SCHMITZ CARRIES FRISGO

Tammany Recaptures New York

Special to the Mail.

San Francisco, Nov. 4.—Complete returns give Schmitz 25,825, Crocker 19,738, Lane 12,023.

The Democrats elect a majority of supervisors, assessor, recorder, sheriff, public administrator, coroner and all the best offices.

New York, Nov. 4.—Complete returns give McClellan, Tammany candidate, a majority of 63,617 over Low.

Tammany made a clean sweep and has a working majority of 35 on the board of aldermen. Comptroller Grout ran six thousand ahead of his ticket, and has a plurality of 99,790.

Every Tammany candidate in all five boroughs of greater New York, except Richmond, is elected. Richmond gave few votes to Low.

Big Bill Devery got only 2900 votes.

Columbus, O., Nov. 4.—Shortly before midnight Chairman Dick announced that Myron Herrick's plurality for governor over Tom Johnson would exceed 125,000. It is thought the Republican majority on joint ballot will exceed 74.

Providence, Nov. 2.—Governor Garvin, Democrat, is re-elected by 50,000 plurality. Republicans are surprised as they counted on carrying the state. The general assembly will be Republican in both branches, with possibly a Democratic gain in the lower house.

Baltimore, Nov. 4.—Returns are exceedingly slow, owing to a monster ballot. Up to 10 o'clock, with eight more precincts to be heard from, the Democrats undoubtedly carry three legislative districts in the city giving them three state senators and 18 delegates. Indications are that the legislature will be strongly Democratic, which means Senator McComas' defeat for re-election.

Salt Lake, Nov. 4.—Returns from all over the state indicate Democratic gains. Salt Lake has elected a Democratic mayor and half the council.

The Democrat landslide in Salt Lake is attributed to bolting Republicans joining the Democrats and Independents to down the Kerns Perry Heath machine ticket.

Des Moines, Nov. 4.—Less than a third of Iowa precincts were reported up to noon. The Democrats gain about seven members in the lower house and lose probably two in the senate.

Denver Nov. 4.—John Campbell, Republican, has carried the state for governor by 7000 votes.

VOTE IN TWO CITIES

Close in New York— Heavy in 'Frisco

Special to the Mail.

New York, Nov. 3.—A full vote is coming out today. The weather is mild and pleasant and hundreds are watching for floaters. Two hundred police are held in reserve. From all indications the vote will be exceptionally close. Betting at an early hour this morning showed McClellan a slight favorite. It is estimated that one million dollars have been wagered on the result.

San Francisco, Nov. 3.—This afternoon betting in the poolrooms was as follows: One to two on Schmitz, 2 to 1 on Crocker, 3 to 1 on Lane. At 11 o'clock half the total vote of the city had been polled. There is heavy voting in the Republican districts.

Not a Sick Day Since

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what B. F. Bass, of Fremont, N. C. writes. Only 50c, at John Preuss Druggist.

MITCHELL ORDERS STRIKE

Eighteen Thousand Men Affected

(Special to the Coast Mail.)

Indianapolis, Nov. 3.—At 10 o'clock this morning Mitchell ordered a strike in the Colorado district affecting 18,000 men. The strike goes into effect Monday, and calls out all the employees of the Colorado Fuel and Iron Company.

This is the first general strike ever known in the Colorado district. Fifteen fuel companies say they will fight to the bitter end. The district comprises Colorado, Utah, New Mexico and Southern Wyoming.

North Bend Items

The wharf at the south end of the sash and door factory is being extended to connect with the long bridge from Porter. The wharf between the woolen mill and the sash and door factory is being planked. The two connections, when completed, will furnish a continuous driveway from Porter, by way of the woolen mill.

Stanton avenue, which is just west of the factory, is being graded by Burns and his crew. This will connect the Porter bridge with Washington avenue; heretofore the drive-way crossed several lots to connect with the bridge.

J. W. Chase of Bandon is here looking after the interests of the woolen mill, and attending to the preparation for its starting. The mill is now being wired for electric lighting. A dynamo has been placed by which the mill will furnish its own power.

J. R. Robertson has built an addition to the east end of his building on Sherman avenue. This will be used for a kitchen by Mrs. Erickson, who will soon open a restaurant in connection with her ice cream parlor.

We would like to give an answer and a solution to the problem published about a week ago by the MAIL, of the "delinquent subscribers," and we intend to do so; but first we must get H. H.'s example off our hands. Here is a solution to the example, X minus 1 equals 2 plus 2 X with an exponent of minus one-half

Transposing the 2, X minus 3 equals 2 (X with an exponent of minus one-half). Changing the X that has the negative exponent from numerator to denominator, and equating each member of the equation, X squared minus 6 X plus 9 equals 9 over X;

Clearing of fractions, X cubed minus 6 X squared plus 9 X equals 4. Transposing the 4, X cubed minus 6 X squared plus 9 X minus 4 equal 0. Factoring and placing each factor equal to zero, we have 4 minus X equals 0, and 1 minus X equal 0, X equal 4 or 1, answers.

