

Mr. Cannon will do almost anything the bosses say in order to be speaker, Watch and see.

Flizgimmons and Jeffries are making arrangements to go on the road and give exhibitions. They would prove a drawing card, and at the same time present a freak in the nature of two men who fought viciously in the ring giving each other gentle punches for the price of admission.

The great question before the next congress will be that of the tariff. There is a strong sentiment in the republican party in favor of tariff revision, but the bosses in the party have decreed otherwise, so that when congress meets it is very doubtful if the party permits anything of the kind. In fact it will not be done for the simple reason that a revision of the tariff will be detrimental to the interests of the trusts, and regardless of talk for political effect the party is not going to do anything serious to the trusts. Some people can see this, some cannot and some do not wish to.

The President refused to shoot a bear that was lassoed for him. This was very commendable. In this respect the President is decidedly ahead of the Emperor of Germany, who when he hunts has the game driven up in front of him, and with three or four men to load for him slaughters the innocents as they come close to him. In the opinion of the DEMOCRAT this is cowardly sportsmanship, with nothing commendable about it. It is worse than pot hunting. There is nothing decent about it. The respectable hunter will give a bird or beast a show for its life.

New York Commercial Advertiser. Finally, the question may be asked whether any man is really famous in the sense that his name is universally known. Napoleon is the supreme example of the famous man—famous as a soldier, as a statesman and as an extraordinary personality. One day, however, at the time of the second empire, the cousin of Napoleon III came to the guest whom he found there that he had just had a conversation in the gardens of the Palais Royal with a woman who had never been born and reared in Paris, and yet who had never heard Napoleon's name and had not the very faintest notion of who Napoleon was.

Engene Register. Well, Idaho, we thought you would get into line after awhile. No Western state can afford to enjoy the sun of prosperity under republican policy as has Idaho during the past few years and continue showing a thankless spirit for the favors of Divine Providence and its ally—republicanism.

It is passing strange that the trust magnates and their puppets have grown so bigoted that they rank themselves with the Almighty. This must be an infringement on the "divine right" of kings and emperors. Yet, price goes before a fall.—Roseburg Review.

A while ago the Salem Journal joked Editor Humphrey about his new suit of clothes, a joke appreciated by the Review man. The DEMOCRAT passed it along, whereupon the erudite and aesthetically Dallas Observer jumps all over us as follows: Editor Humphrey, of the Jefferson Review, is accused by a Salem paper of causing an unnecessary sensation and stir in Jefferson by appearing in a new suit of clothes. There is talk of taking the matter up to the supreme court.

This little squib is clipped from the ALBANY DEMOCRAT—an excellent newspaper, by the way, and one that should be far above printing such trash. This item is on a par with the times-worn "patch on the poor editor's pants," and the "cordwood and turpins" joke. It is neither funny nor smart. A newspaper man who will cheapen his chosen calling by writing such stuff really deserves to wear patched pants and live on turpins the balance of his days. Anything better is too good for him.

Cost of the Boer War

At the beginning of the hostilities between the British and the Boers, Oct. 11, 1899, the British had a force of about 50,000 men. During the two years, seven months and twenty days of war, ending May 31, 1902, England sent out 280,000 soldiers. The losses up to April of '02 year were:

	Officers.	Men.
Total deaths	1,020	20,031
Missing and prisoners	384	9,181
Sent home as invalids	2,987	68,311

About 37,000 Boer prisoners have been taken, but of the killed and wounded on that side there are no reliable statistics. Nor are there any records as to the money spent by the two Boer republics. Up to April 1, the British had expended over \$825,000,000, which will amount to considerably more before the account is finally closed.

\$67,000,000 was recently lost in a week in Wall street by the depreciation of the value of stock. That is a part of the gambling game and is no cause for concern.

The next state legislature should pass a flat salary law, but it is very doubtful if it does anything of the kind. Nor would a flat salary law have been passed by a special session.

Some of the papers seem to think the had luck of the President in his present hunting trip a national calamity. Nothing of the kind. He secures a needed rest and the bears continue to live.

There is already a great deal of juggling of the irrigation bill, and it looks some as if the result desired will not be accomplished. If it is it will mean a great deal to some sections of eastern Oregon, where the land is practically of no value without irrigation, but of great wealth with it.

After all there are more important things than the question of which is the champion foot ball eleven of Oregon. For instance who will be the next U. S. senator from this state; will timber land claimants be able to hold their claims; a \$100,000 endowment for Albany college, or a government post office building for this city.

