NATIONAL DEMOCRATIC TICKET.

For President—GROVER CLEVELAND, of New York
For Vice President—ALLEN G. THURMAN, of Ohio
For Presidential Electors—
W. R. BILLYEU, of Linn county.
W. J. BENTLEY, of Multnomah county.
J. H. KELLY, of Umatilla county.

SOUND.

In science and philosophy we reason from cause to effect, but a certain school of modern politicians reason from effect to cause. Namely: Effect, a quarter of a century of marvelous growth and development. Cause, the tariff, because it is true beyond question that the marvelous growth and the development and the tariff were coexistent. Effect, the cheapest steel and iron the world ever knew; steel is being manufactured cheaper than iron ever was. Cause, the tariff, because the cheap iron and steel and the tariff are coexistent. Effect, more miles of railroad building in the last twenty-five years than in all previous history. Cause, the tariff, because the excessive building of railroads and the tariff were coexistent. Effect, ten-story buildings. Cause, the tariff, because under a low tariff ten-story buildings were unknown. Effect, silos. Cause, a very high tariff, for we never had silos under other than a very high tariff. Effect, twenty-five pounds of butter from a single cow in one week. Cause, the tariff, because we never got so much butter from a single cow in the time named until after the adoption of our present tariff system.

But we might go on ad infinitum. This style of reasoning is now very fashionable, will become a veritable rage during the late summer and early fall. Many will catch it, but in most instances the attacks will be harmless. Those who take it hard will be ashamed of it after election. We want to warn our readers against such reasoning as we warn them against all other frauds.—*Farm, Stock and Home.*

"The surplus now in the Treasury should be used in the purchase of bonds," says Mr. Harrison.

The Secretary of the Treasury is buying bonds as fast as they are offered at reasonable rates, only to be accused by Republican organs of trying to bull the money market and make times easy for political effect.

But while the buying of unmatured bonds is better than hoarding the surplus money as a temptation to Congressional extravagance, it is nevertheless a monstrous injustice to tax the people to pay premiums to bondholders. Every dollar of the funded debt would be met at maturity by the provisions of the sinking fund. And yet rather than "surrender any part" of their tariff-created boodle the beneficiaries of this system would heap upon this generation the burden that belongs to another.

Do the taxpayers like it?

The Minneapolis *Daily Evening Star* and Duluth *Industrial Age* announce their intention to bolt the republican state ticket. The *Star* says: "This paper will support Mr. Wilson because he and the platform which he stands upon represent without equivocation the principles of tax reduction and tariff reform." The *Duluth Age* says: "Contrary to every expressed hope of the industrial element, the republican state convention at St. Paul nominated W. R. Merriam for Governor. Mr. Merriam represents everything that is vicious in politics and opposed to the working classes. His record should wreck the party which had the audacity to place him in nomination. The *Age* will support E. M. Wilson."

David B. Hill, who was re-nominated by the democrats of New York last week for Governor, has been interviewed by W. R. Hearst, proprietor of the *San Francisco Examiner*, in the course of which the Governor assures the democrats of the country that the democrats of his state are thoroughly united on the national and state tickets, that Cleveland will have 15,000 to 20,000 majority in that state, that he has no fears himself of defeat, notwithstanding the mugwumps oppose him. He himself will stump Connecticut, New York, New Jersey and Indiana for Cleveland. He says victory awaits a welcome democratic shout in November.

Myron Bangs, a cement manufacturer who lives five miles from Syracuse, N. Y., always heretofore a republican, has contributed \$10,000 to the democratic campaign fund. He says: "My business, that of cement manufacturing, is one that has received special attention at the hands of republican politicians. I employ 300 men, mostly Irishmen. Ask them, if you please, whether a democratic employer is of less benefit to them than a republican employer. All of them have homes, and all of them, so far as I know, are contented."

BOOTS AND SHOES.—Call at A. B. McIlwain's and see the ladies' kid and pebble goat shoe, for \$1.50, former price \$2.50. A DEMOCRAT man has seen the shoe and can pronounce it a remarkably cheap shoe for the former price.

WHEN TAXATION ROBS.

The protection organs think it very smart to reiterate the saying that the democrats consider a 47 per cent tariff to be "robbery," and yet propose to retain a 42 per cent tariff.

There is nothing inconsistent in this. The democratic position is that all unnecessary taxation is robbery and all unnecessary protection an injury. If a tax rate of five mills is sufficient to meet all the expenses of this city, would not the local Government be guilty of a gross perversion of its powers if it should levy a tax of seven mills and then either lock up the surplus or set about devising schemes to spend it?

That is just what Congress has been doing. For seven years past it has maintained a tax system that has taken from the people \$100,000,000 a year in excess of the needs of the Government. President Cleveland is entirely right in saying that when a representative government does this "the creature has rebelled against the creator and the masters are robbed by their servants."

This robbery must stop.

WHERE TO GO.

An Important Question.

Some will say to the grand old ocean at Newport; some to breezy Ilwaco; some to the health giving Springs at Sodaville and Waterloo, and some to where the deer graze in the mountains; but the general verdict will be, when you are after dry goods, boots, shoes, clothing, furnishing goods, etc., to go to A. B. McIlwain's, Albany, Or. After the most bountiful harvest in the history of Oregon the question is a very important one. Big crops with low prices and good goods will make things flourish. If you would realize this combination call on Mr. McIlwain and you will be taken through his large double store and be shown goods and prices that will impress this fact on your mind. His stock of dry goods is complete and selected to meet the demands of this growing community. In dress goods of all kinds he has a stock that speaks for itself. New designs, styles and patterns. His line of woolen goods is remarkably fine, and as fall is now here, deserves your consideration. Superior goods at low prices is the program. His stock of flannels is a good one and now is the time to buy. In ladies' shoes he can surprise you at their cheapness considering the quality of the article. You will not lose anything by examining his boot and shoe stock generally. Mr. McIlwain's clothing and furnishing goods department is well stocked with a good assortment of goods which he is selling at very low prices.

Mr. McIlwain's goods generally have been bought under the market, and hence can be sold at prices that defy competition. Farmers, laboring men, mechanics, men, women and children should inspect his large assortment of goods, as it will be business for them to do so. A dollar saved is a dollar earned as much now as ever, and Mr. McIlwain proposes to help you do this by giving you the prices and goods.

Large crops and high prices for wheat in order to make prosperous times should be followed by close buying in the best market, hence it will be to your advantage to call on A. B. McIlwain who has the goods and prices to give you bargains such as cannot be obtained elsewhere.

SEE THEM.—Some very fine hall trees, or hat racks, a combination affair, elegant in design, new in make up, just the thing, received by A. M. Fortmiller
