Brownsville.

The friends of the Baptist church are now putting forth practical efforts to secure a pastor for their somewhat scattered flock and it is hoped a good man will be found to take the place. The Baptists are well able to support a minister as their members are among the frugal and best Brownsville citizens.

Mr. A. U. Bannard, the energetic and successful hardware merchant who has been to Portland for some days on business returned home on Monday noon by Halsey accompanied by his daughter, Miss Bannard, who has been for a number of weeks visiting friends in Portland.

George Padley, who was so badly burned in the accident with his rectorator explosion is improving rapidly under the care of Dr. Reese and of Mr. and Mrs. Powell where he is staying.

The young people's society of the Presbyterian church took their annual outing to Waterloo and Sylvania on Tuesday and were as happy looking crowd as one wish to see.

The ladies of the Presbyterian church held a special meeting for a special "sewing match" at the home of Mrs. N. R. Baird on Tuesday afternoon when in addition to a quiet "table talk" good work was done for a good cause.

The wires are going up this week on the telephone poles to Crawfordville, so next week you may "haloo" to Crawfordville if you want.

Hon. M. Wilkins and wife have moved back to their old home in Willamette precinct to spend the summer. This old couple were married 55 years ago in the east; came to Oregon 53 years ago settling for a time near Oregon City, where their first son was born 52 years ago, Hon. F. M. Wilkins, of Eugene, one of our oldest native sons. They came to Willamette precinct 50 years ago and have resided continuously in their present residence 45 years.—Eugene Guard.

G. M. Geisendorfer, proprietor of the Cascade springs, informs us that a couple of the directors of the Willamette Valley Chamusca association have spoken to him about having the annual meetings of the association held at Cascade instead of at Oregon City. This would be a big thing for Linn county, and our people should do all in their power to bring about the change.—Lobannon E. A.

Headache

Is often a warning that the liver is torpid or inactive. More serious troubles may follow. For a prompt, efficient cure of Headache and all liver troubles, take

Hood's Pills

While they rouse the liver, restore full, regular action of the bowels, they do not gripe or pain, do not irritate or inflame the internal organs, but have a positive tonic effect. 25c. at all druggists or by mail of C. I. Hood & Co., Lowell, Mass.

Geo. D. Barton, Albany.

Indications of a Land Slide.

The following from the Examiner is a very live pointer:

One of the most striking signs of the coming democratic landslide in this country is the number of influential newspapers which formerly supported McKinley and which this year are giving their hearty support to Bryan.

In New York the "World," which supported Palmer and Buckner four years ago, now espouses the cause of Bryan with telling force, while the "Herald" and "Evening Post," though favorable to McKinley on minor issues, are giving the democratic ticket strong support on the paramount issue of imperialism. And "The Journal," which was a journalistic infant in 1896, is now grown to be one of the greatest newspapers in the world and has never wavered in its staunch support of Bryan.

In Chicago, where the democratic ticket had no newspaper support in 1896, there are now three great dailies, the "Chronicle," the "American" and the "Record," with a large circulation, are warmly endorsing the democratic platform and taking up the fight against imperialism.

In Baltimore the "Sun," which lays down the law and the gospel for Maryland, was opposed to Bryan in 1896, but this year the "Sun" is giving the democratic ticket and platform a loyal support which insures Maryland's electoral vote for Bryan and Stevenson.

In Cleveland the old democratic organ, the "Plain Dealer," which left the party in 1896, is back in the ranks again supporting Bryan with all its old time vigor.

The Indianapolis "Sentinel" wandered off after strange gods in 1896, but this year it has returned to its old faith and is out for the democratic ticket and platform.

The Louisville "Courier-Journal," whose defection to Palmer and Buckner in 1896 gave such a set-back to the party in Kentucky, is also back in line and giving Bryan its vigorous support.

In addition to these notable examples of the trend of popular opinion, there are many other influential papers, such as the Springfield (Mass.) "Republican," the New Haven "Register" and others which, while not directly supporting Mr. Bryan, are vigorously espousing the cause of anti-imperialism.

In addition to this great accession to the Bryan movement there is the German press of the country, in which there is practically a revolution of opinion. Quotations from a few of the more prominent and influential of these papers will show the general attitude of the German press this year.

New York "Staats Zeitung" (Independent, circulation 56,000).—"The so-called German is at present awaiting developments, but it can be positively ascertained that the republican candidate will not receive as many German votes as four years ago."

"Freie Presse," Chicago (Independent, circulation 40,000).—"Mr. Bryan received in 1896 about thirty per cent of the German vote. This year he will get from sixty to eighty per cent of that vote. Imperialism is the paramount issue with the Germans this year."

