Royal Italian Band.

The people of Albany will give this fine band a good reception on Oct. 31. It is one of the finest in the world, is different from that of the average military concert band as day is from night. To begin, there is a preponderance of reeds in this band, which is of itself a great advantage. Then the leads in the Italian band are all played by trumpets, and not cornets, which are used in the ordinary bands. The trumpet is a much more difficult instrument to master than the cornet, and has a decidedly purer and sweeter tone and greater carrying power.

These instruments with their pure, beautiful tones, are what have made it possible for this band to attain the perfection it has in rendering the great Italian operas and masterpieces.
