### CURIOUS FACTS.

A firm at Garden City, Kan., has con-  
tracted to furnish a Cincinnati park with  
1000 prairie dogs.

The town of Kalamazoo, Mich., has made  
arrangements with a restaurant keeper to  
feed tramps at the rate of sixty cents per  
dozen.

The electric lights of Detroit are so of-  
ten seen reflected on the clouds at Ann Ar-  
bor, Mich., that they interfere with astron-  
omical observations. Indeed, all opera-  
tions have to be suspended till the electric  
lights are put out.

The Upper Appomattox Canal property  
in Virginia, which is considered the most  
valuable water power in the State, has been  
acquired by New York and Boston capi-  
talists, who will expend over \$500,000 in  
the erection of mills of various kinds along  
its banks.

Scientists are of the opinion that the  
newly discovered cities of Arizona are  
those sought by Cortes and the early Span-  
ish adventurers in their expeditions after  
gold. The cities are seven in number, and  
give evidence of former civilization and  
wealth.

The gold washings of the river Nus, in  
Columbia, are said to promise such enor-  
mous returns that when the news reached  
France that the river had been turned and  
the bed of the river exposed, the 500-franc  
shares rose to 4800 francs. Subsequently  
the dam broke away, and money being re-  
quired to rebuild it, more shares were of-  
fered and were eagerly tendered for, pre-  
miums being offered of from fifty to 100  
per cent. by those anxious to become  
stockholders.

Many of the valentines which are a com-  
bination of laced and silvered paper, sprigs,  
mottos, bunches of colored flowers little  
mirrors and the like are made in London,  
in a factory where the work goes on the  
year around. Much of the work is done  
by hand, and women are the most expert at  
it. They use a good deal of muckilage in  
constructing these affairs, and invariably  
use the third finger of the right hand instead  
of a muckilage brush.

#### Nicaragua Canal.

DENVER, June 22.—The stockholders of  
the Nicaragua Canal Construction Com-  
pany held their annual meeting in this city  
last evening. It was decided to not wait  
any longer for Congress to grant the com-  
pany a charter, but to incorporate im-  
mediately under the laws of Colorado. This  
conclusion was arrived at for the reason  
that under the Colorado law the company  
would have greater scope under which to  
work than they could expect from the gov-  
ernment. Reports received from the en-  
gineers fix the cost of the canal at \$50,000,000.  
The company decided to double this  
amount, in order to cover all incidental ex-  
penses, and incorporate with a capital of  
\$100,000,000. Work will be begun the 1st  
of September.

ELLENBURG, June 22.—The board of  
trade and citizens of Ellensburg have made  
a proposition to the Moss Bay iron and  
steel works to locate a branch in this city,  
and offer a bonus of 300 acres near the city  
and hold out other inducements. This  
would add 5000 to the population in the  
next year. The Capital yesterday morn-  
ing published a list of eighty-two new build-  
ings since March, costing \$121,000.

#### A Great Gold Mine.

WASHINGTON, June 22.—H. K. Delaney,  
collector of customs at Sitka, said to-day:  
"It will surprise the public, I dare say, to  
know that the greatest gold mine the world  
has ever known is situated near Juneau  
City, about 150 miles from Sitka. It is  
called the Paris mine, and one of the princi-  
pal owners is Senator John P. Jones of Ne-  
vada."