In proving the answers, we find 4 to be correct, but 1 is incorrect. Now this is an exception to one of the rules of algebra, or else we have made a mistake in the solution, but we are not prepared to say which, though we believe it is the former. If it be the latter, we invite H. H. to point it out to us. T. A. B.

INDIAN IN DANGER FROM MOB

Governor of Wyoming Called Upon

(Special to the Coast Mail.)

Washington, Nov. 5.—The Indian office this morning received a dispatch from Agent Brannan of Hot Springs, which urges that orders be issued for the governor of Wyoming to use all means to protect the Indians under arrest as mob violence is threatened.

Indian Commissioner Jones is indignant over the killing of Indians, which he characterizes as murder, and an unpardonable outrage. He says that to defend themselves from attack by a sheriff's posse was not unreasonable. The governor of Wyoming has been appealed to, to protect the prisoners.

PROTESTANT EPISCOPALIANS IN SESSION

(Special to the Coast Mail.)

Pittsburg, Pa., Nov. 4.—The 22d congress of the Protestant Episcopal church opened its sessions in this city today with a large attendance of leading churchmen from all parts of the United States. Holy communion was celebrated in the morning at Trinity Church, the Right Rev. Dr. Alexander H. Vinton, Bishop of Western Massachusetts, officiating.

Marriage and divorce is probably the most interesting topic that will be discussed. Bishops Porter, Whitehead, Vinton, and leading clergymen of the church are booked for addresses against marriages of divorced persons.

Timber on Chetco River (Curry County Recorder)

Dennis Cunniff, county surveyor and U. S. Mineral Surveyor for Oregon, came up from Chetco Monday where he had been engaged in surveying the meandering of the Chetco river for A. W. Childs. When asked as to his impressions of that country he stated that he was surprised at the possibilities of that part of Curry county and to use his own words said: "I have found the river first class to drive logs, having surveyed it for 17-18 miles without finding one drift pile or rock to interfere with log driving. I saw from the river timber enough to keep a 20,000 ft mill for 20 years. I did not go back from the river, for such in sight of the river is easy to handle (I know whereof I speak as I have worked in logging camps myself) for in all places it has an easy grade and in some places a grade where with skid road the logs will run, after being put on the skids, by its own weight."

Disastrous Wrecks

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. But since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst case can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases John Preuss Druggist. MAY BE SPECIAL SESSION

Governor Has Not Yet Decided

Special to the Mail.

Roseburg, Or., Nov. 3.—Governor Chamberlain passed through Roseburg on the morning train enroute to Salem from his trip to Washington. He was met on the train by H. H. Brooks, editor of the Plaindealer, who showed the governor the recent decision of the supreme court in the tax case of Maria L. Flanders vs Multnomah county, et al. The governor was asked what his action would be regarding the calling of a special session of the legislature to pass a new tax law. The governor said:

"I am extremely reluctant about convening the legislature in special session. It is a question in my mind whether an exhausted treasury will prove as great an evil as a special session of the Oregon legislature. Suppose no taxes were assessed, levied or collected for the period named by the supreme court. The taxpayers could afford to stand it, and I am sure they would not seriously complain. The inconvenience resulting might compel economy for the next year, and make us all more careful about the results of hasty legislation in the future. I cannot state definitely what course I shall pursue until I return to Salem, when I shall carefully ascertain the condition of several funds created for the support and maintenance of several public institutions. If I find that these will be so depleted or impaired, or so great an indebtedness created by the failure to convene the legislature, as to seriously cripple the service, and place the employees of the state, counties and cities at the mercy of brokers I will call a special session."

COLOM- BIAN REBELS

Form New Government at Panama

Special to the Mail.

Panama, Nov. 4.—Up to a late hour this morning the work of the revolutionists, who at 6 last night declared their independence, was proceeding speedily and without undue excitement or bloodshed.

It was announced this morning that the first steps for the formation of a new government would be taken today; when a consul will be elected to take charge of the new government.

Some excitement was caused by the Colombian gunboat Bogota, the only one of three Colombian vessels to remain in the harbor after the announcement of independence.

The Bogota tried to use moral force but failed. Finally the commander announced that he was about to open fire on the town, and he fired four shots, one of which landed, but there were no casualties. The gunboat Padilla in charge of the insurgents started in pursuit of the Bogota which steamed out of the harbor at a full speed. Reports this say the same conditions prevail at Colon.
