## The Small of the Back

That is where some people feel weak all the time.

They are likely to be despondent and it is not unusual to find them borrowing trouble as if they hadn't enough already.

The fact is their kidneys are weak, either naturally or because of sickness, exposure, worry or other influences.

"I am thankful to say," writes J. L. Campbell, of Sycamore, Ill., "that Hood's Sarsaparilla has cured me. For many years I was troubled with backache. At times I was so bad I had to be helped from the bed or chair. I am now well and strong and free from pain. What this great medicine did for him it can do for others."

## Hood's Sarsaparilla

Promises to cure and keeps the promise. Begin treatment with Hood's today.

### Albany Written About In A Los Angeles Journal.

Western Investments, of Los Angeles, for April, contains the following about Albany:

This city is the railroad center of Western Oregon, and unquestionably offers opportunities for liberal investment, on account of its railroad facilities and environment, of a superior character. Besides the Southern Pacific's main line a branch road runs fourteen miles into the country and makes connection with the Oregonian branch, which taps the rich timber belt of Lane county; the Corvallis and Eastern passes through the city from Yachina Bay to Detroit, 64 miles east, with the city as headquarters, the different lines reaching all the neighboring cities and towns, making this a superior point for distribution.

In the line of manufacturing the city already has a large wooden mill, two flour mills and the largest chair factory in the State, besides smaller institutions, but there is undoubtedly a field here for any other institution of a progressive character, a general furniture factory, implement works, carriage factory, etc. Albany is particularly well located for a packing house. Probably the institution most desired here is a saw mill. The location is first class, the timber being easily reached by the railroads running out from here for log hauling. The city is also situated on the Willamette, navigable most of the year by river steamers, giving it competing rates for transportation.

During the past few years a marked increased interest in fruit and stock raising has been observed here, and Albany has become the stock shipping center of the valley. In fruits particular attention has been paid to the production of prunes and rapid progress has been made.

Added to our industrial advantages we have a climate of peculiarly agreeable character, possessing the same amount of sunshine as is enjoyed along the Atlantic coast, with rain and clouds in the winter and a high temperature in place of snow and bizzards. This winter the lowest temperature has been 22 degrees above zero and the amount of snow has been only nominal, and then lasting only one day.

As a home center we offer a social, intelligent, well educated people, up with the times in all matters.

While there are no twenty-dollar pieces lying loose on the corners, the man with push and energy, who does not expect to make the whole world at a jump, will find this valley not only a garden spot, but a good place for investment of his means with prospects of reasonable gains.

### The Steel Monopoly.

Detroit Free Press.

It is not long since the United States Steel Corporation acquired competing Union and Sharon Steel companies that it had closed a deal for the purchase of the Jones & Laughlin Company and the Clairton Steel Company. All of these concerns own large ore supplies in the Upper Lake Region. To clinch the situation, making a hard and fast steel monopoly, there has now been a merger of the Carnegie Company, the National Steel Company and the American Steel Hoop Company.

This is a steel-riveted monopoly, absolutely proof against competition. Whether it be law-proof is a question for the future. The large projected independent steel enterprise that had secured five millions in cash as a starter has lost no time in snuffing itself out. The colossal trust does not have to put a dollar into the purchase of independent organizations, and probably will not do so unless they have raw material among their assets; for the next natural move is to get all the desirable ore.

### Fit for Fat.

A correspondent in the Eugene Register helps stir up the oratorical squabble as follows:

After the roasting which Minchir, the Newburg orator, received for following too closely the thought of another, it was decided that in the future, representatives of the Quaker college should be very careful about using the text of another. In pursuance of this resolve, the orator from Newburg this year even went so far as to invent history for use in his oration. Yesterday's Oregonian contains the oration in full, and it is claimed by the writer's friends that she should have been awarded first place, inasmuch as Smith copied a large part of thought of his oration.

Just how Newburg can claim the contest on the oration delivered on the "Spirit of John Marshall" it is difficult to conceive. The only redeeming feature is that Marshall will never know how many great things have been attributed to which he had nothing, or at least very little, to do with.

Probably the most careless and culpable mistake in the oration is that it says: "He (Marshall) is made first supreme Judge of the United States." Every student of history knows that Jay was the first supreme judge. Again the writer says, "France learned from his lips that America would pay millions for defense but not one cent for tribute." Every eighth grade student knows that these patriotic words were uttered by Pinckney. Then the lady writer attributes to Marshall a large portion of the honor of securing the adoption of the constitution by the Virginia ratifying convention. This is also another rank error. Madison was the man who did the great work in the Virginia convention and Marshall gave but very little assistance.

This completes a catalogue of the gravest errors, but still Newburg claims first honors at the expense of poor old Rastus Smith.

### Edison's Many Patents.

Electricity.

The clerk of the Patent Office at Washington, D. C., began several years ago to keep a systematic account of the patents issued to Thomas A. Edison. They have his various inventions tabulated and indexed, so that they can put their hands on each different idea he has protected by patent from the beginning of his marvelous career of invention. When a pending claim is allowed, as it no doubt will be this month, Mr. Edison will have received 791 patents in all. He is not adding to the list as many ideas nowadays as he did some years ago. Up to 1895 he had taken out 711 patents. Since then he has added to the list from three to twenty patents each year. Last year he took out nineteen. This year, so far, he has received six. In ordinary fees for patents Mr. Edison has spent over \$51,000.

## RICKETY CHILDREN.

As likely to think of chains as of children when we use that word rickety.

Children with loose joints, bow-legs, and soft bones have rickets. It is a disease due to improper feeding—and a typical disease for the workings of Scott's Emulsion.

For the weak growth of the bones Scott's Emulsion supplies those powerful tonics, the hypophosphites.

For the loss of flesh Scott's Emulsion provides the nourishing cod-liver oil in an easily digestible form.

It is these things that account for the rapidity with which Scott's Emulsion cures rickets.

Rickety children improve in every way under its influence.

### Write us a Letter.

We want to advise with people who are sick and want to get well. A person that says, "I would give \$50 if I felt as well as I did one year ago," is the one we are after and we do not want the \$50 either. People that suffer with nervous diseases have weak watery blood, with sallow complexion, and a tired, outdone nervous feeling, loss of sleep and anxious days cause waste of flesh and strength. Pimples, pale, weak people can be cured by Dr. Gunn's Blood and Nerve Tonic. It makes rich red blood, feeding the nerves, and making solid flesh at the rate of 1 to 3 lbs per week. This tonic is in tablet form, and is sold for 75 cts per box, or 3 boxes for \$2, by all druggists, or sent by mail, on receipt of price. We will send a pamphlet that tells what diseases this tonic will cure and what it is good for, free. Write us about your case, that costs you nothing. Address, Dr. Hosanko Co Philadelphia, Pa. ### Well Again.

The many friends of John Blount will be pleased to learn that he has entirely recovered from his attack of rheumatism.
