A Thoughtful Man

M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Jno. Prouss Drug store.

In quoting the strong endorsement of Steve Galier for sheriff from the Coquille Bulletin, the Mail somehow neglected to give the date of the issue from which the clipping was made. It was June 1, 1903.

Ray Campbell met with a serious accident on Saturday. It is thought a collision with a wheelman was the cause. Ray was picked up unconscious, and remained so for some time. The wheelman with whom he collided did not stop to make himself known.

A serious accident occurred on W. F. Murphy's railroad yesterday. One of the trainmen a little wild and went down over the embankment. Mr. Murphy will have matters running again in a few days. The same old conductor will have charge.

Mr. and Mrs. C. H. Merchant returned on the Alliance. They have been absent about 4 months, the latter part of which was spent in the Hawaiian islands. Mr. Merchant looks fine, but will find that he is likely to lose his laurels at the leading gardener of South Marshfield, our marine reporter having got the head start.

Myrtle Point Enterprise—A hundred cases of measles and that many cases of mumps in Myrtle Point—Coast Mail. This is the biggest one ever. About twenty cases of measles and not over six of mumps is the right figure. This report though is about as reliable as the Mail's Scripps-Rea telegraphic service, and like the "wild man" dispatch, probably originated in the inflated mind of the "grater" who edits the "pony" daily.

Citizens Mass Meeting

Another effort is being made to rally the latent Fourth of July celebration movement, and a mass meeting will be called for that purpose. We have been informed that many of the citizens of North Bend stand ready to join Marshfield in a grand celebration. It is to be hoped that the Marshfield business men will take the proper step to carry out a successful celebration. The meeting is called to meet at 100 F hall on Friday night April 22.

Robbed the Grave

A startling incident is narrated by John Olivet of Philadelphia as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to see Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed at Jno. Prouss drug store.

He Caught Shiners

Wm. Doyle was the first victim to become entangled in the meshes of the law for catching shiners on the Coquille. He pleaded guilty and was given the minimum fine \$50.00.

This should be a warning to the small boys around town who are in the habit of catching shiners in the sloughs tributary to Coos Bay.

Advertising Coos Bay Pays

Mr. and Mrs. Hinch are new arrivals in North Bend. They are from Oswego New York, and the family consists of five married sons and daughters, and are expected to arrive from the East in the near future to locate here permanently. Mr. Hinch will shortly begin the construction of a comfortable home and is negotiating for property to build on. These families coming here from New York are the direct results of advertising done for Coos Bay.

HARRIMAN BUYS A CALIFORNIA RAILWAY

A late San Francisco dispatch says: E. H. Harriman has bought the North Shore railway and about three weeks ago took all the company's 60,000 shares of stock for \$800,000. The deal was closed by an agent of Harriman under the promise to the heavy stockholders that the small stockholders should be taken care of.

For some reason Harriman pledged all interested to secrecy. In addition to purchasing all of the stock Harriman and his friends are to take at par, \$1,500,000 40-years 5 per cent bonds of the company. Both Harriman and Huntington are interested with W. A. Foster in the California Northwestern and it is quite likely that the Foster people will superintend both roads to save expenses and separate management.

William Holland and Jack Carter were up Coos river yesterday. While up there they met a large deer floating in the river which had evidently been run by hounds. The animal took refuge in the water and being too exhausted drowned.

A Lost Calf

Cap Harris was a calf short when he reached Marshfield this morning. It is presumed the calf slipped off the hand car unnoticed. Cap never missed it until he reached town. He is quite sure that the animal will not stray far from the track as it was partly dressed having the feet cut off at the knee joints and the hide nearly all off. Yet those Samner calves are quite high priced at times and a person can't always pretty near tell what they will do.

Pleasantly Entertained

The members of Mascot Lodge, Degree of Honor of Marshfield, invited some of their friends and members of McCormac Lodge, D. of H. North Bend to an informal meeting on Tuesday night.

There was a big sensation in Leesville, Ind. when W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma but your New Discovery gave immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c, and \$1.00. Guaranteed by Jno. Prouss druggist. The Primary Law Vindicates Itself

The primary law has again more than vindicated itself and proved its popularity. It is not without defects, but the defects are rather in the nature of omissions than of unfortunate arrangements. Its popularity is shown in the heavy percentage of votes polled and its value is shown in the judiciousness with which the voters exercised their choice. There are probably few who would not like to make some substitutions in the tickets, but on neither ticket, except in one or two cases where there was no contest, have the voters selected any distinctly vicious candidates. The assembly tickets are particularly satis-

factory, and in the various aldermanic contests the fittest men, all things considered, seem to have won.—St. Paul (Minn.) Pioneer Press.

Getting Along Comfortably

Mrs. A. Markievitch has received the following report from the asylum as to the condition of her unfortunate husband:

Salem, Oregon.

Mrs. Rosa Markievitch, Marshfield, Oregon.

Dear Madam:

I am instructed by Dr. Calbreath to inform you that your husband continues to get along comfortably. He is much less excitable and irritable than when first received here. He still believes in his delusions concerning the persecution he was undergoing at home, but is much less resentful and does not talk about it unless questioned, which is a rather favorable indication. He is quiet and gentlemanly in his conduct and is kept in the best ward we have. A portion of the time he occupies himself by working in the tailor shop which employment he seems to enjoy. His general health seems to be quite good.

Yours truly,
W. D. McNary,
24 Asst. Phys.
