Remodeling the S. P. Yards.

A gang of surveyors is in the city
surveying the property of the Southern
Pacific at this city for the purpose of
remodeling the yards. The present
yards are entirely inadequate to the de-
mands of the business here, this being
the distributing point of this part of
the state, and it has been found neces-
sary to make them much larger than
now. It is said the plan covers a change
of the entire yard. It is to be hoped
that it will include the changing of the
location of the depot to this side of the
yard, but there is nothing known on this
point at the present time.

New College Teacher.

Miss Carolyn A. Boynton, graduate of
Smith, has been elected successor to
Miss Starr, and has signified her will-
ingness to accept. She comes with
good testimonials, both as to scholar-
ship and teaching experience.

FILLED WITH SHOT

In a Benton County Watermelon
Patch.

Several harvest hands after a hard
day's work last night about 9 o'clock
thought they would refresh themselves
with some watermelons. So they quiet-
ly entered the fine patch of Mr. May-
berry, beyond Thornton Lake, and were
preparing to carry off a sufficient sup-
ply for the crowd, when a dark figure
loomed up nearby and bang! bang!
bang! went a shot gun, followed by a
stinging sensation in different parts of
the anatomy of three of the young men.
They fled and took an inventory of them-
selves finding the three men were well
filled with shot. Dr. W. H. Davis, of
this city, was sent for in a hurry and
responded. From one of the men he
took thirteen shot, from another six
and from the third three, spending a
couple of hours in the operation. One
shot just missed an eye by a fraction
of an inch, one young man got a neck

wound, and in fact the different parts
of their bodies were taken care of.
They earnestly requested that their
names be kept quiet, not desiring any
notoriety, and this has been complied
with by the attending surgeon.