Pendleton Letter.

PENDLETON, Or., Nov. 15, 1902. EDITOR DEMOCRAT: This week has so reminded me of old Webfoot that I will have to try and scratch up a few notes to remind you of the fact that my webs are feebly sprouting again, and if it don't freeze up here soon it will soon begin to look a little ragged between my toes.

Last Saturday, the 8th, was the first time I saw it rain steady all day since I left the Willamette Valley, and it has rained or showered most every day since and the streets of Pendleton are as sloppy as I ever saw the streets of Albany. But a few days of wind and sunshine will dry them up and probably we will have a dust storm.

The large brick Hospital is nearing completion. Also the large brick Academy. The large Christian church, same style as the one Albany, except a stone basement, is being hurried along, and several fine residences are nearing completion. A large brick brewery is in course of construction and the ground is being cleared for a large ice plant.

Sheep men are bringing their sheep down from the mountain ranges to their winter quarters, so most any day you can see from 2000 to 6000 pass through Pendleton in one band.

Wheat reached the 60ct mark a few days ago and wood the \$6.00 per cord mark, butter 80c and eggs 35c.

Pendleton has been rather a measly place the last few weeks and the Rooster little Rooster, has looked terribly mealy for several days but is up again now.

Pendleton is a fine business point but is not a healthy place; no drainage, no sewerage, the city is full of cess pools and the water is bad, with considerable alkali. There is more rheumatism and fevers here than there are in old Web-foot valley two to one, and they use lots of fra/water, snake bite 60 yards off hand, and moon shine and sailors delirium, but they have the rheumatism just the same.

The firm of Harris & Wray, proprietors of the Pendleton Marble & Granite Works, have dissolved. Harris retiring having disposed of his interest to Mr. Wray, who will continue the business and will see that the graves are kept green. Harris in the meantime will probably be the next candidate for U. S. Senator before the next Legislature at Salem and if he fails, he will go to Arkansas and grow up with the country.

The Umatilla river is full of Salmon now and the boys and idle men are having lots of fun fishing. The city is well supplied with salmon from 18 inches to three feet long.

It is Sunday again and is still raining and it looks like it has come to stay all day.

This is a very lively country up here. Last week I took lunch where there were about 2500 or 3000 persons and there was not a word spoken during the lunch or during the day. This is also a loud place. During the last term of court there were rape cases, shooting cases, horse thief cases, forgery cases, assault and battery cases, petty larceny, grand larceny cases, robbery cases, attempt to murder, damage cases, divorce cases, gambling cases, drunk and disorderly cases and almost any case known in criminal courts except a breach of promise case. If there was such a case I have failed to hear of it.

SAGS ROOSTER.

This world is full of woes And each one gets his share And the public will be delighted when Roosevelt gets his bear. The elections now are over And the Repp'll get there. (Except Furrish.) But Oregon will be in the swim When Chamberlain takes the chair. S. R.

Wheat and Oats.

SAN FRANCISCO, Nov. 15. Wheat:—Receipts for the week, 139,563 cwt. The situation is unique in this, that Eastern and foreign markets have apparently little upon their own little local market. Freight has gone to the demerit bowwows, and first-class iron ships are now quotable at 12 shillings, six pence. This is the lowest rate for European points ever recorded. For Australia, ships have been chartered as low as ten shillings. The man who owns the California wheat today is getting the benefit of this low freight rate, and the corresponding increase in the price of wheat. For weeks the "Big Four" attempted to hammer down the Call Board market but finally had to quit actually baffled and beaten at their own game. They have the ships, they must have the wheat, they can't get the cars, and the devil is to pay. This is a case where the devil pays.

Oats:—Receipts for the week, 19,320 cwt. of which Oregon gave us 2,770 cwt. and Washington, 6,000 cwt. Practically the first blood from the north. Will they keep it up? That is the question, and the one question with reference to the oat market. It has been this dread of the northern deluge which has kept the oat market down to a parity with barley. If the Government is to continue a good consistent buyer of northern oats, we doubt if we may expect any heavy shipments in this direction. In a short time the California crop will have been practically exhausted, and with light shipments from the north, there is no reason why good oats should not go to at least 1:40.

