

F P NUTTING STARVE THEM OUT

Why not starve the germs to death? Scott's Emulsion will do it.

The germs of consumption are an invading army numbering millions upon millions; they must all be fed or they will soon die of starvation.

Why not put new life into it? Scott's Emulsion feeds the lungs. It fills the blood with nourishing food for all the weak parts.

Germs cannot live on healthy tissue. Scott's Emulsion and good fresh air drive out the germs of consumption.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

Invited to Exhibit.

An official invitation is hereby extended to the county of Linn, to make a special exhibit, either in its own behalf or in connection with some other body, municipal or otherwise, at the Lewis and Clark Centennial Exposition to be held in Portland in 1905. It is the purpose of the Exposition to encourage comprehensive exhibits by counties and by chambers of commerce, boards of trade and other commercial organizations. For exhibits of this character, illustrating the resources, industries and progress of communities, the following regulations have been provided:

FIRST:—The preparing and installing of exhibits by counties or organizations will be left to the counties or organizations in whose name or under whose authority the exhibits are made. Counties or organizations may erect separate buildings, or may install their exhibits in the State building of the State in which the county or organization is located. Space will be provided on the Exposition grounds for all buildings erected by counties and organizations and no charge will be made therefor. Plans and specifications for such buildings shall be submitted to the Director-General for his approval.

SECOND:—All collective exhibits made by counties and trade organizations will be permitted to participate in the general competition; that is, be both collective and competitive. I desire to enlist your co-operation and support in this movement, and respectfully to urge early consideration of this invitation so that, if favorable action be taken, we may allot the necessary space and give you ample time to proceed with preparations for your exhibit. Whatever may be the decision upon our invitation, I am satisfied we can shape our plans so as to harmonize all efforts to the end that your exhibit may be highly creditable, not only to your progressive community and state, but to the Exposition as well.

We feel confident that the arrangements we propose will offer to counties an exceptional opportunity of demonstrating their potentialities at the Lewis and Clark Exposition of 1905, and that the result of exhibits made in this way will be beneficial to all.

Very respectfully, Henry E. Reed, Director of Exposition.

SURE INDICATIONS OF BAD BLOOD OLD SORES, ULCERS, ABSCESSSES

The best evidence of a bad condition of the blood and unhealthy state of the system, is an old festering sore, running ulcer, or abscess. They show the bodily impurities are not passing out through the proper channels, but are left in the system to clog and poison the blood. So thoroughly does the poison permeate the system that every little scratch, cut or bruise inflames and festers. Everything about an old sore or ulcer suggests disease. They affect the general health, they require constant attention, and are a source of anxiety and trouble all the time, and in some cases highly offensive. There is danger, too, of these places becoming cancerous if not treated promptly and in the right way. Washes, salves and ointments are good for external use, but they can't stop the discharge or change the condition of the blood, and for this reason the sore never heals permanently.

Not until the blood is purged of impurities and the system cleansed of all harmful substances should the ulcer heal, or the effect upon the system might prove disastrous. S. S. S. goes into the circulation and searches out and removes the cause of the old sore and invigorates and builds up the polluted, sluggish blood again, and as the poisonous matter is driven from the system the sore begins to heal, new flesh forms and the piece is soon covered over with fresh skin and the sore is gone for all time. Where the constitution is debilitated from the effects of chronic sores, ulcers, abscesses, carbuncles, boils or other severe skin eruptions, S. S. S. will build it up again and stimulate and strengthen all parts of the system. S. S. S. contains no strong minerals, but is guaranteed entirely vegetable. It is unequalled as a Blood Purifier and invigorating tonic. Do not depend upon local remedies alone. Get your blood right, and as it forces out the poison the sore must heal, because nothing is left in the system for it to feed upon. Write us should you desire medical advice, which is given without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.
