P. F. & L. Co. in Trouble

It was reported in Marshfield yesterday that the Pacific Furniture and Lumber Co's. property at Coquille City had been attached for the sum of \$3500, in a suit or suits brought by loggers holding claims against the company.

The P. F. & L. Co. is a corporation

the stock of which is held in San Francisco and Los Angeles, and owns a mill and store in Curry county, besides the milling and mercantile business at Coquille, which was bought of the Lyons estate.

Low Rates For Lighting

The lighting contracts was closed Tuesday for the state institutions, with the Citizens Light & Traction Co. of Salem. The contract covers light for reform school, asylum farm and deaf mute school. The rates agreed upon in the contract are \$6.00 per month for each are light, and 30 cents per month for each 16-candle power incandescent. Of the latter the asylum farm takes 300, the mute school 200, and the reform school 350.

As a result of the reductions in state lighting rates, the whole bill for lighting seven state institutions will not be any more than the state formerly paid for lighting four.

Giant Spud

The MAIL has received from Joseph A. Palmer, of Empire, by kindness of Capt. Pendergrass, a giant specimen of potato, which the marine reporter says is of the Beauty of Hebron variety. It is 10 1-3 inches long 1 1-2 inches around the waist and weighs 3 pounds 10 ounces. It was raised on Mr. Palmer's ranch, "Growlersville" and the hill out of which it came produced 16 pounds. This would indicate that the sandy soil near Empire is well adapted to the production of this useful adjunct to the cuisine of every well regulated family.

Chittim Bark

Two little girls Norma Hall and Mary Bowron saw the advantage of the high price now being paid for Chittim bark and thought it would be a good way to augment their bank account by peeling some. They went up Coos river peeled and dried a large gunny sack of the bark. They brought the product home and it was in the sack on the porch at Abe Tenbrook's home in West Marshfield. Friday night the sack disappeared with its contents. The sack was found with a couple of handfuls of bark in it, but the rest had disappeared, and the girls now mourn their loss. They think they know where it has gone, and the guilty party may save trouble by returning the goods.

Man Lost Overboard

Bandon Recorder

The schooner Advance, J. Jorgensen, got in this morning, 15 days out for San Francisco. On her arrival we learned that she had lost a seaman, James DeOrsy, of Eureka, on her way up. The accident occurred at 5:20, s. m., Sept 21, in latitude 38 degrees, 25 minutes, DeOrsy fell overboard while taking in the sidlights, carrying the green one with him.

A rope was thrown over to him, and two life buoys were thrown him one of which struck him on the shoulder; he failed to take hold of either.

He caught hold of the log line, but let go that, and although the ship's boat was at the spot in three minutes, he had sank.

DeOrsy was unable to swim, and seemed to have lost his power to reason or help himself when he fell into the water.

Threshed Out of Court

(Oregonian)

"That case has been threshed out in court several times, and will now be investigated by the State Bar Association," said Attorney-General A. M. Crawford at the Imperial Thursday, when asked if he had any reply to make to the charges made by Judge William R. Willis, of Roseburg, as the basis of a petition for his disbarment.

"How was it decided in court?" was asked.

"In my favor every time," answered the attorney-general. He refused to discuss the particulars of the charges, preferring to await the action of the Bar Association for a full vindication.

At a meeting of the grievance committee of the Bar Association on Tuesday, it was decided to send a copy of the charges to Mr. Crawford, and give him a reasonable time to answer them. When his answer is filed the committee will arrange for an investigation.

A Love Letter

Would not interest you if you're looking for a guaranteed Salve for Sores, Burns or Piles. Otto Dodd, of Ponder, Mo. writes: "I suffered with an ugly sore for a year, but a box of Bucklen's Arnica Salve cured me. It's the best Salve on earth. 25c at Preuss' Drug Store."

From Coquille Exchanges

(Bulletin)

Owing to a breakdown in Johnson's mill, they were compelled to shut down for repairs for several days. Being behind with their orders and the P. F. & L. Co's mill of this place being idle, Mr. Johnson has leased it for a few days until his repairs are made. Mr. Johnson is certainly a man of push and it requires insurmountable obstacles to prevent him from filling his contracts.

Our water works system is progressing nicely. The sand and gravel for the cement is nearly all on the grounds and the trenches for the drain tile, the outflow and the clean out pipes are nearly all out. A. C. Lukens has the contract for building the sandbox at the intake and it goes without saying that this part of the work will be done to perfection.

(Bandon Recorder)

There has been considerable rumor of a disastrous nature, afloat, as to the effect of financial trouble, of the San Francisco firm, Hulme & Hart, upon business here, they having had some interests at this place, but so far as we have been able to learn, it will not affect interests here, otherwise than of a temporary nature, and that after a month or thereabouts, this place will be the gainer in the division and dissolution of the firm.

