E. R. SKIPWORTH, of Wasilla, county.

WASHINGTON.

From our regular correspondent.

WASHINGTON, July 30th, 1888.

Representative Springer has been working very hard to get his Oklahoma bill passed. It was before the House several times last week, but a vote was not reached. Mr. Springer is very sanguine of its passage. He says the only real opposition to the bill comes from the Cherokee Live Stock Association, a syndicate of white men, who lease 6,000,000 acres of land from the Cherokees at \$100,000 per annum. Mr. Springer says the passage of this bill would be followed by one of the most remarkable phenomena that colonization or civilization has ever known. In less than six months the territory would be qualified by population to become a state—and, with a sly wink, two-thirds of them would be democrats.

Senators Morgan and Saulsbury made speeches in favor of the ratification of the fisheries treaty last week.

Mr. Mills is still getting an average of about fifty letters a day asking for copies of his speech on the tariff.

The House bill to create boards of arbitration to settle the differences between railroads and their employes, has been reported favorably to the Senate.

The effort made by the labor men to have the use of the steam plate printing machines prohibited in the Bureau of Engraving and Printing, was defeated in the Senate.

Owing to the delay in passing several of the appropriation bills, another joint resolution extending the old appropriations 30 days from to-day, has been passed.

Mr. Cleveland left here last Thursday for a short yachting trip. Mrs. Cleveland and her mother accompanied him as far as New York. Mr. Cleveland is expected back here to-morrow. Notwithstanding the fact that this is the only holiday that Mr. Cleveland has taken during this whole summer, the republicans are trying to raise a howl over his alleged neglect of public business.

Commissioner Stockslager has notified the St. Louis and San Francisco Railroad Co., to show cause within 30 days, why proceedings should not be taken in accordance with the act of March 3rd, 1887, to secure the restoration of 90,827 acres of land, alleged to have been erroneously patented to the Atlantic and Pacific Co. The land referred to is in Missouri.

The House committee on agriculture has favorably reported the Lee bill to prevent the sale, manufacture or transportation of adulterated articles of food, drink or drugs, and the bill regulating the manufacture of compound lard.

Now that the republican Senators, after much wrangling, have agreed to report a substitute for the Mills tariff bill, they are having a regular monkey and parrot time to get up a bill that all of them will vote for.

The House committee on manufactures has been working hard, trying to get to the bottom of the whisky trust.

The further consideration of the Outhwaite bill has been postponed for the present by the Senate committee on Pacific Railroads, but it is understood that a majority of the committee favor the bill.

Chief Justice Fuller has been in the city several days. It was his intention to have gone back home the next day after his arrival, but as he came specially to see Mr. Cleveland, he concluded to remain until the President returned. He has been the recipient of many social attentions.

The fortification bill has been reported to the House. It provides for a Board of defense, composed of three civilians and three army officers, and appropriates \$15,000,000 to be spent in the next six years for heavy ordnance.

The bill for the enlargement of the Yellowstone park has been favorably reported to the House. It adds about 1600 square miles of territory, and gives the Secretary of the Interior authority to grant a right of way to a railroad from Cinnabar to Cook City.

Chairman Barnum was in town for a few hours last week. He held consultations with several gentlemen.

A bill has been introduced in the Senate to pension every man who served three months in the United States Army or Navy, in the late war.

"Senator Ingalls is the vainest man I ever met," said a Washington business man. "I went to his house on business, and for more than one hour he stood posing before a large mirror, while he talked to me, not seeming in the least to mind my being present."

Blaine is a free trader, and no mistake. He is coming home now in a vessel that carries the British flag. Oh British gold, British gold.

The Labor Signal, the leading organ of organized labor in Indiana, is attacking General Harrison. Among the labor journals that follow the Signal's lead are the United Labor Age, the New Order, Milwaukee Labor Review, Lansing Sentinel, Labor Leaf, Labor Echo, Industrial Age, Duluth Labor Age, Labor Herald, Fort Worth South-west, Southern Industry, Cleveland (O.) Workman, the Standard, Council Grove (Kan.) Anti-Monopolist, Denver Arbitrator, New Britain Independent, Fort Wayne Dispatch, Alabama Sentinel, San Francisco Star.

The democrats have made large gains in Middle and West Tennessee, while the republicans have about held their own in East Tennessee. This is one of the Southern states which republicans are counting on carrying for Harrison.

The democrats of San Francisco had a magnificent parade Saturday night, several thousands being in line and over 50,000 spectators. The friends of the masses mean business in that city.

\$500 REWARD

By P. Cohen.

Will any Republican solve the following problem for me? Why is it that the Republican wool buyers who think that Harrison will be elected and that the Mills bill will not pass, and consequently no tariff taken off wool, have been and are now offering less for wool than I am, who believes that Cleveland will be elected and that the revenues of the government will be reduced to a point to meet the just demands of the government only? In order to satisfy yourself who pays the least price look around and come to me last to ascertain my figure. An extra price paid for a few full blooded democratic fleeces for James G. Blaine to spin yarns on this fall when he comes to Oregon, at

STEWART & SOX.

CHEAPEST AND BEST FENCE MADE.

The Shelleberger Combination Fence

It is as strong as plank fencing, it will last three times as long. It does not injure stock, being as visible as plank.

It protects all your crops from all stock bred upon a farm.

It is dog proof, protecting sheep from dogs and wolves.

It is endorsed by 200,000 of the best farmers in the West, as fully filling every claim we make for it.

It will turn a pig, bull, horse, hog, calf, sheep dog or half-grown fowl.

It will save every farmer \$140.00 a mile on every mile of fence he builds.

It is the strongest, cheapest, most durable, and perfect farm fence on earth.

It forms the most perfect combination of two materials, making them inseparable and equally durable, combining as it does, the neatness and elegance of iron with the strength and durability of steel.

(Plated and painted, it makes a fine fence for the city.)

Price, only 50c. to 65c. per rod.
