Notice to Contractors.

OFFICE OF THE COUNTY CLERK OF LINN COUNTY, OREGON.

July 12, 1900.

Notice is hereby given that pursuant to an order of the County Court of the state of Oregon, for Linn county, made at the July term, 1900, thereof, sealed bids will be received by me until August 9, 1900, at 1 p. m. for the construction of a Howe Truss covered bridge across the South Santiam River near the mouth of McDowell Creek.

Contractors are invited to furnish plans and specifications and bids thereon and also to bid on the plans and specification prepared by F. J. Miller now on file in my office. Cash or a certified check to the amount of \$250 must be deposited with the clerk with each bid. The court reserves the right to reject any and all bids.

The successful bidder will be required to give a bond in the sum bid for the faithful performance of his contract.

W. F. HAMMER, Clerk.

Mr. Miller on Silver.

Lebanon, July 31, 1900.

EDITOR DEMOCRAT: A great deal of space in the columns of the OREGONIAN is devoted to finding fault, to ridiculing, and even to accusing of insanity to the coming of gold and silver at the ratio of 16 to 1. They speak of it as though it was something utterly impossible and absolutely a thing never heard of, not even dreamed about, and one would judge from reading their editorials that not a Republican in all this broad land ever adhered to such a doctrine. Now I will not ask you to print a history of the Republican party either in the United States or in Oregon on this question, but will simply call their attention to the fact that the latest coinage law enacted in this country was by a Republican congress and signed by William McKinley June 13, 1898. The amendment to the War revenue bill was offered by Senator Walcott of Colorado, a Republican all wool and a yard wide, authorizing the coinage of not less than \$1,500,000 each month which became a part of the bill. These dollars are coined under this law, a Republican law, at the ratio of 16 to 1.

Under this administration there has been coined 60,000,000 of these dollars, dollars which you call dishonest, fiat, etc. when advocated by a Democrat or Populist. During the month of June there was coined in the mints of the United States 3,600,000 of these dollars and at the ratio of 16 to 1. Then why this howl about 16 to 1? If it is wrong why did William McKinley sign the law authorizing the coinage of not less than 1,500,000 of these dollars per month until all the bullion purchased under the Sherman law is coined into silver dollars at this ratio of 16 to 1? If 16 to one is wrong why has not the President recommended a change of ratio? If 16 to one is wrong why has not some Republican member of the house or of the senate introduced a bill to change the ratio, which none of them have done but instead, have passed a bill to coin dollars, silver dollars at 16 to 1.

16 to 1 is this administration's ratio, they have never proposed any other ratio—the proof is conclusive—this is the fixed and established ratio of this country and no one wants any other, then why this clamor? It has been the law of the land for years. Mr. Bryan and his followers Democrats, Populists, Free silver Republicans, including the Millers, the Bennetts, the Hares and the Coopers, come out boldly and openly declare for 16 to 1, while McKinley, Hanna, Scott and others ridicule 16 to 1 and yet order 100,000,000 silver dollars coined into silver dollars at this very ratio.

In the campaign of 1896 the Republican orators and the Republican press declared that we could not coin any more silver dollars, that we had more than a sound financial policy could stand, that we must get rid of some of them, that the very agitation of the question of the coinage of silver dollars at 16 to 1 was wrecking our financial foundation. Now they are coining silver dollars to meet the demands of business, paid out 760,000 of them to the soldiers in Cuba in a single day, and yet say they are a dishonest dollar. "O, consistency, thou art a jewel."

These dollars are good enough for our boys who face Spanish bullets and eat Alger meat, yet they are not good enough for the bond holder. My God, a party with such a financial record finding fault with other people. You will search all the pages of history in vain for any thing like it.

Sharp Points

The fact that ex-Speaker Reed had been blacklisted by the republicans was, it is said, given out at Chicago, in order to break the force of a declaration against present republican principles that Mr. Reed was about to make. This, however, will probably not prevent him from firing his shot and from making a serious breach in the republican breastworks with it.

Probably no one will object to the President's agreement to arbitrate between China and the other powers in case the former accedes to several well defined conditions. But it seems worth while to call attention to his refusal to arbitrate for the Boers unless the party of the second part should also request him to do so. Has the aforesaid party requested mediation in this case? We have not heard anything to justify the belief that they have.

Truth crushed to earth will have a good chance to prove its resilient qualities when the situation in China clears up.

It is hard to tell just what Li Hung Chang is up to. He is making almost too many explanations now-a-days.

It was recently reported from China that Conger's message had been carried at the rate of 200 miles a day. It now turns out, however, that it was really carried 600 li a day. A li is supposed to be a third of a mile, but perhaps it is as long as those we are familiar with.

Boston has opened free public baths. And Boston doesn't need them as badly as some cities that we might name.

Bobs has again "regretted to state," this time only 18 miles from Pretoria. Yet the Boer war, like the Philippine, is over, even though the generals in both cases are declaring that they can't spare any of their men and are calling for reinforcements.

The superiority of man over woman is clearly shown by the fact that even a bald-headed man can keep his hat on without using hat pins.

A Mrs. Joy of Chicago, who was a Miss Schwikowiczski, has sued for divorce. So far as known, however, she has not asked for the restoration of her maiden name.

Mark Hanna has gotten political prediction down fine. He just figures out how many states he needs and then proceeds to carry them.

The powers will have a dry time of it in China. They have no laagers there.

Is it possible that Bobs permitted his communications to be cut, so that the attention of the world might be drawn to the fact that he is still on earth.

Variations think that Americans are somewhat harsh in criticizing their big show, and this is no doubt true. It was not to be expected that it would come up to the Chicago Fair.

Even if the democratic party is not getting them, the republicans are losing a number of distinguished members this year. Ex-President Harrison and F. B. Reed are practically out of the G. O. P., though their former honors from that party prevent their openly joining its opponents.

The trouble with McKinley is that he is more anxious to do the thing that he thinks will help him politically rather than the one that is right. This is why he has not called Congress in extra session.

What Makes Home?

Home is made by the family. Without the love which comes with children there may be a house but never a home, in the best meaning of the word. Many a house which was only four walls and a roof has been made a home by the agency of Dr. Pierce's Favorite Prescription. Nature sets her face against childlessness and "Favorite Prescription" works with nature to remove the obstacles to maternity.

"I had been a sufferer from uterine trouble for about three years, having two miscarriages in that time and the doctors that I consulted said I would have to go through an operation before I could give birth to children," writes Mrs. Blanche H. Evans, of Parsons, Kansas, Ex. Co., Pa., Box 41. "When about to give up in despair, I bought a bottle of Dr. Pierce's Favorite Prescription and after taking it felt better than I had for years. It improved before I had taken one-half bottle. After taking four and a half bottles I gave birth to a bright baby girl who is now four months old and has not had a day of sickness. She is as bright as can be. I cannot say too much in praise of Dr. Pierce's Favorite Prescription."
