LOCAL RECORD.

WANTS A BONUS.—A Mr. C. E. Smith, of San Jose, Cal., has been in the city prospecting for a creamery. He proposes to buy five or six hundred acres of land, stock it with cows and establish a first-class creamery and all he asks is a bonus of \$5000 from the citizens of Albany.

FALSE ECONOMY.—Yesterday morning a farmer, a German, living in Polk county, whose name could not be ascertained, was driving into the city with a load of sixty bushels of wheat, and when just this side of Harritt's place, coming down a hill, he fell off, and the hind wheel of the wagon passed over his left leg, terribly lacerating the flesh, but so far as known, not breaking the bone.

A COUNTRY FIRE.—Yesterday noon the residence of Mr. Mark Hulbert, about six miles southwest of Albany, was entirely consumed by fire, together with his barn. The furniture was mostly saved; but 600 bushels of wheat and considerable hay, went with the barn.

A FIGHT.—Quite a fight is said to have taken place last night at a 2nd Street house with the red curtain sign. A young man present says it was caused by jealousy.

NOVELTIES.—Mr. William Fortmiller has just received the finest line of center tables ever brought to Albany. They were manufactured in Detroit, and are novel in design, being the latest styles for such tables.

MARRIED.—September 2, 1888, by James Pearl, Sr., J. A. Kirk and Lillie M. Bone, both of Halsey.

A Portland gentleman is said to have gone up the Narrow Gauge railroad the other day and killed thirty-two Chinese pheasants, which was what he was after. If a hunter accidentally makes a mistake there is nothing very bad about it; but to go after them as a business deserves punishment.

A Eugene paper says it has the location and surrounding country to make the second city in Oregon; but you "bet your boots" it hasn't a trans-continental railroad, so that it will have to put up with third place. Our neighbor is a good city and we have no bones to pick with it.

The Marion county school examining board, which has just finished examining the papers of the applicants for teachers' certificates, granted four first grade certificates, nine second grade, and eight third grade. Six failed. In Portland twelve received first grade, sixteen second grade and fourteen third grade certificates. Six failed.

A Eugene paper says. "The famous seaport Portland, Or., had better proceed to construct a ship canal to let her commerce down to deep water, else the people had better build a railway and change the location of their seaport. Almost every vessel that comes in or goes out strikes on the bars of the Columbia and the costs of tonnage and other troubles are twice as much as a fair freight to the mouth of the river."

CROOK COUNTY.—There were six applicants for teachers' certificates before Supt. Slayton this week, all of whom, we are informed, were successful. "We have had the hottest weather, and the most of it I ever saw in this country," says the 'oldest inhabitant'. "A good sized watermelon sells readily in this market for 50 cents. No wonder some of our gardeners are opposed to the construction of a railroad through this county. . . . Most of the grain crops that have been threshed yielded well—better than was expected. Maybe Crook will yet be able to bread herself this year. . . . It is doubted if there are enough school teachers in this county to supply the fall demand. . . . The firm of Hahn & Fried contemplate closing out their mercantile business here. It is not from a fear of the decline of business in Prineville, or through any fear of the instability of the place as a business center in the future, that they have determined to retire from business. . . . The Somerville brothers, who came across the Cascades from Eugene a few days ago, report heavy forest fires raging all along the McKenzie. They had great difficulty in getting across, owing to the great amount of timber that had burned and was falling across the road.—Prineville papers.

HUNGRY FOR APPLES.—Albany did not make as great a mistake as Salem for we gave the G. A. R. excursionists flowers while they gave them peaches, etc. A citizen of Salem put it about right to a reporter: "What they were hungry for was big red Oregon apples, and do you know we didn't give them one? They asked for them, and we had to confess that apples were so common in Oregon that we hadn't looked upon them as the one thing above all others which they would appreciate, and so we didn't bring any. The fame of Oregon apples is so prevalent in California that many people there think we don't have any thing but apples and rain in this country. But we won't make that mistake again."

TEMPERANCE COLUMN.

Edited by Albany W. C. T. U.

Jersey City has granted 829 liquor licenses, on which \$194,000 has been collected by the city.

Topeka, Kansas, is said to have more churches than any other city of its size in America, and not one saloon.

Of the thirty-three ministers attending the Cherry Valley camp-meeting, thirty will vote for Fisk and Brooks.

The Government has confiscated about \$800,000 worth of property belonging to Mormon officials. This is to be turned over to the school fund of Utah.

White-Ribbon Cottage, at Ocean Grove, has proved a great success, four hundred white-ribboners having been registered there since June 9th from all over the country.

Eight conductors and trainmen of the Long Island Railroad were recently discharged, because they entered saloons and drank during hours of duty.

Dr. Norman Kerr says: "Among inebriates admitted to the Davyniple Home, 9 per cent of the whole number drank nothing but beer."

The Women's Christian Temperance Union of New Hampshire are making preparations to open a home for intemperate women. The State Legislature has granted the sum of \$5000 to start the work. Would that the Oregon Legislature could be wrought up to a like spirit of generosity.

The local press of Denver testifies that at the banquet given in that city to the Iowa editorial excursion no wine was served.

The district, composed of Linn, Marion and Lane counties, held a W. C. T. U. convention the 12th and 13th of this month, at Lebanon. Everybody invited.

Gov. Nichols has signed the "Scientific Temperance Instruction Bill," providing for scientific temperance instruction in the public schools. The bill passed the House with only four opposing votes, and the Senate unanimously.

The little town of Ramona, Cal., (whose name calls to mind Helen Hunt Jackson's book on the Indian) has a live Union of thirty-one voting members, and fourteen honorary members. The village has less than one hundred population, and is thirty-five miles from a railroad, but it enjoys that adjunct of civilization, a saloon. The members of the Union come from ten miles around to the meetings. It is quite safe to prophesy that that 'saloon must go.'

On the Southern Boundary.

Sept. 3, 1888.

Most of the threshing machines will finish their work this week. The country seems full of machinery and still the farmers are not getting their work done as soon as they would like to. Three farms in this vicinity have produced six thousand bushels of oats.

Hop picking begins next week. More pickers are wanted by the hop growers. The recent rise in the price has greatly encouraged growers, most of whom have contracted their crops at 12 1/2 cents per pound.

Two sons of Mr. Tilton arrived from Iowa last week and are stopping with their parents, the elder has a family consisting of a wife and four children. The younger, Mr. D. W. Tilton, was here last year but went back to Iowa to finish his education.

Mrs. Grant and children returned to their home in East Portland last week.

Mrs. Annitage, from near Eugene City, was visiting her daughter, Mrs. Getchell, last Thursday and Friday.

There was a slight sprinkling of rain Monday, not enough to do either good or harm. A genuine shower would be an advantage from the health point of view as so many are sick and complaining. The last week has been very hard on men and horses in the field, it has been so very warm, several days the mercury reached 93° in the shade.

WATERLOO.—For solid enjoyment go to Waterloo, which is now on top. Fine locality, fishing, boating and bathing, and splendid accommodations at J. G. Gross's. His prices are reasonable.
