question, umpire a baseball game, report a wedding, saw wood, describe a fire so that the readers will shed their wraps, make a dollar do the work of ten shine at a dance, measure calico, abuse

the liquor habit, test whiskey, subscribe to charity, go without meals, attack free silver, defend bimetalism, sneer at snobbery wear diamonds, invent advertisements, overlook scandal, appraise babies, delight pumpkin raisers, minister to the afflicted, heal the disgruntled, fight to a finish, set type, mold opinions sweep the office, speak at prayer meetings, stand in with everything and everybody.

**Excursion to the Sandhills**

Willbur, Misses Genevieve Sengstacken, May and Kathleen Bennett, Mary Mionot, Vivian Taylor, Lettie Larsen, Masters Hansie Hansen, and Joe Bennett.

Some of the neighboring ranchers coming from near by were: Mr. and Mrs. G. E. Nicholson, August Farly, Miss Herlog. Those present report a most glorious and a royal good time. The most interesting feature of the affair was the grand banquet. Particularly was August Farly in evidence by supplying part of the menu, and his famous "Milligan Stew" for the making of which he is becoming renowned. The party arrived home about 6:30 in the evening feeling bright and cheerful and that life was worth living even in the Sandhills.
