Some of the boys are strongly in favor of putting this money in the fund for improving their quarters in the city hall, equipping their reading room, etc., and this would seem to be an excellent disposition to be made of the money.

We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy." For sale by Jno. Preuss.

Yaquina Coos-Bay Boat

(Albany Democrat.) Ed Crangler, the owner of a one-hundred-ton steamer, has been in the valley this week looking up business for a regular boat between Yaquina and Coos Bay. If the prospect is good for a regular traffic he may run his boat, which would be particularly a good thing for passengers now obliged to stage it into Coos Bay from Roseburg.

A Cool Reception

A lady and gentleman who arrived Saturday night from Drain had a disagreeable introduction to Coos Bay. They got off the gasoline launch at the dock after dark and then inadvertently walked off the floating dock onto a shadow and found themselves in the cold water before they knew it. Push Club Notes

That one thousand dollars from the County Court looks pretty good to us. Taken with the fifteen hundred or two thousand we expect to raise from the buttons the Club will be kept with the new comers as the direct results of this advertising and this report will be published once a month.

The first installment of jars for exhibition purposes will arrive on the Arcata.

One of the most remarkable features of this Push Club movement is the fact that up to date no one had a word but the best for it. 12000 people in the county, but not a kicker in the bunch, if this is not a progressive spirit I do not know where you would find it.

ARRESTED AT BEAVER HILL

Taken to Portland to Answer Serious Charge

Albert E. Ferrera an attorney of Portland, came in Saturday, clothed with authority to arrest an Italian at Beaver Hill, who was charged with making threats against his brother who lives in Portland. It seems that the two brothers inherited equal amounts from the estate of their father. The good brother saved his money while the bad brother squandered his substance and went to—Beaver Hill. Then he wrote to the good brother and tried to make him divide up, under threat of violence, and the good brother turned the letter over to the authorities. Ferrera secured his man without trouble and started with him for Portland yesterday.

NEW CLUB ORGANIZED

Stormbound Fishermen Follow the Latest Fashion.

A few of Marshfield's amateur Isaac Waltons, among whom were Alex Campbell, Al Sleep, Geo. Gulovson, Johnny Wilson, Madac Gulovson, Albert Campbell, Bob Lang, Walter Asplund, Osgood Shoup, Geo Woodward, A. B. Sargent, Tom Neilson, Alfred Matson, Ray Campbell, Willie Curtis and others, who went up the creek west of Marshfield Sunday, after the scaly monsters which infest that stream, were driven by stress of weather to seek refuge in one of the old logging camp buildings, where they were storm bound a good part of the day.

Following the precedences so numerous furnished lately, a club was organized—The Fishermen's Whist Club—and the scholarly game was indulged in to pass the time. Alex Campbell took first prize, a trout 4 inches long, and Geo Gulovson won the booby, an overdone baked potato.

From some mysterious source a large baking pan was produced, and in this a fire was made, over which bacon was fried on sticks and can covers, and potatoes were baked. Dry bread completed the delicious refreshments, which were highly appreciated by the members of new club.

THE D'FORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Theford's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by Theford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than Theford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901. I have used Theford's Black-Draught for three years and have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.
