

HIGH WATER.

The Willamette Goes on a Tear.

Instead of gently gliding through the valley the Willamette to day is roaring through the fields and filling the basements of cities along the river. Coming up with a rush the rise was very sudden and unexpected, catching many along the river unawares. Here it reached 31.5, the fourth highest rise in the history of the river, having been exceeded only in 1861, 1881 and 1890. It is now about at a standstill and a rapid fall is expected, a fall of four feet at Harrisburg already indicating this.

At this city it filled the warehouses along the river bank. There has been about a foot of water on the floor of the offices of G. A. Westgate & Co. Postal Tel. Co. and the O. R. & N. First street basements were flooded with about a foot of water and heaters discontinued business.

During the forenoon four of the piles in the north side of the big steel bridge at this city, nearest the pier fell, weakening that part of the approach, and at 10 o'clock thirty feet of the approach fell. F. J. Tracey and F. O. Danna, who had been on the other side, had just returned to this side, less than ten seconds before, a very narrow escape. Four persons, who had crossed to the end of the approach remained water bound. They were Elvin Crutcheff and Miss Laura Hackleman, of W. B. Stevens & Co., Allen Stellmacher of Foshaty & Mason and E. H. Root, of California, a guest at the St. Charles. Great interest was excited in their rescue. J. A. Warner, with his steel boat brought Miss Hackleman over and E. M. Walker and another logger from Spalding's camp, who came down the river this morning, rescued the men after a splendid display of boatmanship on the part of Mr. Walker.

The S. P. bridge at Junction was washed out, stopping trains, but is now temporarily repaired, ready for trains. At Astoria some track was washed out, but has been repaired.

The west approach to the Jefferson wagon bridge was considerably damaged. The Sanderson bridge took a tumble and disappeared down stream, at least the two north bents, the new south bent remaining. A free ferry should be run or the bridge relocated in a safe place. It has already cost the county nearly \$60,000.

Considerable loss of stock is reported: Hub Bryant owner of Bryant's Park, across the Calapalooa, is the heaviest loser reported. His loss is 100 goats, 15 head of cattle and five horses, which were in the lower parts of the park. Some goats and a few cows were gotten out of his barn above high water. Oneater Skeels, across the Willamette lost 12 hogs and 2 sheep. John Robson lost 60 hogs on his Santiam farm beyond Knox's Butte. H. C. Chamberlain lost 12 hogs at his slaughter house.

The Stayton bridge went out during the night. It was owned jointly by Linn and Marion counties and cost about \$9,000.

The Oregonian bridge on the Santiam was so badly damaged as to stop trains and they came through Albany by way of the Lebanon branch and the Corvallis and Eastern.

None of the bridges on the O. & E. were damaged to amount to anything and trains have been running.

The approach to the Lebanon bridge went out, and a small bridge over a creek near the city disappeared.

The Crawfordville bridge collapsed, a wreck, but is not out.

Oakville.

A new side walk a d porch in front of the school house. A new well will be dug as soon as the surface water settles.

A youthful inventor in our town has invented a variety of gun powder. It is called "the tracking powder" and works on the same principle as the Maconci telegraph. A hunter using shells loaded with this powder only needs to find the tracks of wild geese which were made the day before and ascertain which way the tracks were pointed and raise his gun and pull the trigger "the powder does the rest."

High water has cut off communication between here and Corvallis.

Prof. Miller has received an invitation to teach a band at Halsey, but will have to decline at present.

Mr. Neville, of West Oakville, has just completed a new boat and the water is reaching out for it.

"Sage Rooster" had better fly up on the highest mountain he can find for the water is raising. There are some people in this valley that would like to take a shot at him. We know of one who takes a shot at us very often.

High Water Record.

The high water record in years past at this city is as follows:

- 1861, Dec. 8, 36 feet.
1861, Jan. 14, 32.8 feet.
1860, Feb. 4, 33.9 feet.
1863, Dec. 1, 27.3 feet.
1864, Jan. 16, 28.3 feet.
1866, Jan. 23, 25 feet.
1869, March 3, 23 feet.
1890, Jan. 15, 24 feet.
1901, Jan. 16, 30.5 feet.

The first snow of the season fell this forenoon, a wet affair that did not remain long.

W. W. Crawford has the contract for putting up a fifty foot steel tower for the fire bell at Lebanon.

A new divorce suit is J. J. Hannah against Emma G. Hanna, the defendant being sentenced to the penitentiary for life, now in the asylum.

Miss Maud Doyne, a former resident of Albany, and Mr. Elisha Smith, were united in marriage at Myrtle Point on Jan. lat. They have the best wishes of many Albany friends of the bride.

Rev. A. Melvin Williams, formerly of Albany, now attending the theological seminary at Lebanon, Tenn., has been offered the assistant editorship of the Cumberland Presbyterian, and will probably accept.

HIGH WATER NOTES.

The fall of the river during the night was rapid, about four and a half feet.

The river at press time is 25 feet above low water, a fall of 8 1/2 feet, and is falling fast.

J. A. Warner on his third or fourth trip across the Willamette in his steel boat yesterday afternoon met with disaster. When about one hundred yards from William Peacocks he was capsized and succeeded in grabbing a small tree, to which he hung until rescued by Mr. Peacock. The boat, costing about \$30 went down stream and is lost.

A high water report is that R. U. Kiger of Benton county lost 1080 head of sheep by the flood, but this is not confirmed and is doubted.

Mr. Bryant's loss in Bryant's Park is about 135 goats and twelve cows. Five horses thought to be drowned were in two feet of water, and when the water went down were found safe.

