Earning His Salary

The city dog catcher is doing a good business this month and has already taken the scales of about 35 canines who were not wily enough to escape his long grasp, in fact the common dogs of

the town at once begin to smell something as soon as this high and lofty official comes in sight and they have business in some other part of town. The fee now goes into the city treasury as well as the teamsters' licenses of which there are 19 now issued. Besides all this revenue there was one cow and one drunk, and two more dogs yesterday. The city marshal is surely earning his salary now.

Sciatic Rheumatism Cured

"I have been subject to sciatic rheumatism for years," says E. H. Waldron of Wilton Junction, Iowa, "my joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a wonderful liniment." For sale by Jno. Preuss.

"FOOL EDITOR" CALLED DOWN

A North Bend Citizen vs. the North Bend Citizen.

Editor Daily COAST MAIL, Marshfield, Oreg.

Gentlemen:

Yesterday's attack on Hume shows to what extent a "fool editor" can go. Everybody that is familiar with Gold Beach and Wedderburn knows that there is not a person or firm that treats with his laboring class as liberal as R. U. Hume. The statement that he works his employees eleven hours for a day's work is as false as is his charge that he rents houses to his Chinamen free and charges his white help rent, after hauling them thirty miles, etc.

Everybody on this coast that runs a fish cannery employs Chinese. Mr. Timon, at Bandon, Southern Oregon Co. at Empire, H. Sengstacken, at Marshfield, and Reed at Umpqua, all have to employ Chinese, and they all have to make a contract with them and guarantee so many cases, fish or no fish, besides their expenses in and out of the country, together with their bunkalation or house rent, as the "fool editor" calls it.

A short time ago the readers of the "Oregonian" could have read a piece, stating one cannery had suspended operations failed for \$20,000. The cause was guaranteeing so many thousand cases to the Chinamen and no run of fish. Just the same way Mr. Hume would have had to haul Chinamen back over this rough road of thirty miles free, while the boss Chinamen carried the sack, if there was no run of fish. Did the "fool editor" stop to think of this side of the question? If Mr. Hume was so unkind to his working-men how is it he pulled every vote in his precinct, excepting three votes.

Now, we know that Mr. R. D. Hume has donated to the boys on Coquille River \$1200, towards boring for oil, and the boys interested in this Oil Company are not going to forget it this coming election. Also Mr. R. D. Hume sent his tug to Coquille River and stocked the river with spring run of young salmon, free to all. Also he got a bill passed to protect these and all other young salmon from being caught with hook and line.

The fishermen on Coquille are not going to forget Mr. R. D. this coming election.

Now, Mr. "fool editor" of the "North Bend Citizen" if you have any more charges against Hon. R. D. Hume we hope you will make it known quick, because the Primaries are near at hand and you will be so sick after they are over that you cannot write them. But for goodness sake, don't be so silly as you have been in this article referred to.

Jeff Thrift, who has been at work the past week assessing North Bend, returned to his home in Coquille on account of sickness in his family.

The Ivy which sailed in as big as life Thursday under the guidance of a new captain went high and dry on the mud. The tug has made several pulls without avail.

John C. McDugal representing J. H. Newbauer & Co. of San Francisco, wholesale grocers is on the bay visiting his many friends and supplying his trade.

The Empire came in today and while coming up the bay towing a scowload of spuds, the scow was swamped at Sengstacken's warehouse. Some of the potatoes were lost.

From the Bandon Recorder—Saturday brought E. S. Dean, of Myrtle Point, this way. Mr. Dean is an aspirant for political honors for the republican side of the house, and was probably out on a hand-shaking tour. He wants to do some assessing during the coming term.

Growing Fast

The A. O. U. W. lodge at North Bend took in 25 new members last night, making 70 in all. The new lodge now has the distinction of having taken in more members during the past month than any Workmen lodge in the state of Oregon. North Bend Lodge No. 89 is the name and within the next two weeks they expect to give a grand banquet to their friends and members.

W. H. Short has turned his interest in the Blanco Hotel over to E. J. Flanagan who will operate the house for the present.

An operation was performed upon Wm. Nasburg this afternoon, for appendicitis. Dr. Mingus had charge of the operation. At the time of going to press we had not learned the success of the operation.

Mr. A. B. Roller has arrived in Marshfield from San Francisco. His occupation is that of Sign and Pictorial Painter and we are pleased to note that he intends to locate here permanently. He is a brother to Mrs. E. M. Furman of this place.

First Steamer to Land

The Empire landed today at North Bend at the new dock, she being the first steamer that has landed at the city dock. The event was celebrated by the blowing of whistles and ringing of bells.

"I have used Chamberlain's Stomach and Liver Tablets with most satisfactory results," says Mrs. F. L. Phelps, Houston, Texas. For indigestion, biliousness and constipation these tablets are most excellent. Sold by Jno. Preuss.

Did You Ever

It may be interesting to some who have slipped in "just a few words" of writing in a package of paper or merchandise mailed at the lowest rates to their friends, that the abuse has become so common that postmasters have been instructed to examine such packages and report, if writing is found to the department officials. The next he knows will be a visit from a Deputy U. S. Marshal with a warrant of arrest, the result being a fine of \$25 and the cost of action.—Ex.