PRETTY SAFERULE TO GO BY

When there is a feeling that the heart or lungs, blood or liver, brain or nerves are diseased, at once commence to doctor the stomach. That is the foundation of the trouble in 90 cases out of every 100. Commence to regulate the digestive organs, get them in healthy working condition, and the other troubles will leave of themselves. Diseases which have their beginning in the stomach must be cured through the stomach. The medicine for stomach disorders and half the ills, is Dr. Gunn's Improved Liver Pills. These pills put all the digestive organs in good condition so that the disease has no basis to work upon. They are sold by all druggists for 25 cts. per box. One pill is a dose. We will send a box post-paid, on receipt of 25 cts, or to any body who wants to try them we will send 2 pills free. Send name and to Dr. Gunn, Philadelphia, Pa. For sale by Foshay & Mason, druggists.

Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. It's attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquefies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure. It restored my voice in time to win the medal.—Foshay & Mason, Burkhart & Lee.

The Worst Form.

Multitudes are singing the praises of Kodol, the new discovery which is making so many sick people well and weak people strong by digesting what they eat, by cleansing and sweetening the stomach and by transforming their food into the kind of pure, rich, red blood that makes you feel good all over. Mrs. Oranville of Troy, I. T. writes: "For a number of years I was troubled with indigestion and dyspepsia which grew into the worst form. Finally I was induced to use Kodol and after using four bottles I am entirely cured. I heartily recommend Kodol to all sufferers from indigestion and dyspepsia. Take a dose after meals. It digests what you eat.—Foshay & Mason, Burkhart & Lee.

Forty Years Torture.

To be relieved from a torturing disease after 40 years' torture might well cause the gratitude of anyone. That is what DeWitt's Witch Hazel Salve did for C. Haver, Geneva, O. He says: "DeWitt's Witch Hazel Salve cured me of piles after I had suffered 40 years." Cures cuts, burns, wounds, skin diseases. Beware of counterfeits.—Foshay & Mason, Burkhart & Lee.

The Democrat and Journal.

The Portland Journal is the only state democratic paper. It is news-outspoken and a credit to the state. The DEMOCRAT and Daily Journal, a 4¢ paper may be secured for \$5.75, \$2.00 for six months. The Weekly and Semi-Weekly Journal for \$2.00, or the Weekly DEMOCRAT and Weekly Journal for \$1.85, or any other combination desired.

Apples Cheap!

Now is the time to get supplied with apples when they are cheap. Having a quantity of Jonathan apples, quality culls, all hand picked, very few bruised, will sell and deliver the same on Friday's. For lots under 10 boxes 35c and over 10 boxes for 30c until further notice. As late in the season the price is apt to advance take advantage of this opportunity and try his apples. Once tried always liked, as the Johnathan's are well known for their fragrance, taste, juiciness and mellowness. In ordering please state the street and number of residence. Sound apples at \$1.00 a box, not including cash. Terms cash.

MISFITS.

The champion College team of Oregon has not yet been selected.

The farmers are now willing for it to stop raining for a few days.

What an immense number of faults we can find in each other if we try.

Emma Goldman has again spoken. She says the police are uniformed animals and all the people cowards.

An Oregon paper has this very startling motto: "One country, one flag, one wife at a time." It ought to win.

Sandow, the strongest man in the world, was lost in the wreck of a vessel on his way to Australia. F. S. He missed the boat.

Roland B. Molineux, the celebrated New York club man, has jumped from a murder trial into a divorce suit, from a frying pan into the fire.

The Mason & Hamlin pianos are again on top. Mason, who was arrested for murder, has been released and all the women are courting him.

The Eugene Register and Corvallis Gazette predicted a victory of 2 goals to none in favor of Eugene. The DEMOCRAT said the teams were about even.

The paper to be read by Judge Boise tomorrow afternoon on "fifty years recollection of the bench and bar" promises to be one of great historical value in Oregon.

An irrigation convention in the Willamette Valley at the present time sounds like taking coal to Newcastle, but we are working for our Eastern Oregon friends.

A pleasing feature of the big foot ball game was the fairness of the umpire and referee Mr. Judd of Salem and Mr. Thompson, of Albany. They both did the square thing.

The U. of O. foot ball team now has three coaches, Dolph, Zeigler and Jakway, and are willing to meet any college team in the Northwest the Saturday after Thanksgiving for the Northwest championship.

The Portland Journal gives the picture of Coach Edwards in the middle of a Bishop Scott-Hill game and that of Capt. Templeton of Eugene instead of Albany in the middle of a prize fight. Verily foot ball is a mixup.

