Narrow Escape

(Curry Co. Recorder)

Word reached here that Mrs. J. L. Crook and her mother, Mrs. Roe Moore, in coming home from a visit to Nate Moore, at Cheto, met with quite a mishap. The horse which they were driving stumbled and went over the grade taking the buggy with him, but fortunately the occupants of the buggy managed to light in the road bed and were not hurt. The horse and buggy landed about 75 feet below in the creek. Word was sent to Harbor for help and on arrival they succeeded in getting the horse out but the buggy is still there. This will be a lesson to green drivers, especially women, not to drive over such roads as there is between Irma and Harbor.

How to Kill Your Paper.

Just let your subscription go. It's only a small sum—the publisher don't need it. If he asks you for it get hopping mad as you can and tell him to stop your paper—you never read it anyhow. Go home and borrow your neighbor's. When the reporter calls always be busy. Make him feel as if he was intruding. When the advertising or job man calls say you don't need to advertise—everybody knows you; that you will get along without printed stationery—it's too expensive; that business is slack and you must economize. Never drop in to see the editor unless you want a complimentary notice or a lengthy obituary for a deceased relative. Never recommend the paper to any one; when you speak of it say "Yes, we have a little sheet." Keep it up a year or two and you will have a dead newspaper, a dead set of merchants and a dead town.

CAPTAIN JORGENSEN DROWNED

While Crossing Out Over Coquille Bar
--Washed Overboard From
Tug Triumph

Captain J. Jorgensen of the Schooner Advance, was drowned Monday afternoon at one o'clock, while going out over the bar at Bandon. He was aboard the tug Triumph which was taking the steamer Chico out to sea. When they were about half way over the bar a wave came in on the tug washing him overboard. He was rendered all the assistance possible, a line being passed him from the Chico, which he caught, but he was unable to hold on. He being an excellent swimmer, swam two hundred yards inside the jetty.

The tug immediately gave the signal for help to the Life-Saving crew who at once responded. The unfortunate man was picked up within 25 minutes but he was drowned, his body floating face downward. It is thought the air contained in his clothing kept him afloat. He was probably exhausted and chilled causing him to yield.

Dr. King and members of the Life-Saving crew worked over the lifeless man for several hours trying every known means to resuscitate him but all to no avail.

Captain Jorgensen has been running to Bandon about 15 years. He leaves a wife and five children, residing in Bandon.

Mr. Jorgensen was about 50 years of age and highly respected by all who knew him.
