### STATEMENT OF THE WORK

Of the Coos Bay Chamber of Commerce for Year 1903-4

1.—We have printed and sent out 20,000 folders descriptive of Coos Bay and its resources, and have on hand 5,000 of such folders for distribution. These have been distributed in the following manner: To personal inquirers 5,000; To Oregon Information Bureau 4,000; To Immigration Department Southern Pacific Co. 6,000;

To St. Louis Exposition 3,000; To Commercial organizations and other distributing mediums in small lots 2,000.

2.—We have received and answered over 3,000 personal inquiries relative to Coos Bay.

3.—The population of Coos county has been increased over 2,000, and we believe that a great many of these people have been induced to locate in Coos county through the agency of the Coos Bay Chamber of Commerce.

4.—We have secured an appropriation of \$13,500 for the dredging of Pony slough shoal.

5.—We have petitioned Congress for a new project for the improvement of Coos Bay bar and harbor, calling for a mean low tide depth of thirty feet on the bar and twenty-five feet in the inner harbor, but were unable to secure the same at the last session of Congress for the reason that no River and Harbor bill was passed, but we have the assurance of the Oregon delegation that this project will be adopted at the next session of Congress.

6.—We have taken steps to have the U. S. Life Saving station moved from its present location to Charleston Bay.

7.—We have endeavored to secure the construction of a bridge across the mouth of South slough.

8.—We have taken steps to have the mail service improved by having a night clerk in the Roseburg post office, thus avoiding a delay of from 12 to 18 hours in the out going mail.

9.—We have assisted in every project which, in our opinion, would redound to the benefit of Coos Bay or its inhabitants.

Respectfully submitted,

BOARD OF DIRECTORS.

(From Tuesday's Daily.)

Chas. Lando and Robert Dillard made a 20 mile fishing excursion up Ischnus slough yesterday, returning late in the evening with aching backs and a stray kitten.

The town is filling up with people today in a way that promises an immense crowd here for Monday. A large number of Coquille people came over on today's train.

The stage drivers on the Coos Bay wagon road now drive all the way through to Roseburg, three men being employed, and each man laying off every third trip. The run is now made with daylight to spare.

The tug Hunter, Captain Cornwall, of Gardiner, arrived in the bay last night and, loaded with merchandise and other 4th of July goods, left on her return voyage for the Umpqua early this morning.

Miss Anna Johansen, of San Francisco, cousin of the Misses Eickworth of this city, was a passenger on the

Breakwater and comes to spend the summer with her relatives here. Her arrival was a glad surprise for her cousins, who had no idea that she was coming until they noticed her name in the Breakwater passenger list, published in the COAST MAIL last Thursday. Miss Johansen has a dress maker's parlors in the city.

### NIGHT WAS HER TERROR.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough and spit blood, but when all other medicines failed, three bottles of Dr. King's New Discovery wholly cured me and I gained 55 pounds." It is absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis, and all Throat and Lung Troubles. Price 50c and \$1.00. Trial bottles free at all druggists.

### Street Decorated

The decoration of Front street commenced yesterday and has continued today until the thoroughfare is well lined with young trees, giving it a decidedly holiday appearance.

Business houses are also decorating their fronts, Eugene Keane, having been the first to lead off, the Broker second and Lockhart's Pharmacy being also in the front of the procession.

### Ten Days Lay off

Wm. Ford, traveling salesman for the Pacific Hardware & Steel Co., of San Francisco, has secured a ten days' "lay-off" from his home and will spend the time with Marshfield friends on a hunting and fishing excursion out of this city. In the interim Mr. Ford will undergo an operation by Dr. E. E. Straw, who has taken the contract to change the partitions and otherwise remodel the interior department of his nose. After the nose has been hauled down to its proper place and straightened out sufficiently to be sighted over once more our commercial friend will undoubtedly "make good" with his old reputation as a hunter of large game.

### Tasteful Decorations

Among the decorations of Front street business houses, the palm easily goes to Eugene Keane, who has put a great deal of work into beautifying the front of his shoe shop, with very pleasing results. He has constructed an arch of greenery across the sidewalk, containing five different kinds of flowers and flowering shrubs. These are all native Oregon products and have been gathered by Mr. Keane on the hills near town. With a tasteful inter-mixture of flags and bunting they form a very pretty sight, and Eugene Keane can well feel proud of the result of his efforts.

### After Many Days

About twelve years ago, a lady living near the Coos Bay creamery lost a gold ring, set with an amethyst, which she valued highly. Indefatigable search failed to discover its whereabouts, and it was finally given up as irrecoverable.

Curiously enough, a week or so ago, the people now living on the place accidentally found the almost forgotten ring, lying where it had been uncovered by some surface change.

### Killed Large Panther

Frank Rogers and Floyd Coffelt killed a large panther yesterday evening back of Cy Noah's place on Coos river.

The varmint had killed two calves the night before, and yesterday Floyd Coffelt sent up for Frank Rogers to come down with his hunting dogs.

The latter came down on the Telephone, and the dogs were put on the trail. The panther was close by having evidently returned for a lunch, and he was treed in about 20 minutes.

The guns of the bold hunters then made short work of his panthership.

He weighed about 150 pounds and was in fine condition. These dogs of Mr. Rogers' are death on all varmints, and many wildcats and panthers, as well as bears, have met their death with the help of the pair.

(From Wednesday's Daily.)

Mr. and Mrs. J. B. Dulley, of Coquille, were greeting old friends in town yesterday.

The life saving crew were up from the lower bay yesterday and took part in the water carnival.

The prize of a tank of gasoline offered by the Standard Oil Co. for the best decorated launch in the water carnival last evening was divided by the Meteor and the Teddy.

The James Keane company last night played to the largest audience that Marshfield has ever turned out to a theatrical performance of any kind. It is estimated by some that over 800 people were present.

Mrs. G. W. Loggie, of New Whatcom, Wash., arrived on the last Alliance from Portland and is now visiting with her mother and sister in this city.

Any one finding a petition to the legislature, which was lost on the base ball grounds yesterday will confer a favor by leaving it with Hall and Hall or at McPherson and Ginner's.

Miss Leonella Liestrim, of Tenmile, was brought to this city last Friday to undergo an operation for appendicitis. The operation was performed last Saturday by Dr. Horsfall and as we go to press today the young lady patient is a fair way to recovery.

John Colgan, aged 91 years, was operated on by Dr. McCormac for appendicitis last Saturday and is today resting very nicely. This is the second operation Mr. Colgan has undergone for this malady, a complete operation at one time being unsafe on account of his age.

### A Mud Bath

Considerable excitement was caused Monday afternoon by little Mary Woodward, daughter of Mr. and Mrs. Geo. Woodward, falling through the wharf at the pavilion, where a plank had been raised for the purpose of sweeping trash through the opening. Fortunately the tide was out and no timbers were in the way so the little girl had a soft place to light and escaped with a mud bath. F. S. Dow and a young gentleman from North Bend going gallantly to the rescue.

They pulled themselves together, however, and drove on to this city where they had their wounds dressed by Dr. McCormac and were still able to whoop things up for old glory.

### BRUTALLY TORTURED.

A case came to light that for persistent and unmerciful torture has perhaps never been equalled. Joe Golobick, of Colusa, Calif. writes: "For 15 years I endured insufferable pain from Rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely cured me." Just as good for Liver and Kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists.
