The Social Whirl

ART CLUB MEETS

The Ladies Art Club met at the home of Mrs. Is Lando, yesterday afternoon. A full turnout was present and a delightful time was had. This club is making good progress and is now one of the strongest of its kind in Southern Oregon.

Marshfield is fast coming to the front as a club town, having in its midst several clubs within the Federation of women's clubs, besides a number which will be in that class soon.

At the meeting yesterday, when the business functions had been carried out and attention turned to social features, refreshments were served, and a general good time was had. The hostess was showered with compliments and the hospitalities of her home by the club and the occasion will be remembered as one of the pleasantest in the club's existence.

EVENING PARTY

Mr. and Mrs. Peter Scott entertained a dozen of their friends very pleasantly Friday evening at their home in South Marshfield. The party had been arranged as a welcome for their son Peter, who has just returned from a trip to Australia on the Chehalis and was expected on the Alliance from Portland. The guest of honor did not arrive, but the other guests were pleasantly entertained, nevertheless, with games, story telling and refreshments.

SURPRISE PARTY

The home of Mrs. and Mrs. E. Huckendorf last evening was the scene of a most enjoyable surprise party, given in honor of Andy Nielson, who has just returned from an 8 months trip to Australia and the Hawaiian Islands. There were about 25 young people present and the hours sped swiftly by while music, dancing and games were in progress. Delicious refreshments were served at 11 o'clock, after which the various amusements were resumed until the wee hours of the morning, when the crowd dispersed.

From Our Exchanges

(Coquille Bulletin)

It is reported on good authority that the machinery for the Bandon Woolen mill has been purchased and a man is on the way to install it. Prospects for a pulp mill are also said to be favorable. The Bandon people are hustlers and deserve to succeed in landing both of these enterprises, and we wish them success.

The Prohibitionists held their convention in this place last Friday and made the following nominations: Joint Senator, G. M. Dimmitt; representative, C. D. McFarlin; clerk, Frank Sumner, commissioner for two years, I. N. Wilson; for four years, E. A. Howey; assessor, J. B. Sweet; coroner, Mr. Coleman.

John Perrott exhibited to us some eggs this week which we think are hard to beat for size. One of them measures six and one quarter inches in circumference one way and seven and three eighths the other. The hen that is responsible for this product is a full blooded Black Mono cha, and Johnny has named her Martha Washington. These are not occasional eggs that are so large, for Martha lays one of the same size nearly every day. Long live Martha and may her tribe increase!

(Port Orford Tribune)

C. S. Winsor, for many years superintendent of R. D. Hume's business at Rogue River, was in town one day last week. Mr. Winsor informed us that he had secured a very desirable position at North Bend, and that he would immediately move his family, now at Smith River, to that place, where they will make their future home. Mr. Winsor is one of the most expert accountants on the coast as well as one of the most thorough all round business men, and his numerous Carry county friends will be pleased to learn of his success in obtaining a position exactly to his liking.

(Bandon Recorder)

The steamer Elizabeth brought in about 60 tons of freight last Sunday for the river trade. Among the lot was a considerable lot of farm machinery. Captain Peterson made a quick trip up from San Francisco last trip in, the schooner Coquille being out only three days. He was seven days going down, and spent fourteen days, this being

about as good a time as has been made by a schooner in going to the city.

After a long delay, Bandon is to have a new Woolen Mill. Mr. Bedillion informs us today that he has succeeded at last in raising the necessary funds to purchase one of the most complete plants in the United States for the size of it. This plant will be about the same size as the one which was taken from here to North Bend a short time ago, but will have the latest improved machinery and a greater spinning as well as weaving capacity, the engine and boiler also being larger than in the former plant.

The deal has been made for the machinery and construction will begin in earnest on the buildings, early in May. The site has not been selected yet, although one has been given the new company by Mr. Bedillion. It is now thought that it may possibly be built nearer town and on deep water, thereby avoiding the long, tedious hauling back and forth to and from the mill.

All that now remains to be done to insure the success of this undertaking, is the raising of a few hundred dollars by the citizens of the town who have not already taken stock in the proposition, and of this we have been assured. As the capital stock is mostly local, local help will be employed in the construction of the entire plant. A thorough mill man will be sent east as soon as possible to inspect and take up plant and place it in readiness for removal to this place. The company will incorporate at once for fifty thousand dollars.

The above information has been given us by Mr. Bedillion, who has been the prime mover in this matter up to the present time.

"A HOPELESS DEMOCRAT"

Rips The Republican Party Up The Back

Ed, Coast Mail:—I see in yesterday's Mail an able editorial in the support of the Hon. J. S. Coke for Joint Senator. I do not propose to lay any thorns in Mr. Coke's path nor crown his opponent with roses. Furthermore I do not owe ye editor any malice for I fully realize you are preaching your coveted doctrine. But I do acknowledge myself as one of those hopeless Democrats who is striving with the multitudes to break that great trust the Republican party which is sapping the laboring poor which is the backbone and sinew of the world, to fat the lamb for monopolistic boodlers of the nation.

Why is the Republican party great? Because our administration and law makers are the greatest body of boodlers in the world. Why do they stay in power? Because they have control of the sack and use it for political purchase and are backed by the great syndicates, and trusts which they franchised into their dominant power. It should be remembered that since Mr. McKinley's inauguration there has been more trusts formed, more millions, made by them, more strikes and more criminal depredations than in any like period in the history of our government. I fail to appreciate such as a free and loyal administration and I believe if Christ descended to the White House and both Houses of Congress to bestow upon the worthy the golden wings, on investigation He would arise with his full load of wings and construe the opening Senate prayer as for the father fattening of their lamb and the leaching of their so called inferior laboring subjects. I do not wish to harm Mr. Coke as a candidate or a good citizen or any other good Republican but simply and clearly set forth, the reason why all hopeless Democrats and others should repair from boosting the old trust party into the farther monopolistic power.

"Disciples of Sir Isaac."

Are distracted, and and sore, That their days for "shiner" fishing Now have gone for ever more, And they pray some one to tell them, How to work the problem out, When their hook gets in a "shiner" Tho they cast it far about.

Yes, its hard for e'n a christian, When he feels a frisky bite, And he lifts his rod so gently 'Till the game comes into sight, Yes, his very vitals tingle And his soul filled with doubt, 'Till the "shiner" safely landed Proves to be a frisky trout.

And my brothers it is trying To the morals of us all And there's many truthful people Prone to taking a sudden fall— Prone to lose their moral vision 'Tho their lives have been devout Who will look upon a "shiner," And can only see a trout.

I myself am pretty goodly And would blush to tell a lie, But when gazing on a "shiner" Comes a weakness to my eye— Such a dimness, that I can't tell The small "shiner," from a trout And so the verdict always goes In favor of the d.oubt.—Ex.
