LOCAL RECORD.

THE M. A. T.'S SATURDAY NIGHT.—Some very fine weather at the end of an other week makes the heart of the average man leap for joy, for it means big crops of everything.... It pays to do things on the square in this world. When the Corvallis boys on the 4th passed off their fastest runner by a fictitious name in order to obtain a race with a country fellow, who didn't even have spiked shoes, they did a very naughty thing and one that casts so much discredit on foot racing.... The M. A. T. takes notes now-a-days on a little silicious notebook received from Palmer & Rey, of San Francisco, for which we are very much obliged.... The M. A. T. knows of several Albany men who have taken away all claims of manhood by a too frequent visit to the saloon. One of them, once the president of a Blue Ribbon Club here has left our city almost a wreck. Nearly all who try to handle the snake get bitten early or later. The whole business is a game of XX's for oo.... The case mentioned in the DEMOCRAT yesterday under the head of a "strange proceeding" should warn the young women of to-day that there is safety only in good company. She who loses her honor loses all, and the viper who helps to ruin is worse than the midnight robber. We need more dignity in courtship and less flirtation in society. The shallow associations of the day are degrading to a great degree.

LANDRETH.—The Salem Statesman gives the following account of the hanging of Landreth at Dallas yesterday. At 12:30 Sheriff Smith asked the condemned man, who was standing weak and trembling with the cap over him: "Are you ready?" Being answered by silence, he gave the signal. Sheriff Croisan drew the peg in the catch and sprung the trap. A click, a flash, and a thud, and Landreth was swung to eternity. His neck was broken instantly. Doctors Lee and Woods went below, and after two minutes reported his pulse at 85, at four minutes 120, at six minutes 140, and thereafter intermittent until it ceased entirely. It was a peculiar fact that Landreth was hanged just a year to a day after the lynching of Kelly, and near the same spot.

A DOUBLE SURPRISE PARTY.—Last evening fifteen or twenty young people met at the residence of S. E. Young and went in a body to the residence of Judge Powell, for the purpose of surprising Mr. Jas Powell, the popular book-keeper of the First National Bank. "Jimmy" didn't know anything about it at all; how could he; he was over at the Bay, enjoying the fierce July sea breezes, etc., and did not arrive home until this noon. So it was a double surprise. But the young people passed a highly enjoyable evening, being entertained by the Judge and his family, who are equal to a crowd themselves.

THE COUNTY JUDGESHIP.—Arrangements have been made between Judges Blackburn and Whitney to count the ballots in the recent election and abide by the result of the vote for County Judge. The notice already referred to was filed by Judge Whitney in order to save his rights, the time for action being nearly expired.

A BIG FARM.—Yesterday Mr. John A. Crawford sold to Mr. George Simpson the large Layton farm, lying just west of George Cline's farm beyond the Calipoolia. It consists of 350 acres, the price for which was \$10,500, at the rate of \$30 an acre. We shall expect to see this farm cut up into small fruit orchards some time.

WHEAT.—Frank Crabtree of the Forks of the Santiam informs us that rust has made its appearance on the blades of his wheat. This will not injure it unless it attacks the stalks. Parties from Albany Prairie say no rust has appeared. Hay harvest is in full blast and a large crop will be harvested. Reapers will be started in many wheat fields next week.

FINE PEACHES.—"Those didn't come from California, too nice for that," everybody said this morning, when they saw the magnificent looking peaches in front of some of our grocery stores, and they did not; but from Southern Oregon. In the matter of peaches there is no comparison between those received from Oregon and those that come from California.

FOUND.—On July 3rd, in Albany a combined Odd Fellow and Knight of Pythias charm. Owner will call at the Postoffice and identify property and pay for this notice.

WEATHER REPORT.—For 24 hours, be-
ginning at 12 o'clock, m.
Warmer, clear weather.

SMALL POX.