W. H. Butson, superintendent of the Bandon Oil Co., was in town this week, having business which called him here. A reporter approach him and learned that work was progressing nicely at the well, but there is a scarcity of water on account of the dry weather, which makes it necessary to shut down occasionally to let the supply accumulate. The well is now about 300 feet deep, and the indications are all that could be expected. For the last hundred feet the drilling has been through shale rock.

Alliance Good as New

The Alliance arrived from Portland yesterday and is billed to sail south at 10 a. m. today. On going into drydock on Puget Sound her injuries were found to be not at all serious. A piece of her shoe was gone and some repairs to her keel were necessary. The work was done, and she was in the dry dock one night. She was unable to bring from Portland all of the freight offered, and left a large amount behind. The Aberdeen, of the same line, will leave Portland for this place in a few days, bringing the back freight.

Russ is In It

By the San Francisco papers it appears that Russ Tower did some excellent work on the Belmont eleven in the game with the Stanford freshmen Sept. 30th, in which the score stood 6 to 0 in favor of the Belmont team. One account says: "Ten minutes after play began Tower of Belmont went through and after a run of thirty yards reached Stanford's goal line. Tower was closely pursued by Stevenson, who tackled the Belmonter as he crossed the line and caused a fumble. Stevenson recovered the ball, thus turning Belmont's well-earned touch-down into a touchback." Another account mentions Tower as one of the most effective workers for the Belmont cause.

Saves Two From Death

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but, when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infalible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by John Preuss Trial bottles free.

Oregon Woods

The exhibit of Oregon forestry at the Lewis and Clark fair and the St. Louis Exposition are to be made a prominent feature and no pains will be spared by Commissioner Myers of the Oregon state commission to make it the best of its kind.

Coos county will do her share in furnishing this exhibit and no doubt can furnish the product of our timber in the finished as well as in the raw material. Mr. Myers has had offers of exhibits of woods and manufactured articles from the mills of the Simpson Lumber Company, North Bend; Woodville Lumber Company, Bandon; Southern Oregon Lumber Company, Prosper; and the Dean Lumber Company, Marshfield. These mills not only offer to furn

ish exhibits for the fairs, but to donate them as parts of a permanent exhibit.

Force of Habit

There is a queer shade of consistency in the Salem Statesman in its Friday's paper. In one place under a glaring three header is a write-up of a jubilee over the deliverance of "Old Willamette University" from debt by the ministers of the Methodist Conference, but on the front page of the same paper is an ad in the middle of the page. It is an advertisement for a lecture, the proceeds of which are to go to the "Debt Paying Fund of Willamette University." It seems like Old Willamette has been in debt so long and the faculty are so used to it that they really have forgotten about it. This reminds the writer of a little incident which happened several years ago in Iowa. It was a chronic borrower, and in the case we mention, the father was an invalid and the mother used to borrow nearly every thing from the neighbors and it was always "for pa" which became almost a nuisance, and finally, when the husband died the neighborhood felt that relief had come but several days after the burial the good lady sent one of the children to one of the neighbors for a drawing of tea for "Pa."

FILED LOGGERS' LIEN

Men Take Steps to Secure Their Summer' Wages

Five men who have been working in the Coos Bay Mill & Lumber Co's camp on South Slough filed loggers' liens yesterday on the logs which they have been assisting to put in. The men are Emil Stone, Chas. Brown, Link Emith, Jas. Stock and Victor Miller, and their claims aggregate about \$2900. It is said that other claims against the company will also be pushed.

SUICIDE OF OLD SETTLER

Frank Kinnecutt Ends His Life With a Bullet

Frank Kinnecutt an old and wellknown resident of Coos, who has been living at the Halfway house on the Coos Bay wagon road with his family, committed suicide yesterday by shooting himself in the head.

The deed was committed about 11 a. m. It seems that Kinnecutt had been drinking heavily the night before and had not entirely recovered. His daughter left him sitting in the front room reading a newspaper. A few moments later a pistol shot was heard and he was found lying on the floor unconscious, with a bullet hole just above his temple. The position of the body suggested that he stood in front of the mirror to place the pistol to his head.

The telegraph line was at once utilized to call a physician, but the man died about 3:30 p. m., without recovering consciousness.

Kinnecutt has been in Coos for 80 years or more. He was a school teacher and had taught in different schools nearly all over the county, also in Douglas. He had been living in Brewster valley since March 1902. He leaves a family consisting of a wife, two married daughters, two grown daughters and a son at home, besides two little girls and a boy.
