## SATURDAY NIGHT THOUGHTS

The Chinese entanglement continues as mixed as ever. It is difficult to tell where heads or tails are, so intricate are the affairs of the Celestials and allies. One day the allies are about to leave Peking. The next day they are not. If the trouble ends without the powers trying to get a slice of the empire it will be the marvel of the age, and we will all open wide our eyes and mouths in wonderment.

During the week has occurred in Texas one of the worst storm disasters in the history of the United States, putting in the background the common cyclones of Nebraska and Kansas. The entire world has stood aghast at the horrors of the details. Five thousand people swept to their death by wind and water is a calamity of a startling nature, and it must make people pause and wonder when their turn will come. An interesting feature is the promptness of the response of the people of the entire country to the call for aid. From all directions, no matter how near, or how far away, money and clothing has been sent by almost the first train going. The American heart is an enormous one, when as a unity strikes a fellow being, and all men are brothers.

In connection with it we have had some examples of total depravity of a fierce character, ones that make the blood boil in one's veins. How a human being in a case like this can have the heart to rob the body of one dear to some one, is beyond one's comprehension. And yet for a little gain men stole the things on the dead bodies of those found, the money from their pockets, the jewels from their fingers and ears. Where caught in the act they were promptly shot down, receiving justice none too soon.

It is being more and more forcibly demonstrated every day that the way to build up a nation of good citizens is to begin right with the children of the country. Some figures which the DEMOCRAT recently saw presented in a striking manner showed very plainly that the character of men and women is as a rule pretty well established by the time a person reaches the age of 16. That is by that time the impression has been made on their minds, which goes with them through life. About that time in their age the vane has been set for good or for bad. The boy of sixteen indicates the man that will follow. In the case of the girl, though it is figured that it occurs two or three years earlier. The problem then to solve is how children can be reached so that when they have passed the danger point their character is sufficiently established to insure them an honorable career as a Christian man or woman. Some people try to whip it into them, others to love it into them, etc. But whatever course is taken it is plainly the duty of parents and teachers to put in their best efforts to help form the character so that it will be established for good, as important a matter as it is to store the brain with knowledge that comes from books.

For Malaria, Chills and Fever. MAKES CHILDREN AND ADULTS AS FAT AS PIGS. THE BEST PRESCRIPTION IS Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the Original and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