A very virulent case of small pox has developed at the residence of Mr. Graham, who lives on the hop farm about 5 or 6 miles below Miller's, in the bend of the river. The patient is a young man by the name of Frank Marshall, aged 18 years, who came to Mr. Graham's about ten days since, where he engaged to work. He took sick last Saturday and a physician from Jefferson has been waiting on him but did not detect the character of the disease. Mr. Graham's suspicions were aroused last Thursday when he took his family off to the mountains.

To-day Dr Maston, of this city, who has had considerable experience in small-pox, was called to see the young man. He returned this afternoon at half past two o'clock. He informed a DEMOCRAT reporter that it was a genuine case of confluent small-pox and a bad one at that, the young man never having been vaccinated. Quite a number of persons have been exposed to it, and the doctor thinks there will be several more cases, including two hired hands who have been with Marshall ever since he took sick. Another hired hand who has been with the sick man until yesterday left and went over about Seio. Mr Graham came up this forenoon to get the county court to place the young man in the post house near this city, but this was refused.

OUR HOSE TEAM.—At the time of going to press yesterday, in the tournament at Seattle, Albany and Seattle were yet to run in the dry test. Spokane Falls was in the lead with the fast record of 32 3-29 seconds. Albany ran next and made a remarkably fast run, but on account of a slight "bobble," dropped the nozzle a fraction of a second slower than the Spokane team, 33 seconds being given as the time. This gives them the second prize with about 2 seconds to spare. In all they won one first prize and two second prizes, \$300 in money. Notwithstanding the Spokane Falls team won three first prizes and one second prize, and secured a little the biggest honors, we are proud of the record made by the Albany team, and believe if the tournament were to be repeated to-morrow the position with Spokane Falls would be reversed. There is no question in the matter of speed, our team making a record equal to anything ever made on the coast and over a second faster than any of its competitors, a record that shows how shamefully they were swindled in Portland. The team will arrive home to-night, when a reception will be given them at No 2's hall. The band and firemen will meet them at the depot, and everything necessary will be done to show an appreciation of the splendid record they made.

A DISGUSTED CORRESPONDENT.—A correspondent for an exchange writes as follows: "If a correspondent omits any items he is lazy. If he speaks of things as they are, people are mad. If he smooths down the rough points he is bribed. If he calls things by their proper names he is unfit for a correspondent. If he does not furnish his readers with jokes he is a mule; if he does he is a rattlehead—lacking stability. If he condemns the wrong he is a good fellow but lacks discretion. If he lets wrongs and injuries go unmentioned he is a coward. If he indulges in personalities he is a blackguard; if he does not his items are insipid. For the above reasons we have about laid aside the quill and think of retiring to private life." The above is very appropriate for the newspaper generally.

A FORMER ALBANYAN.—Cass H. Humphrey, of Portland, president of the Multnomah Typographical Union, has been appointed by Gov. Penneyer expert of the State printing office, vice George Rogers, resigned. He came up Thursday night to enter upon the discharge of his duties, which will occupy him for a few days. Mr. Humphrey is a competent, practical printer, and is in every way qualified for the position to which he has been appointed. He has been president of the typographical union for three years and was at the last election a candidate for the legislature on the democratic ticket. Though defeated he ran 150 votes ahead of his ticket.—Vidette.

HOW IT WAS DONE.—Our correspondent on the Southern Boundary writes us as follows: "I was greatly surprised in reading the Eugene City Guard of June 30 to find under the head of 'Coburg Items' nearly all of the items I had sent you under date of June 23. I cannot imagine how they happened to be there." We do. They appeared in the DAILY, and were clipped by the Eugene paper, so that they came out in the weeklies at the same time. Easy, wasn't it?

MUCH BUSINESS.—Mr J. H. Burkhart, the printer, has his hands full. He is now printing the proceedings of the State Grange, a 124 page pamphlet, 3000 copies, and the Board of Trade circular, a 32 page pamphlet, 5000 copies. The other night he ran off by electric power 114,000 pages of the Grange proceedings, a big record.

TWO FOXES.—Mr Burris, of Jefferson, was in the city to-day with two little foxes, which he had captured. He offered them for sale at \$5 a pair.

WILL PREACH.—Rev. T. G. Brownson will preach at the Baptist Church to-morrow morning and evening.