Five very efficient R. F. D. men go out of Albany every morning. They start early and make their trips fast regardless of the bad weather and muddy roads, and yet a liar down in California once said the roads were in such condition up here that a carrier couldn't make a dozen miles in a day in the winter.

Arthur Lotto, the advance agent of the big Hearts of Oak Company, told a Portland reporter that five times the result is gained by a newspaper advertisement than from the usual bills posted about a city, that the theater goer invariably looks to the newspaper to find out about the coming attraction. It is the same in other businesses also.

The way Albany newspapers abuse the O. A. C. foot ball team, saying the men are afraid to meet the Albany eleven, and such, would seem to indicate that said papers don't want Corvallis people to come to Albany to trade any more.—Gazette. In view of the fact that the abuse has all been from Corvallis this is good. The DEMOCRAT doesn't believe the O. A. C. team is very much afraid of anything. Albany people though consider the Albany team their equal.

What is the Use of Paying Rent When Rent Will Buy You a Home.

We will loan you \$1000.00 or more to buy you a home, which you can repay in monthly payments of \$9.75. Call quick. Every renter should. At office of S. N. Steele & Co.

Look Out For Fever.

Biliousness and liver disorders at this season may be prevented by cleansing the system with DeWitt's Little Early Risers. These famous little pills do not grip. They move the bowels gently, but copiously, and by reason of the tonic properties, give tone and strength to the glands.—Foshay & Mason, Burkhart & Lee.

Gregg's Coffee.

Three Grades. Gregg's Brand M. & J. 40 cents lb. Combination Mocha & Java 35 cents lb. French Breakfast 25 cents lb. Best by test.

TELEGRAPHIC.

The Commissioners.

SCRANTON, Nov. 18.—While a considerable amount of information for the enlightenment of the commissioners was brought out, the day was a rather quiet one, compared with those which have preceded it. The arbitrators are growing restless in consequence of the long cross-examination, which apparently does not bring out the facts as quickly as the commission would like to have presently.

More Trouble for England.

PERNAHUR, India, Nov. 18.—The British expedition to put down the uprising of the Waziri tribesmen on the Afghan frontier is meeting with determined opposition. Colonel Tonochy, in command of the Fourth column, has been mortally wounded in an engagement with the insurgents, the next command, has asked for reinforcements.

Forest Reserve Law.

WASHINGTON, Nov. 18.—On recommendation of the Geological Survey, the Secretary of the Interior ordered the withdrawal of two additional bodies of land in Eastern Oregon, with a view to the creation of forest reserves. The one tract embraces the Powder River Mountains and contiguous country, about 250 townships in all. The second withdrawal embraces about 14 townships lying along the northern end of the Blue Mountain range following the Union and Umatilla county lines.

A Big Haul.

LISBON, Nov. 18.—Thieves have broken into the underground strongrooms of the banking firm of Felurinho and have stolen a sum of \$165,000. One of the clerks of the bank has been arrested in connection with the robbery.

A Bearless Hunt.

SMEDEZ, Nov. 18.—President Roosevelt's bear hunt in Mississippi is ended and he has not had even a shot at a bear. The last day of the chase was simply a repetition of the three preceding days. Try as the hunters would, they could not get a bear within range of the President's rifle.

Cannon the Man.

WASHINGTON, Nov. 18.—Babcock's withdrawal from the Speakership fight simply means that the contest is ended much sooner. Now it is settled within two weeks after the election that Uncle Joe Cannon will be the next Speaker. Dalzell, Littlefield, Burton and some others may remain in for some time, and may even get a complimentary vote when the caucus meets.

A Big Fire.

SIoux CITY, Ia., Nov. 16.—Armour & Co.'s packing plant, which occupied four acres of the stockyards, and was valued at \$900,000 was totally destroyed early this morning by a fire which started on the second floor of the fertilizer building and is thought by Manager Lennon to have been due either to spontaneous combustion or to an imperfect dryer. The loss is partly covered by \$721,000 insurance.

A Chicago Accident.

CHICAGO, Nov. 16.—One man was killed and a dozen men, women and children more or less seriously injured in a collision tonight between a Western avenue electric train and a Chicago, Burlington & Quincy freight train at the Eighteenth street crossing. The motor and trailer which made up the electric train were crowded with passengers and it seems a miracle that so many escaped instant death.

The President's Sunday.