Several of the mills have been unable to run on account of the high water.

F. M. French was the busiest man in the city. Besides doing good work in notifying property owners Sunday he made his reports and kept people posted during the day.

Mr. A. S. Hart knows how deep it was in the basement of the Sternberg store, for he slipped off a box and measured the depth, about three feet.

On Sunday 69 people went on the bridge to see the raging waters of the river, and yesterday 98 had paid their toll when the mayor ordered business stopped, on account of the break in the approach at the north end.

THE GRANGE.

Notwithstanding the raging rain storm last Saturday, there was a good attendance at Grand Prairie Grange.

During the morning session considerable business was transacted. The secretary's report showed 98 members at close of 4th quarter, Dec. 31. Two applications for membership were received and the 3rd and 4th degrees were conferred on one candidate. Favorable action was taken upon a petition to congress asking for the passing of the McCumber Bill forbidding the sale of intoxicating liquors in any building owned or used by the United States government or in the grounds appertaining to the same.

During the noon recess an enjoyable lunch was served.

The afternoon was mainly devoted to the third literary program in the pending contest series. This one consisted of music, vocal and instrumental, readings, recitations and papers, a charade based upon the words "Ayer's Ague Cure," and a comic dialogue. There were 15 numbers in all of which the most applauded were a quartet, "There's Moonlight on the Lake" and a solo by Mrs. Grace Leselle. The 4th and last program will be given Saturday, Feb. 15 next.

Before closing the Master called attention to the next meeting of the Linn County Council to be held in Albany at the W. O. T. U. hall Saturday, Feb. 7, 1903, at 10 a. m. This will be an innovation, upon a long established custom, that of meeting from grange to grange. It is sometimes best to make a departure and in this case the meeting can be made one of the grandest rallies ever held in Linn Co. Within a radius of about 7 miles from Albany are 7 granges that can easily send large delegations, and 8 to 10 other contributing granges that are more distant can surely be represented. All is arranged for having the hall and the tables in readiness for the "coming of the grangers" who are to bring their lunches with them. Grand Prairie expects to be there in force and some of her singers are preparing to render some special music, and hopes that other granges will do the same. All come that can, and for a grand good time.

OYAS, H. WALKER.

Prof. John Swackhammer, the erudite dissector of the fibrous elements of the plant, on Wednesday evening, Jan. 28, will lecture on "Progressive Unity," at the Ash Swale seat of learning, adjacent to Brownsville. The DEMOCRAT regrets exceedingly that the lofty condition of the aqueous element will interfere with its attendance.

Howard Did It.

LOUISVILLE, Ky., Jan. 28.—A Frankfort special to the Courier Journal says: James B. Howard of Clay county, fired the shot that killed William Goebel," said Henry Youtsey in his confession as to his part in and knowledge of the conspiracy which terminated in the assassination of the democratic claimant, to the Governorship.

New York Rottenness.

New York, Jan. 27.—Philip Baer, City Librarian, and W. F. Sawyer, Nathan and Moses Springer were arrested today by Detectives from the District Attorney's office on charges of attempted subornation of perjury in connection with alleged swindling scheme through which enormous sums are believed to have been lost by the Department of Taxes.

An Appalling Wreck.

New York, Jan. 27.—The most appalling wreck that has occurred in the vicinity of this city in many years, the loss of life being estimated at not less than 30 persons took place tonight at Graceand, N. J., on the Central Railroad of New Jersey, when the Royal Blue Line express, westbound, plunged at top speed into the rear of a local train.

Seven bodies only have been identified, while 16 more, almost unrecognizable corpses, have been recovered.

From the Deschutes Echo.

W. T. Stevens has finished sorting the knotholes in the P. B. D. Co's lumber yard. He is now engaged in straightening out some of the scantlings which have been warped by the sun. One of these, which is quite badly deformed, Mr. Stevens will use as a cork-screw to pull the corker out of Love Butte.

STATE LEGISLATURE.

M. A. Miller has introduced a resolution providing for a constitutional convention, which shall require the election of senators by a direct vote of the people if passed the senate.

The bill authorizing the county court to establish a free ferry at Harrisburg passed both houses.

A bill by Shuman extends Australian ballot law to cities of 2,000 or more population.

A new bill by Corfield requires school districts to fence yards and plant trees. Robbins for a bureau of mines.

Murphy to establish Oregon Industrial College.

Webster, for fishway at Oregon City.

Upon retiring from the Prineville Journal W. T. Fogle attacked Congressman William Williamson for having caused the land notices taken from Fogle's paper and given to the Review, many of them after he had received the pay in advance for them, so that the money is now demanded by the editor of the Review.

W. H. Parker retired from the paper just in time. Mr. Fogle's article in retelling suggests that the principal part of the newspaper business in Crook county is the land notices.

Governor Chamberlain has appointed Albert Touzer, of Portland, to be expert to measure and examine printing in the office of the State Printer. The appointment will take effect March 1.

(Continued from page 5.)

Sharp, F. M.—Tangent, lot 5, block 3, NW 1/4 of Sec. 22, T. 14 S., R. 2 E., 100 acres; tax \$8.47, interest \$16, penalty \$10; total \$34.47.

Sharp, S.—Board's Addition to Tangent, lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100; tax \$4.71, interest \$9.42, penalty \$5.83; total \$19.96.

Shelton, Ida A. Estate—SE 1/4 of Sec. 2, T. 14 S., R. 1 E., 160 acres; tax \$12.80, interest \$25.60, penalty \$16; total \$54.40.
