### Washington to McKinley.

The DEMOCRAT office has received a set of the Messages and Papers of the Presidents, in two volumes, recently issued, as compiled by Congressman James D. Richardson, one of the United States' ablest representatives, under the authority of congress. It is unquestionably the most valuable historical work ever published in the United States. Besides the great papers and messages of the presidents and the papers of others in connection with them, covering all the great questions of the day from Washington's inaugural address down to the middle of McKinley's administration, it contains the official papers of the pictures of the presidents and the public business of the United States, and a complete index which is remarkable in its scope, containing besides references to every thing in the contents a copious account under the proper heads of all the great events of our nation. It is a three years' work of constant work to prepare this index, four years in all to make the compilation. The New York Sun alone has devoted fifty-three columns of editorial to this wonderful work. Congressman Richardson is entitled to great credit for his able compilation of these invaluable documents into a work that makes a complete historical record.  
As the material accumulates sufficient for a volume of nearly 800 pages new books will be issued. Most of the volumes cover from eight to twelve years, the first when they did more acting than writing eighteen years.

#### Electrical Storm.

ST. JOSEPH, Mich., Aug. 24.—The worst electrical storm of years struck here early today. The steep of the Lutheran church was splintered by lightning, and 10 barns, a few miles south of here, containing the season's harvest, were also struck, and it is reported, were burned to the ground. A huge wave like that which recently visited Chicago, advanced 10 feet up the shore, washing away a number of small boats and thousands of feet of lumber.

#### Prompt Justice.

ARTON, Aug. 24.—The train carrying the negro Peck arrived here at 3:30 p. m. A carriage was waiting at the railway station and Peck was quickly bundled in it. He declared he had nothing to say except that he threw himself at the mercy of the court. The court then sentenced Peck to life imprisonment in the State Penitentiary.

The publisher of the Sentinel is interested financially in the Lake County Register, the leading paper of Lakeview. The Lakeview office is thoroughly equipped with the latest machinery and types. All were sent from Salem several weeks ago. They were not a part of the Sentinel plant, but were formerly used at Albany in the publication of the Lincoln County Republican. The Sentinel purchased the entire printing plant of the late Charley Watts. It was one of the best plants on the coast and will enable the Rustler to get out a fine paper and do up-to-date job printing.—Salem Sentinel.

It took only two rounds for Fitz Immons to whip Sharky last evening. If he ever fights Jeffreys again it will not take so very many more rounds. He is now the greatest fighter in the world, and about the only one who has sense enough to remain sober. Which explains it.
