TELEGRAPHIC.

Censorship Abolished.

ST. PETERSBURG, Feb. 19.—The Russian government today abolished the censorship on all news and other telegrams going abroad, with the exception of the ordinary war censorship during hostilities.
The lifting of the embargo which has existed for generations on the free transmission of news from the Russian Empire came as a direct result of consideration of the subject by the czar himself.

Twenty-four Killed.

OGDEN, Utah, Feb. 19.—Twenty-four persons were killed and 12 badly injured this afternoon by the explosion of a carload of dynamite, caused by a head on collision at Jackson, a telegraph station on the Ogden-Lucan cut off of the Southern Pacific Company. Eight of the dead and five of the injured are Americans. The others are Greeks.

A St. Louis Riot.

ST. LOUIS, Feb. 19.—In an effort to close a poolroom that has for a long time operated in the outskirts of Madison, Ill., three Constables, augmented by a posse of citizens, and bearing warrants for the arrest of six men connected with the poolroom, precipitated a riot today, which resulted in the shooting of six men, one of whom may die.

A. the headquarters of the central revolutionary Russian committee this evening it was stated that advices received from St. Petersburg show that every thing is now in readiness for a far-reaching revolutionary movement.

Wheat Goes Up.

CHICAGO, Feb. 19.—In the midst of excitement unequalled on the exchange since the days of the Leiter deal in 1898, the price of wheat for May delivery touched the dollar mark today and no content with this achievement continued its upward march until \$1.03 was reached.

That is dyspepsia.
It makes life miserable.

TWO PRINCIPLES ARE AT STAKE.....

One is the open attempt to make Disk Plows regardless of our rights; the other to make a plow that will do the work anywhere, any time, in any hands.
The Hancock Disk Plow Company, Alton, Ill., has on deposit at different points in the United States the sum of \$500.00, as a challenge to any and all comers for disk plow honors.
A competitive plowing campaign will begin with the early Spring and some of the intriguers will have to plow or "take to the woods."

MISFITS.

Some nations act like overgrown boys.

The Dowager Empress of China is again dead.

Big bodies move slowly and Russia will probably be heard from.

Popular loans at Salem have become so popular that the city continues to borrow money.

A concert company of bagpipers is coming down through the valley. Will Albany escape.

\$150,000 loss on that Selwood woolen mill, sounds big to people familiar with the value of the plant. One wouldn't think it from that Oregonian picture.

Some one says there are fears of a world war, but as a matter of fact there is no danger of anything of the kind. Complications may arise over the present war, but they will undoubtedly be settled amicably.

A political communication in the Oregonian today, from Albany, is genuine "hot air," particularly its assertion that the republican party has never seen more harmony here than now. The opposite is true.

Gov. Geer in the Statesman justifies the course of the superintendent of the penitentiary in using state supplies for his family, simply because the Governor's superintendent did the same thing. At the same time if it is contrary to law it should be stopped regardless of republican precedent.

The democratic officials in the penitentiary have been following in the footsteps of their republican predecessors by boarding themselves off the state, always done in that institution, and now the republican papers of the state are trying to make capital out of it. Wouldn't that jar Mr. Hood. Why back in Washington hundreds of republican officials are driving handsome and expensive rigs at the expense of the government, rung in on expense account. Consistency is a jewel some people know nothing about.

O. F. R. A. Members Notice.

Members of the Oregon Fire Relief Association may now present their certificates at the Albany office of the association at 312 West 2nd St. for attachment of mortgage clause, assignment of certificate, vacancy permit, or change of premium on account of increase or decrease hazard. Formerly these privileges have been granted only by the McMinnville office.

Our association continues to prosper under its present conservative management and save money for its members. The annual report for 1903 shows a net gain of \$2,646,637. This is the largest annual gain in the history of the association.

Government Timber Lands.

It seems to be a general idea among the people that all the valuable vacant government land in Oregon has been taken. Such is not the case, as I can show you 23 quarter sections of government land that will cut from 2 to 6 million feet per each quarter of Sugar and Yellow Pine, Cedar and Oregon Pine, in very desirable locations for timber claims and homesteads, close to town and the railroad, with good roads leading to them.

If you intend taking a timber claim or homestead, first let me show you some claims and then before filing, go and see what others will show you. I want you to get all the timber and in the best location that you can for your money. Literature furnished on application. My location fee is \$125.—W. B. Sherman, Rooms 10 and 12 Masonic Temple, Grants Pass, Ore. Long distance h n e 731.
