

F P NUTTING NURSING MOTHERS

"A richer milk than milk" is good food for nursing mothers. Scott's Emulsion is the rich cream of cod liver oil, and contains ten times as much cream as milk does.

The nursing mother must eat with the purpose of producing good, nourishing milk for her baby. A little Scott's Emulsion is often a very wise addition to her daily diet. If through nervousness or weakness her milk is a failure, Scott's Emulsion will help make it a success.

The baby gets the benefit, too, when the mother takes Scott's Emulsion. The same remedy brings new strength and nourishment to both.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

The Hanna boom has become a reality. Republicans are viewing it with consternation, and declaring that people with sense are not taking any stock in it, but Mr. Hanna seems to be taking considerable stock in it. Of course the boom appears in the form of a voluntary demand from certain quarters for the nomination of Mr. Hanna, and it is coming in such a concerted form as to leave little doubt that there is a controlling hand behind it all.

Oregonians are quite jubilant over Senator Fulton being placed on several important committees. As a matter of fact his committee positions are only average. Most of the committees have some importance and he had to be on something. At the same time the committees upon which he has been placed are of a character that may through his efforts be of considerable value to the coast, and it is to be hoped he rises equal to the occasion.

Judge Parker for President.

A vote in the New York World on Judge Parker: "He is very little known to the country at large." Is not this in itself an advantage to a Presidential candidate? James K. Polk was little known, Daniel Webster and Henry Clay could never be elected to the Presidency. They were too well known.

Gen. Fitzhugh Lee said recently that the candidate to succeed must be able to carry New York state. No one in or out of the State can take its electoral vote but Judge Parker. Carrier H. Harrison has been elected Mayor of Chicago four times. He can carry the city for Vice-President. As the city votes so does Illinois. As New York state goes so does New Jersey. The South pledged its electoral vote to Judge Parker when he was in Georgia last July. The electoral vote will stand thus:

Table with 2 columns: State, Votes. United South 162, New York 39, N. W. Jersey 12, Illinois 27, Nevada 3, Total 243.

The departments of the government are reeking with fraud and corruption. The slogan used by Tilden should be again evoked—"Turn the rascals out!" I. elected Tilden. It will elect Parker and Harrison.

St. Louis has a very big scandal. A leading citizen who has been putting on an immense sight of style, living in elegance with fifteen servants at his home, his wife the leading society lady in the west and at the head of the woman's board of the big world's fair, has just been learned to be an embezzler for a large amount of money entrusted to him by others. For several years he and his wife had lead St. Louis society by means of money robbed from other people. A redeeming feature of the business is the noble position taken by the innocent wife. The case, though, may be taken for a lesson for all communities. The most disgusting thing imaginable is that of people attempting to be leaders without anything to back it, living beyond their means, making a show on other people's money, anything for a little style, that is shoddy enough as a rule.

We judge from Senator Hoar's recent remarks against the sending of petitions to the Senate that he does not agree with Lincoln, who said: "The people of the United States are the rightful masters of both Congress and Courts."

Wanted—Three or more democratic Senators, willing to exchange votes for the ratification of the Panama Canal treaty for patronage. Apply to T. R. White House.

Public grafting in Washington must be getting more difficult, as they have taken to holding up restaurant cashiers in business hours.

If it becomes necessary to send an army of occupation to the Isthmus of Panama, the claims of Gen. Dan Sickles for commander should not be overlooked.

There are 33 democrats in the Senate and as long as they vote together they can control the canal situation.

Find out where the advance money for the Panama grafters came from and the rest will be easy. Revolutionists on the Isthmus is synonymous with the grafter in the United States.

DOG LOST.—Black, white and tan English Setter, answering name of "Omet" and wearing collar marked "F. H. Page." Suitable reward for his return to Dr. H. A. Leininger, Albany Ore.

The Panama policy is the one centered around the big nations of the world, that of the survival of the fittest, the force of the strong against the weak. Everybody knows that if Colombia was a Nation like England the United States would not under any circumstances have taken the position it has in the matter. Do you think for a moment the U. S. would recognize the independence of a country owned by England if it should have the hardihood to break loose and declare its independence. What's the difference. From a selfish standpoint we are anxious for almost anything being done that shall secure an interoceanic canal, but we cannot honorably ignore the real situation.

If his opponents can prove one half they charge him with, Smoot will be kicked out of the Senate in a snooty condition, notwithstanding the guarantee given him by the republican bosses. There is a limit to the tolerance of the public opinion.

Wonderful institutions are these expensive government bureaus. The Bureau of Labor has discovered and made public that the cost of living is more than 16 per cent higher than in 1896. But it has not found any branch of labor in which wages are 16 per cent higher.

Dick, Crumpacker and company seemed inclined to inject a dose of "igger" talk into Congress. Congress has our sympathy.

The negotiation of a canal treaty with Panama is a violation of law, but overriding laws is an old republican specialty.

Mr. Roosevelt still has doubts of the strength of the Hanna guarantee about that nomination; and there are others.

Gov. Durbin now knows how the man feels who went after the Vice-Presidency, and got—a dinner at the White House.

If the wage cutters could bring about a little price-cutting in the necessities there would be less kicking.

Recipe for making a new government—several quaboats, with plenty of marines, and unlimited audacity.

SURE INDICATIONS OF BAD BLOOD OLD SORES, ULCERS, ABSCESSSES

The best evidence of a bad condition of the blood and unhealthy state of the system, is an old festering sore, running ulcer, or abscess. They show the bodily impurities are not passing through the proper channels, but are left in the system to clog and poison the blood. So thoroughly does the poison permeate the system that every little scratch, cut or bruise inflames and festers. Everything about an old sore or ulcer suggests disease. They affect the general health, they require constant attention, and are a source of anxiety and trouble all the time, and in some cases highly offensive. There is danger, too, of these places becoming cancerous if not treated promptly and in the right way. Washes, salves and ointments are good for external use, but they can't stop the discharge or change the condition of the blood, and for this reason the sore never heals permanently.

Not until the blood is purged of impurities and the system cleansed of all harmful substances should the ulcer heal, or the effect upon the system might prove disastrous. S. S. S. goes into the circulation and searches out and removes the cause of the old sore and invigorates and builds up the polluted, sluggish blood again, and as the poisonous matter is driven from the system the sore begins to heal, new flesh forms and the place is soon covered over with fresh skin and the sore is gone for all time. Where the constitution is debilitated from the effects of chronic sores, ulcers, abscesses, carbuncles, boils or other severe skin eruptions, S. S. S. will build it up again and stimulate and strengthen all parts of the system. S. S. S. contains no strong minerals, but is guaranteed entirely vegetable. It is unequalled as a Blood Purifier and invigorating tonic. Do not depend upon local remedies alone. Get your blood right, and as it forces out because nothing is left in the system for it to feed upon. Write us should you desire medical advice, which is given without charge.