A Roseburg paper boasts that it furnished three orators for 4th of July celebrations, Jones, a democrat; Fullerton, a republican; and Flood, a prohibitionist.

J. M. Moyer, of Brownsville, has been in the city to-day.

Prof Davis, the music teacher, of Salem, is in the city.

Everything bought and sold at M Franklin & Co's second hand store, Albany, Or.

THE SANTIAM MINES.

We mentioned recently the meeting by several Albany men with a mining expert from California in the Santiam regions. This gentleman, Mr. Leigh Harnett, on reaching Portland wrote a very comprehensive account of his trip to the Santiam mines, and shows conclusively their importance as a mining district. He makes this region out a part of the great formation running through Wallawa county and Eastern Oregon. It will be a silver-gold bearing region, with silver in the ascendancy. He says:

"It often happens in the history of mining that certain localities have a double life, and that the second life is as brilliant as the first was unfortunate. Putting the past and the future together, at the present time, this has been and will be the fate especially of the Santiam district, for taking all the evidences of good and reliable mines, as they exist there to-day, to guide a correct and unbiased judgment, there is no danger in predicting as brilliant a future for the Santiam district as the past has been unfortunate."

In describing the formation he starts out in this confident manner:

"I feel, therefore, perfectly assured before I get through I can establish the reputation of the Santiam, though only a hundred miles from the city, as an exceedingly rich mineral district—a fact all must admit, of the highest importance both to Oregon and Portland."

He shows what the DEMOCRAT has claimed right along, that all that is necessary now is capital to work the mines as the preliminary work is well done. Harnett:

"In my opinion, the Galena Milling and Mining Company need do no more development work on their property. The formation and veins are all established beyond question and need no further preliminary work, which, in fact, would be so much money thrown away. All that is now wanted is development at depth to make the property salable at a high figure if they want to sell. The formation and the veins at Santiam are thoroughly established already. All now wanted is a good working tunnel that will be useful to the end. At 300 feet deep, \$500 rock would not surprise me at all."

In closing the writer advises Oregonians to visit this new region, and says:

"If they are wise, for the sake of learning something of the greatness and grandeur of their State, they certainly will do so."

THE TEACHERS.—The State Teachers' Association closed a very successful and largely attended meeting yesterday. Among those who attended from this county were D. V. S. Reid, Prof. Walker, Kate Price and Jane Morris, of this city; C. S. Hunt, of Lebanon, G. F. Russell and J. M. Williams, of Halsey, and Mr. Stanard, of Brownsville. Prof. H. W. Herron, now teacher of book-keeping in the Portland Business College, was also present, and likewise Miss Olive Kirkpatrick, who is studying medicine with Dr. Rowland, of Salem; also President Condit, of the Albany Collegiate Institute, who delivered a short address.

ENCOUNTER WITH A COUGAR.—On last Friday, while Mr. Ed Allen, his two brothers, and Mr. J. S. S. Powell and his two sons were hunting on Mary's Peak, one of the Powell boys was attacked by a cougar. They were all following a trail, four being afoot and the rest on horseback, when a large cougar jumped from the fern on to the horse ridden by the boy. The dogs were immediately behind and sprang at the animal, causing it to fall to the ground, and it got away from them and ran up a tree. Its claws raked across the boy's legs without hurting him, however. The hunters then shot the animal from the tree.—Leader.

HERE'S OUR HAND.—The Benton Leader in its account of the 4th of July proceedings at that city says: "Especially we bow to Albany. In behalf of Corvallis we lift our hat to the Albany boys and girls and the Albany men, women and children, and from this moment cease to remember aught but the pleasant relations of Wednesday. Let us have peace." The proposition is a good one, and we hope to see it respected.

"JIM WESTFALL."—This well known Celestial left this noon for Portland to see the future Mrs. W. The wedding is to take place on Sunday, July 15, in Portland, and will be a "fly" affair. The bride will be a young and blushing Mongolian. Jim already has a wife and several children in China, but they don't do him any good here. The happy couple will come to Albany after the wedding.
