A SAMPLE HIGH TARIFF FIRM

Among the New England concerns that sent up a strong and loud remonstrance against the Mills bill was that of Bowker, Torrey & Co., the owners of a marble quarry in Massachusetts. Their hearts bled for the poor workingman, and the proposal of the bill to put marble on the free list sent the shivers down the backs of these lovers of the laboring man. But the employes of these remonstrants evidently did not understand how much they were leved for they struck. Here came the practical test, an opportunity for Bowker, Torrey & Co. to show how fair they were, to demonstrate that the welfare of their workmen was uppermost in their hearts. They didn't arbitrate or treat with the discontented men, but undertook to supply their places with Italians. On Sunday morning eighteen marble cutters from Italy landed at Castle Garden on their way to work for Bowker, Torrey & Co., the quarry-owners in question. But upon a notification from the headquarters of the Knights of Labor in Massachusetts the Italians were detained and will be sent back in the next steamer. Not only have the laber-importing quarryowners failed to secure the foreign laborers but they have made themselves liable to a fine of \$1000 for every imported man. This is an excellent illustration of what these high tariff men mean by "protection to American industry." They object to free marble for although it might give a larger number of men employment, it would reduce the profits of the manufacturer. Everything that assists them to increased profits is good; everything that works for the benefit of the people and the employe is denounced as bad.

THE CONVENTION HALLS.

The Expesition Hall, in St. Louis, in which the Democratic National Convention will be held June 5th, is being put in condition for the great assemblage. With the arrangements now under way and completed, the hall will easily accommodate 15,000 persons. Of these, the delegates, alternates, 400 newspaper men, and 5,000 spectators will be accomedated on the main floor and the stage, and the remainder by the galleries. The seats will be so arranged as to give every person a full view of the stage. A Chicago despatch reports that the capacity of the auditorium to be used by the Republican National Convention,to be held there June 19th, will not hold over 7,500, whilst at least 12,000 admissions will be necessary. Of the \$35,000 promised for the convention's expenses only \$25,000 has been subscribed. The backwardness is attributed to the limited accommodations indicated and to the "exclusiveness" of the arrangements for the convention. Subscribers were to have one seat for every \$50 they gave, which would restrict the admission entirely to the rich, and shut out poor but worthy republicans.

TREMENDOUS OUTPOURING.

From a gentleman just in from Roseburg en this morning's train we learn that there was a tremendous outpouring of the people of Douglas county to hear John P. Irish speak last night in the interest of the elecion of John M. Gearin. People who had not been in town for months came in to hear Mr. Irish. Our informant says he has never heard a speech in the state to equal that of Mr. Irish. The speaker spoke for two hours and held the earnest attention of the large audience during the whole Republicans and democrats alike turned out to hear the gallant Irish. His speech was full of logic and convincing argument and entirely free from abuse.

NOMINATED.

The democratic county committee met last Tuesday and filled the vacancy on the county ticket by placing the name of E. J. O'Conner on the ticket for County Surveyor. Mr. O'Conner has done much of the surveying for the Oregon Pacific railroad company and is recommended to as as being thoroughly competent and deserving the support of the democrats of the county.

The friends of Alex, Brandon are waiting with ill-concealed impatience for an apology from the Herald-Disseminator for the cowardly, clandestine attack which that paper has seen fit, through its predominating characteristics of bad faith, to make upon the official standing of that gentleman. Well, they will wait in valu, for that paper seems to have no conception of the duty of making an honorable amend for an injury. If it had the courage or manliness to make open attacks upon Mr. Brandon,it might be regarded as possessing some self-respect, but the stabbing-in-the-back process which it indulged in last week brought the charge of cowardice from many republican lips.

When the republican convention is in session at Chicago, Mr. Blaine and his friend, the millionaire protectionists, Carnegie of Pittsburg, will be travelling through the Highlands of Scotland along telegraph lines easily accessible.

About the time of the republican state convention, the leaders of that party claimed, confidently, that Hermann would have 4,000 majority over Gearin. Many of them would be satisfied to take 2,000 now.

Now that Australia is to pass a tariff law laying a heavy duty on Oregon lumber may it not be said that Australia is protect ing its laborers against the "pauper labor of Oregon.

What do the people think of a newspaper that is compelled to run its editorials in its local columns? Shame on such conduct.

A MARION Co. ACCIDENT .- A young man named Bryan, who lives about two miles this side of Silverton, on Saturday mounted a horse bareback and with only a halter on, to ride him to pasture. Bryan had gone but a short distance when the horse shied and threw him, and then kicked and tramped upon him. The unfortunate man's head was badly crushed and serious injuries were inflicted upon his serious injuries were inflicted upon his breast. It is thought that some of his ribs were forced into his lungs. Bryan was picked up and conveyed to his bouse and medical assistance summoned. His life was sustained during Saturday night and Sunday only by administering heavy doses of morphine, and his death was expected at any moment. Bryan was already a cripple, his right side having at one time been paralyzed.—Vidette.

PUBLIC SPEAKING .- Hon. John P. Irish will address the citizens of Linn and adjoining counties on the issues of the day at the Court House in this city on Saturday, May 26th at one o'clock in the afternoon. Let everybody from all parts of the county turn out to hear the gallant defender of the interests of the masses of the people against the encroachments and tyramy of the pro-tected monopolies of the country. Mr. Irish is a man of great power in the dis-cussion of the tariff, and the opportunity to hear him is one in a life time. Farmers in particular should turn out in full force to hear him.

THE FAT NEWSBOY .- A DEMOCRAT man heard two drummers at the depot this noon swear that they would never again patronize the fat newsboy, and the fierce look in their eyes indicated that something was the matter.

TO THE THINKING PEOPLE OF ALBANY -Friends: Inasmuch as this is the day and age of sensational advertising and every business man is racking his brain trying to concoct some scheme whereby he can get ahead of his neighbor. We wish to deviate rom that rule and make the following statements, knowing that they will be appreciated by all lovers of truth and justice. We are here in business for the purpose of making money and we realize that in order to accomplish that object we must have a continuance of our large patronage. Furth continuance of our large patronage. Furth ermore we know that this can be assured only by extreme effort on our part and we wish to state that we will at all times give you first-class goods at prices as low or lower than any house in Albany and in addition allow you 5 per cent off on all cash purchases. The statement made by some dealers that they can buy cheaper than others is folly in the extreme as all cash buyers have equal advantages one with another. What we are striving to do is to merit your patronage and we loope by officer, what we are striving to do is to merit your patronage and we loope by square, upright dealing to do so and be of mutual benefit one to another.

Respectfully,
BROWNELL & STANARD,