SMEDEZ, Miss., Nov. 16.—Sunday was a quiet day at the President's camp on Little Sunflower. There was no hunt, but the President and several members of the party spent a couple of hours in the morning rambling over the forest trails on their horses. Dinner was the chief event of the day. The menu included roast beef, pawpaw, and 'possums and sweet potatoes. Dinner was served in camp style, on a rough pine board table set up in the open air.

More Bribery Trials.

ST. LOUIS, Nov. 18.—Circuit Attorney Folk, who has returned from Columbia, Mo., where he prosecuted the case against Ed Butler, who was convicted of attempted bribery, is preparing for the trial of other alleged hoodlums next week.

An Oregon Wreck.

COTTAGE GROVE, Nov. 16.—The north-bound passenger train No. 12 was wrecked six miles north of here at 1:10 p. m. today. The engine and five cars left the track. The only one hurt was a tramp who was riding on the blind baggage, and he may die from the injuries received. The engine and baggage cars are badly damaged, and one end of the mail car is smashed.

MacVeagh and Mitchell.

SCRANTON, Nov. 17.—In the presence of as many persons as could be jammed into the Superior Courtroom today, Wayne MacVeagh, for the Erie Co., and John Mitchell for the miners, continued their brilliant battle of cross-examination before the Anthracite Coal Commission. The two men, the one in his 80s, and the other in his 70s, were followed with intense interest by both the Commissioners and the contest will be resumed in the morning.

Out for Wilson.

TACOMA, Nov. 17.—That the friends in Pierce county of ex-Senator J. L. Wilson will make a strenuous effort to break into the Akeny following in this county was made manifest yesterday morning, when the Tacoma Ledger, in a plentifully displayed article on the first page, reinforced by a double headed editorial, declared in favor of the Spokane aspirant to the Senatorship.

An Earthquake.

SALT LAKE, Nov. 17.—Two distinct shocks of earthquake were felt in this city shortly before 1 o'clock. Clocks were stopped in various parts of the city, but no serious damage is reported. The shock was felt at a number of points in Southern Utah. Pine Valley, in Washington county, reports two shocks at 1 o'clock, the movement being heavy enough to damage chimneys and crackery from shelves.

The Small of the Back

That is where some people feel weak all the time.

They are likely to be despondent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

The fact is their kidneys are weak, either naturally or because of sickness; exposure, worry or other influences.

"I am thankful to say," writes J. L. Campbell, of Sycamore, Ill., "that Hood's Sarsaparilla has cured me. For many years I was troubled with backache. At times I was so bad I had to be helped from the bed or chair. I am now well and strong and free from pain." What this great medicine did for him it has done for others.

Hood's Sarsaparilla

Promises to cure and keeps the promise. Begin treatment with Hood's today.

A Hold Up.

TRINIDAD, Col., Nov. 18.—Four masked robbers held up a passenger train on the Colorado & Southern Railroad, 12 miles from here today. One of the robbers was shot by Express Messenger H. W. Sherwick of Fort Worth, Tex.

None of the passengers were molested. The Sheriff of Las Animas county immediately organized a posse and started in pursuit.

Something Extra.

The revival this season of James A. Herne's famous domestic play, "Hearts of Oak," is being received with intense interest by playgoers in general all over the country.

Written by an American, the scenes and characters are vivid types of those to be found upon the New England coast; where the author found the material for "Hearts of Oak," "Shore Acres" and other successes of his prolific pen, that are to be given during the present season in this city. "Hearts of Oak" is considered to be one of the best works of James A. Herne and its production this season at the Opera House next Friday night will be hailed with delight by the patrons of that place of amusement.

Consumption

Is often no more or less than a neglected case of catarrh, which in time creates a hacking cough and nature in her endeavors to get rid of the tubercles, sets up an inflammation, matter is secreted and the tubercles is softened. It then comes to a head or suppurates and the matter is discharged into the nearest air tubes. This the sufferer raises and allows the cough to come extinct, but as the air cells fill up with tubercular matter the blood cannot circulate perfectly through the lungs, hence it becomes more impure for want of air, which lessens nature's power to throw off the disease until at last the disease becomes more general, the cough gets greater, followed by night sweats and bleeding of the lungs, finally the sufferer gets weaker and weaker, until death ends this dreadful disease. Smith Bros.' S. B. Catarrh cure acts on the glands and mucous surfaces of the system through the blood. It promotes the action of absorbents, then removes the deposited tubercles and speedily allays the cough and cures catarrh, no matter where located. Never fails to cure night sweats. For sale by all druggists. Book on Catarrh free. Address Smith Bros., Fresno, Cal.
