I'm jolty and fat, though al needn't say that; for a glance at my size and a look in my eyes, and you plainly can see there's no flies upon me. I'm a little bit short both or breath and of hair, but from shoulders to knees you can see I'm all there. I smile and I laugh, I joke and I chaff; I refuse to be sad and I never get mad. But you'd never surmise where my happiness lies, so I'll up and confass what you nover could guess. A good thing to eat is always a treat, which will make you as sweet as our sugar cured meat, makes you feel so content with the money spent that you're bound to feel glad',
and you couldn't get mad though a ran just as thim as
a rail or a pin was to pull at your nose or tread on
your toes. If you're fat or your'e lean, if you're
pleasant or mean, just give W. & T. a show
to sell you right low, you will feel
such athrill of con tentment until you'll
wish you were fat to enjoy more of that to enjoy more of that wish you were fat For the feeling's immense and you'll show your good sense by buying groceries, pro visions and of W & T

There are fishermen on the coast of Maine who are now fishing by electric lights. A Fulton Market fish dealer was talking abou his business to a reporter. "This is not a new departure," he continued, "but new ways of utilizing the lights have been discovered. The old way was to plunge an incandescent lamp into the water," the connection being made with some source 'o electricity on board the fishing vessel-When this was used in deepsea fishing it was found that the mains to the lamp often got foul of the fishing tackle or the cable of the vessel, thereby destroying its use fulness. A Frenchman has surmounted the difficulty by adopting a lamp worked by a primary battery, the whole of which can be thrown overboard and regained when the trip is ended. The battery consists of siz Bunsen cells, in which, however, chromic acid is placed instead of nitric acid, formerly used. The cells are connected in tension with a twelve vote Edison lamp. The success of the experiments lately had presages the general adoption by our coast fisher men of this new discovery.
