Picked Up a Purse.

Saveral days ago Mrs. J. H. Jackson dropped her purse on the Lebanon train while coming to this city. It contained \$4.78 in money and a check for \$500 on a Minnesota bank. On the train were two Mormon elders, who acted suspictually in connection with it. They went from here to Independence, and yesterday upsecond in they did not return the purse to an all the contents back to the owner at this city. Their conduct was certainly strange. purse +-- and all to the owner at this cit was certainly strange.

The Statesman gives this more favor-able version of it:
"As one of the Southern Pacific pas-

"As one of the Southern Pacific passenger trains was approaching Albany on last Sunday, several Mormon elders who were on board the train on their way to Salem and Independence, picked up a purse containing some money and a draft for \$500. When they arrived in this city the purse and its contents were turned over to City R corder N. J. Judah with a request that the same be delivered to Chief of Police McClain of Albany, and their request was complied with."

Prof. Adams at Lebanon.

Superintendent Adams of the Albany schools delivered the address before the graduating class of the schools of that city. The Criterion says:

Supt. Adams, of the Albany city schools was present and delivered the address to the class. His address was somewhat of a departure from the usual Class address, but was filled with good thoughts for the young. He forcibly brought out the thought that it is the skilled was knam that is early not call. skilled workman that is paid, not only, best in mary but best in respect in the community in which he resides. DR. BUSHNELL'S LECTURE.

Dr. Bushnell, of the College, last eve ning at the Presbyterian church, gave a very instructive and interesting illustrated lecture on Great Industries and Great Miseries of Great Cities. The stock yards of Chicago were clearly described. The expansion of the meat business of that city is marvellous, since 1857 reaching out and covering the entire world. In 1860 half of an animal was wasted, now every particle is used. Some striking differences were shown between the stock yard district and the Hyde Park district of Chicago. In the former 19 per cent only are Americans and the rest foreigners, while in the latter 60 per cent are American and 40 per cent foreign. The per centage of crime, illiteracy, child labor etc in the stock yard district over the other is great. Great Miseries of Great Cities. The 1000

great.

A series of illustrations were very effective, covering a wide field, showing soun districts on one hand and the progressive work of the up-tc-late church now has many departments, reaching out for the body, mind and soul, the preaching being a minor matter. One New York church has 212 gatherings a week representing different departments. The result has been wonderful in adding to church membership.

To-night the second lecture will be given, devoted to the making of lives in factories and cities brighter. 500 great.

Speaks for Albany College.

The graduation of John L. Acheson from Princeton University yesterday with honors, is not only very creditable with honors, is not only very creditable to the bright young man but it is very decidedly a feather in the cap of Albany College. Upon graduation from our college he entered the senior year of Princeton and goes out of it in a year with the highest honors. That is, the standing of Albany College is only a year behind one of the leading universities of the world.
