Of Galveston, Texas.

"Wine of Cardui is indeed a blessing to tired women. Having suffered for seven years with weakness and bearing-down pains, and having tried several doctors and different remedies with no success, your Wine of Cardui was the only thing which helped me, and eventually cured me. It seemed to build up the weak parts, strengthen the system and correct irregularities."

By "tired women" Mrs. Adams means nervous women who have disordered menses, fulling of the womb, ovarian troubles or any of these ailments that women have. You can cure yourself at home with this great women's remedy, Wine of Cardui. Wine of Cardui has cured thousands of cases which doctors have failed to benefit. Why not begin to get well today? All druggists have \$1.00 bottles. For any stomach, liver or bowel disorder Theodor's Black-Draught should be used.

TO WELCOME VICTOR EMMANUEL

Great Arrangements Being Made

(Special to the Coast Mail.)

Paris, Oct., 12.—Elaborate arrangements are being rapidly carried out for the welcome here of King Victor Emmanuel and Queen Helena. They are on a scale of truly royal splendor. The fetes will follow the style of those held at the time of the recent visit to Paris of King Edward, and will include a number of agents affording opportunities for brilliant spectacular effects. As a measure of precaution the Government has instituted a strict surveillance over the anarchists of Paris and during his stay in the city the Italian monarch will be well guarded by secret service men of both France and Italy.

King Victor Emmanuel and his consort arrive at noon Wednesday and will leave the Invalides railway station at 3 o'clock Sunday afternoon.

Aside from its spectacular feature, the visit of King Victor Emmanuel is leading to a wide range of speculation in the matter of its political significance. French officials state freely that this visit marks the culmination of the efforts that they have been making for several years past to restore a complete entente cordiale between the two nations, which were strained for a long time by the tariff war between France and Italy. They say, also, that it is evidence that the foreign policy of France, Italy, and Great Britain is to be conducted along sympathetic lines.

The Reason Why.
I stole a good umbrella;
I took it brazenly;
But still I cannot be ashamed;
It once belonged to me.

And stealing it from one who had secured it for a time
Just teaches him how punishment
Must follow every crime.
