### Is Likely to Fetch up Behind Bars

### Will Get off the Bonds of Boodlers

St. Louis, June 30—An indictment will be voted by the grand jury against Col. Ed Butler on a charge of compounding a felony and being accessory after the fact to bribery committed by Charles F. Kelly.

St. Louis, June 30—Col. Ed Butler, the millionaire Democratic boss who furnished bonds for the alleged convicted boodlers has surrendered Chas. Gutke, who confessed yesterday, implicating Butler in alleged boodle deals.

Chas. Kelly, ex-speaker of the House of Delegates who confessed yesterday, will also be locked up. The police say that Gutke and Kelly have been threatened with assassination. Butler says he will get off the bonds of the alleged boodlers.

## Aug. Schmidt's Condition

The following letter, just received, will interest the friends of Aug. Schmidt, who was committed to the asylum from this place last summer:

Salem, Or., June 27th, 1904  
James White.

Marshfield, Oregon.

Dear Sir:

I am instructed by Dr. Callbreath to inform you that August Schmidt is still here. He has not expressed any anxiety or desire to leave the institution and in many respects he is much better than formerly, but there is still a morbid condition that remains with him. At times he seems to be fearful of some injury befalling him and often times will not want to go out of the building. He does not say why and will not admit anything that would prove this to be due to delusional control, though I am much inclined to think that it is so. We think it very questionable whether it would be proper for him to leave while this condition exists, and think it would be better to hold him for a while yet.

Yours truly,  
W. D. McNARY  
2nd Asst. Phys.

## To Log at Summer

The Dean Lumber Co. are to begin operations in their logging camp at Summer immediately after the Fourth. The work will be under the direction of O. J. Seeley, and a large force of men will be steadily employed all summer. This will be good news for the residents of the little burg among the hills, and will make it somewhat livelier in that peaceful settlement.

## SENATOR TURNER'S OPINION

### Thinks Parker will get Nomination

### Says Bryan Cannot run the Party

St. Louis, June 30—"Parker will be nominated on the second ballot in my opinion", said former Senator Turner, of Washington, this morning. "If it were not for Bryan's attitude Parker would be nominated on the first ballot, I believe. Unquestionably, Bryan is going to exert a great deal of influence in the convention, but the Democratic party is not going to allow any one man to run it, no matter how much he is loved and admired.

"Parker's refusal to submit to interviews while occupied in a judicial position, has added to his strength. The Washington delegation will be for Parker without a doubt. Hearst's money prevented the adoption of instructions, but the sentiment is strong in Washington and other Pacific coast states for Parker and a conservative platform.

## Fact vs Ficton

The COAST MAIL is excessively modest but cannot forbear noting the fact that in yesterday's issue it published 192 lines more of genuine telegraphic news than any other paper in Oregon south of Eugene.

Of course when the lines are down all day and no telegraphic dispatches come through by wire, as was the case on Tuesday, the MAIL is at a disadvantage compared with papers that have "wireless" service, but we manage to make it up when the line is O. K.

## Notice

Marshfield, Or., June 29, 1904.

To whom it may concern:—

This is to certify that I have sold my lighting plant and business in Marshfield and all accounts for service or goods furnished subsequent to May 1, 1904, are payable to my successors, The Coos Bay Light & Power Co.

F. M. Friedburg.

The party of South Marshfielders who were black berrying on Isthmus slough yesterday, returned to town heavily laden with the delicious fruit last night. A member of the COAST MAIL force acknowledges receipt of a berry.

J. W. Bennett has the most vociferous thanks of this office for a liberal supply of the splendid trout which were victims of his hook and line on his recent trip to Tenmile. If that is the sort of trout we have been hearing about, it is no wonder that Tenmile lakes are considered the sportsman's paradise.

### King and Kaiser Want Peace

### Edward on his Re- turn Voyage

Kiel, June 30—It is stated in official circles that the conference between the Kaiser and King Edward resulted in the conviction that the motive of each in the Far East is above suspicion and both desire peace.

## Where Barwhips Are Prohibited

There is a notable law in force in most of the large Russian towns concerning horses that deserves special mention. Among the curious things that arrest the attention on arriving in Moscow is the entire absence of whips among drivers of cabs, carriages and all sorts of vehicles. There is a law prohibiting their use. There is not a single whip in use in Moscow. The excellent condition of the horses attests the benefit of this humane law. Nothing can exceed the beauty of the sleek and well groomed horses used in the carriages of Moscow.

## His Conscience.

Peace as he was, the infamous Chief Justice Jeffreys did not always escape the sting of a repartee. He went to a country assize once where an old man with a great beard came to give evidence, but had not the good fortune to please the judge, so he quarreled with his beard and said, "If your conscience is as large as your beard you'll swear anything." The old blade was nettled and briskly returned: "My lord, if you go about measuring consciences by beards your lordship has none."

## Imitative Animals.

Some animals have wonderful powers of imitation. Dogs brought up in the company of cats have been known to acquire the trick of licking the paws and then washing the face. When a cat has been taught to sit up for her food her kittens have been known to imitate her action. Darwin tells of a cat that was in the habit of putting her paw into the mouth of a narrow milk pitcher every time she got the chance and then licking the cream off her paw. Her kittens soon learned the same trick.
