PRESBYTERIANS BEAT **METHODISTS**

Albany College defeated Willamett. University at foot ball Saturday after noon in a fast game 27 to 0. The latte had been greatly strengthened, five changes having been made, while on the Albany team some of the subs were played through the game. Members of the Whilamettes stated that Albany played a stronger game than the O. A. C. not withstanding the smaller score. The Statesman says of the contest:

The Statesman says of the contest.

With a series of rushes and runs and well directed punts the Albany College football team juggled the pigakin yesterday to the tune of 27 scores, but when the Williammette University team balanced up its account it was found wanting.

the Willammette University team balanced up its account it was found wanting.

The Methodists toiled heroically however, and fought like demons to defend their colors, but the Presbyterians were their superiors in almost every respect, so far as the game was concerned, and made touch-down after touch-down in spite of the futile resistance put up by the University team. Although the entire game was a scrupulously clean one, several accidents of a minor nature occurred and all of the substitutes available were put into play.

During the first half of the game the Presbyterians piled up 17 scores on their side of the campus, but the last half was more closely contested and exciting, and the Albany boys only succeeded in securing 10 more scores.

The University team took their defeat very philosophically, however, and congratulated themselves upon being able to hold the Albany team, which is considered superior to the C. A. C. team, down so well, and are gratified over their marked improvement.

The Girls S'udent Association gave a reception last night in the University chapel in honor of the visiting college boys. The hell was crowded with admiring friends, and the visitors were escorted to the train by scores of students who went out to see them safely started on the journey homeward.

The line-ups of the respective teams follows:

Albany's next game will be played next Saturday with the strong Portland Academy eleven, very little behind the Multnomahs.

Other Saturday games were:

O. A. C. vs. Seattle 16 to 6 in favor of Seattle. Seattle, though, came within two yards of another touchdown and Jittle leas for still another and ontplayed the farmers generally. Nash at full and Gault at tackle played the star game for the farmers. The ends were so slow in starting that they had no show against the fast Seattle men.

A Great Concert Band.

Mr. Channing Ellery's Royal Italian Band, under the direction of Cavaliere Emilio Rivela, Albany Opera House Friday Oct. 31. Of all the really first class foreign musical organizations that have ever visited America, this band is easily the best. It is a well known and always conceded fact that the Italians excel other nations of the world in the arts, particularly music, and what America is to the world in a commercial way, Italy is in art. Her supremacy has never been questioned, hence when it is known that the Royal Italian Band is composed of fifty-five of the leading band musicians of their native county, it will be readily seen that it is a superior organization. When the band was organized, the utmost care was taken to get only those who were capable soloists. Prior to the organization of this band, the members were all identified with leading bands which are sustained by the cities and provinces, and it requires as much influence and red tape procedure to get them released as it would to secure a man's discharge from the United States' standing army, before his time expires. class foreign musical organizations that his time expires.

A Striking Decision.

Judge Burnett in the Circuit court at Salem has decided that most of the hop contracts are merely chatel mortgages, contracts are merely chatel mortgages, and that under them the mortgages may tender the amount advanced and be released. Under this decision the producer is not obliged to deliver his hops this year at the price contracted, but instead may simply pay the amount advanced and sell to whom he pleases. A good many have probably already delivered, but those who have not will undoubtedly take advantage of the decision if it applies to their style of contract or mortgage.

Always speak plain English and you will be understood. A man toldanother that he could have him arrested for a breach of the eighth precept of the dece alogue. This alarmed the man and he went six miles to a justice of the peacand asked him the meaning of his neighbor's threat, but the words were too large for him and the poor man had to go to a book store and borrow an "unabriged dictionary" and all he could find there was the definition of the word "decalogue," "the ten commandments." He took down his old Bible and went to a minister and asked where he would find the ten commandments. After finding the chapter he took the number of the verse for the number of the commandment. Read and see.

(Maple street no yet reported.)

The attendance in all of the upper rades is much below what it should be in a city the size of Albany. It must be that far too many are getting poor preparation for an enviable future. Boys with little or no schooling are not being looked up for the best place.

The high school is growing and will

The high school is growing and will reach the 75 mark before another month is gone.

The high school boys have organized a toot ball team and are getting out for regular practice.

It is suggested that the girls organize high school basket ball teams and prac-tice regularly when it doesn't rain. There is good talent for two strong teams.

The Maple Street School opened Monday. It is a splendid building presenting a fine appearance externally and with interior equipment that is equal to the best on the coast.

Albany's schools are among the best and well may our people be proud of

them.

The time lost by absence the first month—537 days is a fearful record and wholly inexcusable. What can our good people be thinking of to allow their children to not only lose so much valuable time but to injure the work of others by their failure to keep in touch with the work. The best legacy parents can leave their children is a good education. With this they can take care of themselves. Why will parents allow children to get into habits that destroy the value of school training?

A Market Day.

Some time ago the DEMOCRAT mentioned the arrangement being made by O. O. Lie to establish a monthly market and sale day at his big barn in the third and sale day at his big barn in the third ward. Yesterday afternoon Mr. Lee, Matt Scott, J. K. Weatherford, H. Bryant and L. T. Berry met and perfected a plan for the same. A company will be incorporated and the business pushed. The proposition is a good one and the stockmen and farmers of the valley should give it their hearty support, as a good establishment of this kind will mean a good deal for Albany and the county generally.

Decision Affirmed.

The Supreme Court yesterday rea dered its decision in the case of the state against James Gulley, who was found against James Guiley, aguilty in Judge Burnett's court of soli-ing liquor to a minor. The boy in order to secure the liquor claimed that he was of age. Judge Burnett held that it was the business of a barkeeper to know the age of a customer and that he run his own risk. The Supreme Court affirms the decision.

The coming engagement of Ellery's Royal Italian Band, will undoubtedly be the musical event of the season in this the musical event of the season in this city. The band having already played here is well known, and enjoys the distinction of having made the greatest hit here ever made by any similar organization in this city. Its previous appearance established the fact among local musicians and music lovers in general that it is a band without an equal in America today. Never before have such thrilling renditions of all classes of music from classic and operatic, down to the lighter and commonly called popular music, been given in this city. The band was in reality a revelation.
