### HARRISON'S MONGOL SUPPORTERS.

CLEVELAND, July 9.—Sam Sing, a Chinese laundryman, of No. 110 Broadway, has applied for citizenship papers, with the intention, his wife said, of voting for Harrison next November. Sam is a good natured Chinaman of about 35 years of age, and has lived in this country about 18 years. His wife, a white woman, is about 10 years his junior. To a reporter Mrs. Sing said that a Chinaman on St. Clair street, a relative named Sing also, obtained citizenship papers, and when her husband heard of it he resolved to go and do likewise.

Mrs. Sing said that she reads the evening papers, and that when she reads anything which concerns China or Chinamen, she reads it (or rather relates and explains it) to her husband. It was in this way that Sam ascertained that Harrison favors the Chinamen and that Cleveland does not. Mrs. Sing, in answer to questions, said that she was born in Louisville, Ky., and married her husband six years ago at Jeffersonville, Ind. They have no children. Sam has been in this country eighteen years and has become quite Americanized. He speaks and understands English, does not wear the typical queue nor cork shoes and does not intend to return to China. He has attended Christian services in this country and believes in the Christian religion. While the reporter was talking to Mrs. Sing, Sam entered the laundry from the wash room. The reporter briefly explained his visit and said: "How will you vote, Sam, if you get your papers?"

"I vote the Republican ticket," he smilingly answered.

"You like Harrison, do you?"

"Oh, yes, I like Harrison. Him velly good man."

"When do you think you will get your naturalization papers?"

"I think one week from next Friday."

## TELEGRAPHIC NEWS

### A Bad Wreck.

SOLERANTE, Cal., July 17.—A work train bound north collided with a freight train bound south, between this place and Pinda, this morning. The collision took place in a sharply rounded cut, and the engineers did not see the other train until within a few yards of each other. The engineer and fireman on the freight train jumped and escaped with slight injuries. Engineer Buck of the work train also escaped by jumping, but fireman Fish was caught as the engines came together. The engines were completely telescoped, and when the workmen went to Fish's assistance they found him fastened under the wreck and enveloped in a cloud of escaping steam. He quietly asked the men to shut off the steam. The steam was shut off, but Fish lay fastened under the wreck several hours, until a physician arrived. The leg had to be amputated before he could be released. The engines and cars are almost a total wreck.

### Anarchists Again.

CHICAGO, July 17.—By bold, timely action, Inspector Bonfield this morning saved the lives of himself and Judges Garry and Grinnell. In a small frame house near Ashland Avenue and Thirty-third street were found twelve dynamite bombs, a revolver and knife, and as the owner of the articles stepped to the sidewalk he was arrested by Bonfield in person and taken to the police station. Two other arrests were made later. When questioned as to what the prisoners intended to do, Bonfield confined himself to saying: "There was a conspiracy of long standing and it was about to be put into execution. They intended to use dynamite on Judge Garry, Judge Grinnell and myself." The chief prisoner is an old-time anarchist, and was prominent in the schemes of Haymarket times.

### River and Harbor Bill.

WASHINGTON, July 17.—The conferees on the river and harbor bill seem to have reached an impassable barrier, and will probably report a disagreement. The items in dispute are the Portage lake canal, the Beaver river, Penna., dams, and the Monongahela, Green and Barran improvement proposition. The house conferees express a willingness to accept the Senate proposition to purchase the Green and Barran property, but held out sturdily against the others.

### The Teachers.

SAN FRANCISCO, July 17.—The Oregon headquarters in the Occidental hotel continue to have a very gay appearance. The members of the Oregon delegation are particularly energetic and are losing no opportunity for advertising the resources of their state. In the hall dividing their two suites of apartments there have been spread out new pamphlets, books and illustrated circulars describing the resources of Oregon, character, scenery and such particulars as intending settlers would be anxious to obtain.

There has been a steady stream of callers to-day at the headquarters. All visitors are invited to register, and are supplied with Oregon literature, and also asked to sample Oregon fruit, of which there is a more limited supply than the delegation could wish.

### Tough on Maine.

WASHINGTON, July 17.—Senator Dolph has received an earnest invitation from the republican state committee, in Maine to participate in the speaking during the campaign in that state, which will open August 15 and close September 8. He has accepted, conditionally, and will make some speeches in Maine during the first days of September, if congress adjourns in time or the business of the senate will permit his absence for a few days.
