CURIOUS FACTS.

At a fair held in Madison, Wis., a goose was voted to the most popular dude.

A French investigator has come to the conclusion that women have a larger proportion of brown eyes than men.

There are thirty-seven tunnels of more than 1000 yards in England, the longest being that of the Severn—7664 yards.

At Halifax recently a perfectly formed egg, shell and all, about the size of a robin's egg, was found in the yolk of a hen's egg.

According to a writer in Blackwood's Magazine the gipsies of Transylvania teach young bears to dance by placing them on heated iron plates while the trainer plays on his fiddle. The bear, lifting up its legs alternately to escape the heat, involuntarily observes the time marked by the violin, and eventually learns to lift his legs whenever he hears music.

A Western philosopher has simplified living to such an extent that he pitches his habitation under an umbrella. When his dwelling place is flooded by the rain he changes the location of his umbrella. At last accounts he was living peacefully and contentedly under a tree near the railroad track, with his umbrella unfurled to sun and shower. How much pleasure must he gain from existence, unharassed by rent and taxes, undisturbed by the visits of the gas man and the plumber! As the height of the principle of camping out, life under an umbrella is demonstrated to be not only possible but enjoyable.

Our republican friends are banking their hopes of electing Harrison on the name and fame of his grand father, but it would be well to keep in mind the fact that a grand father's fame is sometimes like a grand father's clock which "stopped short, never to go again when the old man died."

Ex-Gov. Downey, of Los Angeles, a democrat, has declared that he will support Harrison and Morton.

EYE, EAR AND DEFORMITIES.

Dr. T. J. Eaton, Formerly of the Surgical Infirmary of Indianapolis, will visit Albany, Friday to Wednesday noon, July 13th to 15th. Rooms at Revere House. At Corvallis Thursday, Friday and Saturday, at Hotel, July 16th to 21st.

Dr. Eaton has for the past twenty-five years made a specialty of the eye, ear and deformities, and has straightened more than one thousand cross eyes. All inflamed and sore eyes can be cured unless disorganization has taken place. Artificial eyes inserted and the most efficient braces for the cure of crooked limbs, club feet, spinal diseases, etc., furnished.

CROSS-EYES CURED.

The following reference to Dr. Eaton is taken from the Merced "Argus" of the 12th inst:

"On Saturday last we witnessed an operation upon a cross eye by Dr. Eaton at his rooms in the El Capitan Hotel. The subject was a twelve-year old daughter of Mr. Hunsaker, a resident of this town, who has been from her birth afflicted with cross-eyes. It was done without pain to the little girl, who during the operation on the eye, smilingly answered several questions asked her by the Doctor and ourselves. Missie Hunsaker, the subject in this case, after the operation, appeared a bright, merry little girl and smiled gratefully while thanking the Doctor for treating her so tenderly and subjecting her to so little pain."

The following account of a remarkable surgical operation performed by Dr. Eaton is taken from the El Paso "Times" of the 16th ultimo:

"In company with Captain S. D. Slocum we called to see Miss Jennie Slocum, the youngest daughter of the Captain, who has been in El Paso under the treatment of Dr. Eaton. We remember to have seen this young lady a few months ago at the ranch, with her foot twisted until it was at right angles with the other foot. To-day the left foot is as straight and natural as the right. We congratulate the young lady and rejoice with her father in this successful performance of Dr. Eaton. We were skeptical until we witnessed the result. We are now satisfied of the promises of the Doctor. In these instances they were verified."

A remarkable case was brought to our notice yesterday, being that of a 15-year old daughter of Mr. E. P. Gilpin, a substantial farmer, formerly of Columbia, Missouri, now living near Collinsburg, in this county, who had been totally blind from scrofula in the eye for fifteen months. She was treated by Dr. Eaton, who is now in this city, after one personal examination, by mail with the gratifying result of restoring sight completely. The Doctor and his young patient are both receiving congratulations. — Gainesville "Hesperian"

Sugar.

SAN FRANCISCO, July 12.—The California and American sugar refineries, in harmony with the advances made in New York, yesterday advanced the price of granulated sugar one-fourth cent per pound, and to-day an additional half cent, making the present price 8 cents a pound. Representatives of the refineries here say one of the chief causes of the advance is a scarcity of the beet crop in Germany and elsewhere. Another cause, however, as stated by men conversant with the subject, is that there is in New York very little sugar for future delivery.

Estimates.

WASHINGTON, July 12.—Maj. W. A. Jones of the corps of engineers makes the following estimates for work under his charge during the coming year:

Improvement of the Columbia and lower Willamette rivers below Portland, Or., \$425,000; removing snags, etc., from the upper Willamette, \$22,000; work on the upper Columbia and Snake rivers, \$16,000; Cowlitz river, W. T., \$6000; lower Clearwater river, Idaho, \$19,429.

Capt. Willard Young makes the following estimates for work in his district: For improvement of the entrance to Coos bay, Or., \$250,000; entrance to Yaquina bay, Or., \$250,000; mouth of the Coquille river, Or., \$114,000, of which \$75,000 can be profitably expended during the coming year; improvement of the Umpqua river, Or., \$2000.

Big Storms.

NEW YORK, July 12.—Advises from all parts of New York, New Jersey and New England show that a terrific rain and wind storm raged all last night. The storm was particularly severe along the coast, and many sailing vessels went ashore. No large loss of life is reported, but the damage to property was large. The storm was very severe along the St. Lawrence river and Lake Ontario. At Cape Vincent the Islander and the Annie Laurie, small passenger steamers, were driven ashore, and lumber barges were sunk. At Sandy Hook this afternoon the storm continued, and the sea was very rough.

Terrible Disaster.

LONDON, July 12.—A Dispatch from Cape Town, Africa, says: Deboer's coal mine at Kimberley caught fire yesterday evening. Eight hundred men are entombed. The work of rescue, which began at once, still continues, but it is believed that 500 persons have perished, including Mr. Lindsay, the manager of the company. Many of the victims imprisoned in the mines are white people.

Loved Her Bonnet.

CHEYENNE, Wyo., July 12.—A serious accident occurred on the west-bound Union Pacific passenger train yesterday. The train was nearing Ogallala station and running at the rate of twenty miles an hour, when a well dressed lady passenger lost her bonnet out of the window. She immediately rushed to the car platform and jumped after it. As soon as possible the train was stopped and run back. The woman was found unconscious and bleeding from a severe wound on the head, though no bones were broken. It is thought she received internal injuries, which it is feared, will terminate fatally.
