#### THE MAN ABOUT TOWN

In order to accomplish anything in this world you have to make an issue of it, as a dog does a bone, and the town cows the sidewalks. A bone is good for nothing any way except to put in sugar, where can't see it; but the cows are always with us. If any one has a real, live, kicking reason why we should keep the bovines on our streets will be please come forward and give it.

The best way to get along in this world is to take things cool. The frightened per-

son at fires gets tramped under feet first, the scared bird bunts the window pane and the person who sees small pox on every lamp post is the first to get it. Keep cool, and cream tartar in hot water drank when cool will halo do it. cool will help do it.

The worst enemies to the business part of the world are the men who try to wig gle out of their honest debts, as a worm even seeks to bunt its way into solid rock. It pays to keep above board on this mundane spliere.

Henest, Injun, now, don't you feel better when you wear clothes bought of home merchants.

Wny not begin making good resolutions at the present tick of the clock, so as to have them in a condition to be able to stand alone on the 1st of January, a day when it takes a mountain of will power to walk straight. Able bodied resolutions are never put off till the first of the year, Al-ways resolve to live honest, christian lives. That's the best bill of fare.

Those Gas Works.

ALBANY, Noy. 24th, 1888.

Editors Democrat:

Can you inform me and the balance of the tax payers of the city of Albany who signed a petition to the City Council asking that body to grant gas works privilege, what has been done in the premises? Is it possible they have forgotten that they were elected to serve the tax payers in general and not one in particular? If they have not the nerve they had better resign and let others take the place who will have the interest of the majority at heart. The Board of Trade is advertising Albany at considerable expense to get capital invested here, and the City Council should second the effort. I hope the matter of gas works may be discussed through the columns of the Democrat so that the tax payers may be prepared to prepare the ballot at the forthcoming election.

A Tax Payer. Editors Democrat:

[The ordinance was read at the last meeting of the Council and referred, and will be put on its final passage next Tuesday evening probably.-Ens.]

FRUSTRATED FACES.-That of a grocer who has driven a cow away from his turnip box for the tenth time in an hour. That of the merchant who has spent an hour picking out a piece of calico for a particular customer. That of the Albany youth after sampling the old gentleman's toe. That of the tramp when told "no, sir." That of the street bummer on being refused a drink because he hasn't a cent. That of the careless gentleman on being refused credit for groceries. That of the gentleman who has bet on election on receiving un-favorable dispatches.

About the worst habit we know of is for young women to run around the streets and be at all the trains. The next worst is for young men to do these things.

"The Quick and the Dead," by Amelia Rives is the latest novel to have a big run. Everybody has been reading it in Portland, Some one though says there is not much to it.

Why patronize traveling tailors and ped-diers generally when you can do as well if not much better at home. Support your home institutions every time. Spend your money where you carn it.

Eastern people are very skeptical about the Pacific Coast. A paper says: "The glerious climate of California is alleged to work wonders, but when a resident of that state makes affidavit before a notary public that a sheep pelt which he had tacked up on the barn door grew a crop of wool this fall, it is not hard to locate the habitation of the most colossal liar of the century."

The DeMoss family passed the night in Huntsville, on their way from the National Park. They gave a private musical at the house of Prof Walker. A select circle enjoyed semething most superb. They could not remain to give a public concert, being called home in haste on business; but promised to return.

A public Thanksgiving supper will be given on the night of the 28th. Noncontributions 25 cents. The poor admitted gratis. Music, literary exercises and supper.

The democrats carried this county. Smith, the Oregon bonbon from Independence, is sorry he did not vote. He is a pretty hard nut; but he is the boss joker of Huntsville. He belongs to the church that can live without pastors or sacraments; and yet he is religious. For instance he preached a very melting sermon to a handless framp that begged for money. Then he gave him enough money to board him a day, and concluded with these words "your complexion's agin ye; especially your nose; and now, if you go and get drunk on this money, dash blank you, I'll find you and kill you!"