"Michigan Volksblatt," Detroit, Mich. Independent.—"Over sixty per cent of the Germans will vote for Bryan this year because of their hatred of imperialism and trusts."

"Kansas Telegraph," Topeka, Kansas.—"The majority of the German voters who voted for McKinley four years ago will vote for Bryan this time. Anti-imperialism is the issue."

"Missouri Staats Zeitung," Kansas City, Mo.—"Bryan will get nine out of every ten German votes this year."

"Iowa Staats Anzeiger," Des Moines, Iowa.—"Bryan will get two-thirds of the German votes of Iowa."

"The Journal," Terre Haute, Ind.—"One-third the population of Indiana consists of Germans. It is our opinion that the democratic candidate will receive the large majority of the German vote this fall. This will be a gain of about sixty per cent over the last election."

Mr. Bryan disposed of the flag appeal very neatly in a recent speech.

"The American flag," he truly said, represents the purpose of the American people."

I want the American flag to come down from the Philippine islands in order that the flag of a republic might rise in its place. I would rather that we have two flags representing two republics than one flag representing an empire. If any republican says that we cannot take it down in the Philippines I want to remind the republican that our flag floats in Cuba and the republican President promised to haul down the flag in Cuba as soon as the Cuban flag is ready to rise in its place.

A prominent New York paper refused to publish the following from a correspondent:

While you and other McKinley papers are so fiercely lamenting and weeping over the fact that there was no mention of 16 to 1 in the recent speech of Mr. Bryan, will you kindly inform me if a hunter would be justified in wasting his ammunition on chipmunks when he had a grizzly in sight?

The Declaration of Independence.

Chas. A. Towse writes in the following energetic manner:

Historically, as all the world knows, the Declaration of Independence is the document in which the American colonists in 1776 proclaimed their independence and nationality, and in which are recited the reasons and justifications for that step.

Considered as a contribution to the literature of the science of government, it is a formulation of the general principles of liberal institutions. Its spirit has been for a hundred and twenty-four years the greatest force in the political world. It has shaped the policy and formed the ideals of the American people. It has made our example more potent on the institutions of Europe than all other influences combined. It is today more powerful than all our fleets and armies. Parliaments, representative governments, liberty of the press, religious toleration, including guarantees of personal freedom, bear witness to it in the uttermost parts of the earth.

To it are largely due the humanities of modern art and literature and the subjugation of science to the practical utilities of every day life. The promulgation of it and the defense and exemplification of it have given us our peculiar place in human history. The Christian gospel has forever sanctified a small Roman province. The art and philosophy of Greece have dedicated a petty European peninsula to the immortal regard of all mankind. Future ages will cherish endlessly the bequest by the United States of the principles that all men are created equal, and that just government can exist only by the consent of the governed.

Twice only in our history has the doctrine of this great instrument been openly assailed. It was the duty and glory of Abraham Lincoln to defend the Declaration of Independence from the charge that it did not apply to black men.

Today the party that he founded is engaged in attempting to prove that it does not apply to brown men. But by its language it applies to all men, and to admit an exception is to deprive it of its place in the history of liberty and to remit the world to the old doctrine of force as the basis of government, justifying the divine right of Kings, the institution of slavery and the wars of mere conquest and subjugation.

A Woman's Face

Tells its own story. A laugh is often a lie on a woman's lips. It belies the pain which is tearing at the nerves. But the eyes have no part in the laugh. Their purple rings speak of suffering. There are lines too about the mouth which only pain can give. Many women look forward to a week of such misery each month. Three months of each year are given up to suffering. It weakens them. It ages them. It robs them of social pleasures and family joys. Can there be any excuse for such women who fail to try Dr. Pierce's Favorite Prescription? It has cured thousands of such sufferers. Cured them perfectly and permanently. It cures ninety-eight out of every hundred who give it a fair and faithful trial. It's sure to help. It's almost sure to cure.

"I had falling of internal organs and had to go to bed every month; had irregular monthly periods which would sometimes last ten or twelve days," writes Mrs. Alice L. Holmes, of Coaling Street, Uniontown, Pa. "Had indigestion so bad that I could not eat anything hardy. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me."

Free. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper-bound book or 31 stamps for cloth binding to Dr. R. V. Pierce, Buffalo, N. Y.

Beware of Ointment for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c. per bottle. Hall's Family Pills are the best.

Off the Track means great disaster when applied to a fast express train. It is just as bad when it refers to disordered blood or deranged stomach. Hood's Sarsaparilla puts the wheels back on the track by curing the troubles.

PEACHES.—For some fine Crawford peaches for canning and table use, leave orders with Van Riley at home of Peter Riley. Will meet all prices. From Raders orchard, Granger, Or.
