WAR TIMES AT CRIPPLE CREEK

Vivid Description by Special Writer

District Now Quiet---Deportation Continues--- Dynamite Fiends Still at Large--- "Death to Unionism"

Cripple Creek, June 10--(By B. W. Kenny) Bayonets ruled Teller county last night. Civil government is suspended and the only law recognized is the law of might, the law of Krag-Jorgensen and Winchester. Two military expeditions went into the mountains yesterday. One was to Portland mine, one to the Union mine in the vicinity which employed 500 men who contributed heavily to the strike fund. General Bell decided to close this mine because it "harbored lawless men and is hence a menace to the community."

Bell's second expedition composed of infantry and deputies marched to Gillette late yesterday afternoon to arrest strikers. The expedition divided into three sections and to prevent careless deputies or soldiers from firing on correspondents, bands of white ribbon were tied on the newspaper men's arms. Three miles from the scene fire opened on our detachment. The soldiers claimed that the shots came from Winchester using smokeless powder. Deputies and soldiers deployed in open formation and charged up the mountain side. This ended the attack. One man was seen to plunge out from behind a scrub oak as though hit; then he disappeared. The soldiers searched but could not find him, but discovered his rifle. Later the dead body of a man was found shot through the head.

At Gillette about 250 strikers were rounded up and brought to Cripple Creek bull pen where fifty-seven strikers were confined, guarded by a dozen armed men. The mountain jail holds about two hundred at Victor and about two hundred in the bull pen, and squads of soldiers and deputies are bringing more every hour. Twice in two days onloads of these men have been sent to Denver.

To deport the harmless ones and hold the others for trial is Bell's order. The Citizens' Alliance is running the district. Its membership includes the best people of the town, bankers, lawyers, merchants, doctors, ministers. They say frankly no union man or union sympathizer shall remain in Teller county alive.

Editor Kynor, of the Victor Record, whose plant was wrecked, arranged with the Cripple Creek Star to have

his paper issued from that office. The Alliance, it is said, notified the Star that if this were done the Star would be wrecked. The Star people decline to discuss this rumor.

Cripple Creek, June 10--The district is quiet today. One hundred men will be deported this afternoon and deportations will be made daily hereafter until all objectionable persons to the Citizens' Alliance and Mine Owners Association have been forced to leave. So far no arrests in connection with the Independence outrage have been made, but it is intimated that the authorities are trailing the man who is said to have discharged the mine. A female relative who is supposed to have furnished the buggy in which to take the man from the district after the explosion has been arrested and is said to have confessed.

Work has been resumed at the mines employing non union men which had been closed since Monday, the Stratton and Independence mines being the first to re-open. The Portland mines remain closed. The employers of different branches of business in the city have signed "Death to Unionism" agreement, and no union cards will be necessary now. The present scale of wages will prevail and individual unions will be tolerated if conducted on conservative lines, giving no aid to the Western Federation.

This warfare is to extend to every city and town of the district. Today the authorities state there is the usual safety to the citizen's life and property. The streets are quiet and the lawless element not deported is in jail. Hence no further disturbance is expected.

Victor, Colo., June 9--Gen Bell at two this afternoon issued a proclamation closing the great Portland mine, on the ground that it harbors a dangerous class of men. The Portland is the only union mine in the district, and employs from 700 to 800 men.

Victor, Colo., June 9--A squad of mounted infantry men are pursuing fifty-five union miners in the Beaver Creek region. They have orders to shoot if arrested is resisted. It is feared the death list will be large.

ON TRAIL OF TRAIN ROBBERS

Bandits Expected to get Tired out

Glenwood, Springs, Colo., June 10--Pursuit of the remainder of the train robbers was resumed this morning by a posse. During the night the outlaws escaped the round up.

Blood hounds are on the trail and it is thought the men will be obliged to give up from exhaustion, as there are few ranches about from which to draw sustenance.

The body of Tom Ross, who was killed in the fight yesterday, was brought in from Newcastle this morning. Nothing is known of his antecedents.

CONDENSED DISPATCHES

Police chiefs' convention selects San Francisco for meeting place in 1905. Richard Sylvester, of Washington, re-elected president.

WILL CONTEST ELECTION Democratic Nominee for Sheriff Contemplates this Step

Touching the report that he intends to contest the election of Stephen Gallier, as sheriff, Z. T. Siglin, the Democratic nominee, informs the MAIL that if he finds that sufficient grounds exist he will certainly do so. He has been informed of certain illegal votes said to have been cast, and he will investigate the matter thoroughly, and if he finds that the facts will warrant him in doing so, he will take steps to contest the election of Mr. Gallier.

TWO CALIFORNIA HANGINGS

Mexican and Japanese Executed

San Quentin Prison, June 10--Francisco Ochoa, a Mexican, was hanged here this morning for murdering his mistress in Bakersfield. During a quarrel with the woman he beheaded her. He was to have been hanged two weeks ago, but a reprieve arrived as the death march was about to begin. The execution was without incident.

Folsom, June 10--Hokichi Hidaki, a Japanese, was hanged here this morning for the murder of three Japanese, one a woman, in Sacramento a year and a half ago.

He claimed that the woman on promise of marriage secured his money, and then married another. He followed the couple and shot both. In attempting to escape he killed another Japanese.

BREAKWATER HERE AT LAST

Greeted With Cheers and Music of Bands

The steamer Breakwater certainly received a warm welcome on her arrival here on her initial trip. The people here realize that the placing of a magnificent boat on the run between here and San Francisco means much for the Bay, and is an important step in the way of bringing this place more closely in touch with the outside world.

Many went down on the excursion, accompanied by the Marshfield band to meet the Breakwater in the lower harbor and accompany her on her triumphant progress up the bay. The North Bend band also went down with a goodly number of people from that place.

The steamer landed at North Bend where she discharged freight, and reached the Marshfield dock at 1 p. m. Here she was met by a great part of the inhabitants of the town, and received a most enthusiastic reception as she drew up to the wharf at the foot of A street.

Marshfield's streets have been filled for the greater part of the day with ladies in gala attire, who had turned out to greet the new steamer, some of them having left their breakfast dishes standing for fear of being too late to meet her as she came in. With band music and cheers, the owners and officers of the boat must have been convinced that Coos Bay is pleased with the new boat.

The Breakwater comes fully up to the expectations raised by the descriptions that have been published, and Coos Bay certainly has cause for congratulation that such a boat has been added to the fleet plying here.
