One of the finest pieces of work ever gotten out in Oregon is the Junior's Annual of the U, of O. just issued. It is not only a fine thing from an artistic standpoint, but it is creditable from a literary view. Unlike many annuals it is reasonable and does not "slop over." Yet it contains plenty of humor. It speaks well for the university.

The Woodmen of the World of this city are contemplating a big picnic at this city in September with excursions here from all parts of the valley. Albany is splendidly situated to become a picnic city, and it is much better to have a big pienic at home than to go elsewhere. With so fine a place as Bryants' park, right at our doors we have every laculty for a big gathering.

The remedy is simple. Take Hood's Sarsaparilla.

That this medicine radically and effectively purifies the blood is known to every druggist, known to hundreds of thousands of people who themselves or by their friends have experienced its curative powers.

The worst cases of scrofula, the most agonizing sufferings from salt rheum and other virulent blood discases, are conquered by it, while those cured of boils, pimples, dyspeptic and billous symptoms and that tired feeling are numbered by millions.
