Just a little too far and the woman who reaches over the cliff for the coveted flower goes crashing down into the abyss below. Just a little too far and the woman, who, day by day, neglects to cure the womanly diseases which weaken her is prostrated upon a bed of sickness. No woman should trifle with the diseases peculiar to her sex. Neglect to-day means a worse condition to-morrow.

Dr. Pierce's Favorite Prescription is a safe and reliable remedy for the cure of diseases peculiarly womanly. It establishes regularity, dries enfeebled drains, heals inflammation and ulceration and cures female weakness.

"My wife, Mrs. Mary Estes, has been taking your medicine and received great benefit from it," writes Mr. Geo. Van Hates, of Spring Grove, Va. "Was troubled with female weakness, heavy, bearing-down pains, severe pain in back and head, and a tired, worn-out feeling all the time. Tried all the remedies we could hear of, but they did no good. Finally we wrote to you and my wife commenced taking 'Favorite Prescription.' Took ten bottles, and is in better health than before in a long time. We shall always recommend Dr. Pierce's Favorite Prescription to all who are thus afflicted."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women. The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent free on receipt of twenty-one one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Japanese Land Troops in Corea

(Special to the Coast Mail.)

St. Petersburg, Jan. 23.—Official circles are bitterly lamenting the necessity of making concessions to Japan because of Russia's inadequate seaport defense, and are determined to augment their fleet until it will be able to combat even the British. Russia proposes to expend fifty million pounds for warships.

London, Jan. 23.—The Tokio correspondent of the Central News today wires that an official emergency gazette is being promulgated containing special regulations for harbor, roadstead and coast navigation.

The move is regarded as having great significance, as it practically puts the mercantile marine under war regulations.

London, Jan. 23.—Delay in the Russian reply to the latest note from Japan is causing the customary crop of sensational statements pointing to imminent war in the far East.

A telegraphic report says it understands there is no likelihood of a compromise, owing to the unyielding attitude of Japan on the Manchuria question, and the fact that in the last note to Russia Japan struck out the whole article in the draft of the treaty, relating to the demands of Russia for neutralization.

A correspondent this morning at the port of Chee Foo sent an alarming report that twelve thousand Japanese troops had landed at Masampo in southern Corea.

The Port Arthur correspondent to the Paris edition of the New York Herald also refers in a dispatch to the fact that the news of the occupation of Masampo is being received calmly.

EDITOR SUTTON ALMOST HAS HAIR-BREADTH ESCAPE

From Wednesday's Daily.

The editor of the Tribune came near having a hair-breadth escape a few days ago. We were on our way to Hubbards creek during the severest part of the wind storm. We were passing along a portion of the road lined on both sides with tall rotten dead trees; and the road was narrow and hedged in with bank and thick brush; we were just thinking how we should escape if one of those trees should fall lengthwise of the road, for we knew they would give little warning, when suddenly came an unusually heavy blast of wind, causing all the trees to bend and swing and sway at a terrifying rate, and in trying to keep our eyes on all of them, we noticed more than a half dozen coming directly toward us when suddenly the largest and tallest one started to swing back into place and all the others followed suit, otherwise this item might not have appeared in print. We only escaped by reason of the trees having decided to postpone their falling.

CYCLONES AND ICE GORGES

Cause Loss of Property
and Life

Things From Which
We are Free

Special to the Mail.

Birmingham, Ala., Jan. 22.—Cyclones are reported from several places in Alabama this morning.

In North Birmingham there was a disastrous fire. Stores and several residences were blown down and a number of persons hurt.

Reports show a heavy loss of life in Moundville, seventy miles north of here. The conductor of the Cape Hart. Queen and Crescent railway wired from Akron that he could not pass Moundville owing to the wreckage on the tracks. He declares the inhabitants of the town are killed. In the northern portion of Moundville practically the entire residence section is destroyed and the population killed. It is believed that the report is exaggerated.

Cincinnati, Jan. 22.—Twenty miles of ice are coming down the Ohio river in a flood. A big gorge at Coney Island let go this morning. Several barges have been destroyed.

Indianapolis, Jan. 22.—The first casualty from the flood occurred at 5:30 this morning. John Shobe and wife were drowned while trying to escape from their house in a boat.

The entire west part of Indianapolis is practically cut off this morning, while the river bridge is tottering.

Dispatches from Terre Haute and Vincennes on the Wabash this morning say that dynamiting the ice under the bridges may save the structures.

"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for."

"In consulting with my druggist he advised McEree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."

Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui.

BRUTAL RUSSIAN MARINES

Commit Outrages at
Vladivostok

Japan to Issue Large
War Loan

Siberian Troops to be
Mobilized

Special to the Mail.

London, Jan. 25.—The Tokio correspondent of the Times says that letters received there from Vladivostok declare that a party of Russian Marines landed there January 9th and subjected the Japanese residents to great violence. They wrecked 24 houses, maltreated women and inflicted wounds upon aged persons and children. The rioters were accompanied by officers and were not restrained by the civil authorities.

Japanese newspapers advocate the withdrawal of all the Japanese in Siberia, and ask what may be expected in the event of hostilities if such things occur during peace.

London, Jan. 25.—Special dispatches from Tokio published yesterday, report that the Japanese Minister of Finance had a conference with Japanese bankers, and decided to issue a loan of one million yen.

Japanese newspapers assert that at the new year reception the Czar reminded Minister Karino that the Japanese ought to remember Russia's great power.

The Daily Telegraph says that it learns that the Russian Viceroy Alexieff recently advised the mobilization of Siberian troops. Minister of War Kuropatkin dissented, but the Czar, after considering the matter, concurred with Viceroy Alexieff and the necessary orders were issued.

Jake Maston, of North slough is in town, and has the thanks of this office for some of his product of cranberry plums, which are fine.
