By the way, pow-a-days, this is the way they talk about the fast fellow on all occasions ; but we notice that fellow on fellow puts himself together again pretty quickly. This work of annihilation really is just simply in most cases a ma(ter of be-lief.

FALLEN OUT .-- A manipulator of antimony, who arrived in the city this morning from Southern California, where ise arked at Los Angeles during the winter, anys, as others say, that the bottom has fallen completely out of the boom there, and things are flat. We beg to be saved from inflated booms, organized for gam-bling purposes.

A Goon Tissn.-The excursion party re turned home from Salem Saturday night in good spirits, getting here about 10:30. They reported an excellent time and fine treatment by the Salem firemen. An elegant dinner was served at moon and good feeling prevailed. The Statesman has the following to say of the visit to that city : "The Salem firemen, with Chief Engineer Churchill at their head, and the Second Regiment band were on hand to escort the visitors up town. A procession was formed, the band in the lead, and the line of march through the principal streets was

taken up. At Tigers' engine house an impromptu rostruma was made out of Alert Hook and Ladder's truck, and Mayor Murphy climbed up on top and made a very neat and cordial address of welcome to the

neat and cordial address of welcome to the Albany boys. The firemen and visitors then dispersed and visited the various points of interest about the city, at moon congre-gating at W. C. T. U. Hall, where a most bountiful dinner was served by the ladies. The Albany firemen are about to purchase a new engine, and they inspected thorough-by the equipment of the Salem depart-ment. Capitals' La France engine was taken out of its house, steam gotten up, and water thrown. The Albanyites spent five yery pleasant hours in the capital city, and at 4 p. m. started for home. They express-ed themselves as much pleased with the courteous treatment. The visitors were accompanied by the Albany junior band, which plays very creditably."

MEMORIAL DOINGS. - Last evening the opera house was crowded on the occasion of Union memorial services. Rev. H. P. Webb delivered the sermon, taking for his text Prov. 13-20. It was an interesting effort. Prayers were offered by Revs. Irvine and Rominger, and benediction by Rev. Trumbell. Music was furnished by a large choir. Preparations are being a large choir. Freparations are being made for more than an ordinarily large procession on Wednesday. It will move at to o'clock. The graves will be decorat-ed under the auspices of the G. A. R. and W. R. C. and the address will be delivered by Hon. L. H. Montanye. GEN. SHERIDAN .--- A dispatch was reeived here this marning announcing the death of General Phil. Sheridan, at his home in Washington. He was one of the most gallant and brave generals in the war of the rebellion, and leaves a spotless record behind him. Slowly but surely and have done the most toward healing over the breach.

LATER.—A dispatch denying Sheridan's death was received just before going to press. In all probability he can not live any great length of time.

BACK FROM THE MINES.-Last Saturday evening Messre, J. J. Davis, H. Kenton and S. H. Althouse returned from the Santiam mines, where they have staked out three claims and established the location for a quartz mine. Their mine will be only about seven miles from the Oregon Pacific, with a road running to it. The present outlook is that it contains some fine ore; but it has not yet been thorough ly prospected. Some of the mines farther from the railroad are being worked with moderate results. What is needed is capi-tal. With it there is no reason why big results should not be obtained, for there is a doubt that the mericas was to it there is no doubt that the precious metal is there in large quantities.