A Successful Business

Mr. E. Marsh the Racket store man has now been in business two years in Marshfield. His business the Racket store was an experiment. It is now an assured success and one of the fixtures of Marshfield and will some day be one of the leading businesses of the town. The business has almost outgrown its present quarters. Mr. Marsh is not pushing the business as aggressively as possible on account of his health, but is more than satisfied with the treatment he has received, coming to our midst a stranger.

Coquille Schools

(Coquille Bulletin)
The school census for 1904 shows a total of 420 children of school age in district No. 8, which comprises the city of Coquille, and about 50 children who live outside the city limits.

The public school building in this city will be enlarged as soon as this term of school is finished. The lumber is being hauled now and two new rooms will be added which will provide for the increased number of pupils. It is a deplorable fact that with a census of 420 of school age in this district only about two-thirds of that number attend school.

From the Gardiner Gazette

Scarlatina, a mild form of scarlet fever, has appeared in town. It is not expected that it will become prevalent or that it will be of a serious nature. It would be a good precaution though to close public school early and not have the private term proposed until it is stamped out.

An interest is manifested in turning some of our many peat bogs into cranberry gardens. The beavers have left many such spots ready for improvement. Experienced growers are now upon the ground looking over the prospects; upon their report will depend an important industry. We have suitable ground. Where they are now owned and the owners do not care to improve the ground satisfactory arrangements should be given growers to do so.

The new machinery and lighting plant lately installed in the mill here is pronounced a success. Much more can be accomplished now with the same force than formerly.

Severely Burned

(Coquille Bulletin)

Last Monday morning when Edwin Ellingson was starting a fire in his brother's furniture store, a can of gasoline, sitting too near the stove, exploded spattering the liquid over the young man which caused his clothing to take fire. He ran to the back door and called for help which, fortunately, was near, and after rolling him in a pool of water in the middle of the street the flames in his clothing were extinguished. He had been badly burned about the legs and arms, but his woolen sweater protected his body.

A crowd had collected by this time and all turned their attention to extinguishing the flames in the building, which had gained considerable headway. By heroic and energetic efforts, these were soon under control and very little damage was done.

At last reports the sufferer was getting along as well as could be expected, but was still in considerable pain.

This emphasizes the necessity of extreme caution in handling gasoline. It is one of the greatest dangers we have to contend with in modern times, owing to its great tendency to quick explosion and the universality of its use. Too much caution cannot be taken when this article is kept on the premises.

Coquille Valley Creameries

(Bulletin)

The Coquille City Creamery commenced operation last Monday under the management of Nosler & Lyons. They are receiving milk only on alternate days at present until the season opens up more fully.

The patrons of the Coquille Ice & Cold Storage Company had a meeting last Saturday and it was decided to run the plant on the same plan as last year. The owners will manufacture the butter and sell it for the patrons on commission. No cheese will be made unless by special request of those furnishing the milk. J. A. Davenport will act as manager and Wm. Slingsby will "sing" the paddles. They will begin operations next Monday.

The meeting of the patrons of the Star Creamery at Norway last Saturday was a very satisfactory one in every particular. The same directors were re-elected, with the exception of Mr. Strong, who has left the county. Tenn Robinson was elected in his place and H. L. Carl was elected manager. The concern is to manufacture butter for the patrons at 3 cents per pound the coming season.

Serious Stomach Trouble Cured

I was troubled with a distress in my stomach, sour stomach and vomiting spells, and can truthfully say that Chamberlain's Stomach and Liver Tablets cured me.—Mrs. T. V. Williams, Laingsburg, Mich. These tablets are guaranteed to cure every case of stomach trouble of this character. For sale by Jno. Preuss.

NORTH BEND SECURES MORE MANUFACTURES

The Coming Manufacturing Center of Southern Oregon

The people of North Bend have secured the establishment of a paper pulp and paper mill, capable of employing over 800 people, thus adding another new industry. The Mill is informed, however, that there is an obstacle to be overcome before this valuable acquisition to the manufacturing industries of Coos Bay can be an assured thing, and that is a guarantee of an adequate water supply. It will be necessary for something over 200,000 gallons per day, at a low rate, and it is found that this supply cannot be obtained from the present facilities, as the growing demand for water in the new town is so great now that it will possibly preclude this heavy additional demand. Yet Mr. Simpson hopes in the near future to arrange for an adequate water supply so there will remain no barrier to any industry for which there may be room at North Bend.

We are informed that the furniture and box factories are safely landed and that both will be in operation before six months have passed.

Mr. L. L. Duffenbaugh, a young man from Spokane arrived on the Alliance yesterday and will take a position with I. S. Kaufman & Co., in their real estate agency.

Capt. Levi Snyder who came over from the Coquille to go to the Asylum as assistant guard for an insane man was obliged to return home today, on account of an attack of the mumps. He was obliged to secure another deputy.

Wm. Nasburg who was operated upon Saturday for appendicitis has rallied from it in fine shape and is in a good way to recover. The physicians who did the work say he was one of the worst cases ever operated upon on Coos Bay.

The Geo. E. Chamberlain club met Friday night in secret conclave in the Firemen's hall. Much important business is being transacted and the Democrats are going to put up the fight of their lives in Coos county the coming election.

Best Cough Medicine for Children

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves out cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success.
