TWO KINDS OF CHILDREN

Children that grow too fast are those that seem hardly to grow at all, both need Scott's Emulsion.

It gives that rich vital nourishment which is the secret of all healthy growth. It rounds out the long limbs, and helps children to grow without using up all their strength in growing.

Mothers ought to know more about the wonderful help which Scott's Emulsion would give their children.

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to "active principles" or "alkaloids."

Scott's Emulsion is simply an emulsion of the best Norwegian cod liver oil combined with the hypophosphites and glycerin.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

The Doings of the World

Armies Waiting.
ST. PETERSBURG, Oct. 22.—The rival armies of Russia and Japan, entrenched a short distance from each other south of the Shakhe River, are forced to continue inactive until the fine weather now prevailing dries the sodden ground and the tired warriors are sufficiently rested to resume operations.

Democratic Figures.
NEW YORK, Oct. 21.—The World prints the following: The latest estimates of the democratic campaign managers give Parker 256 votes in the electoral college, or 17 more than sufficient to elect him. The democratic managers are certain Parker will carry 11 doubtful states. In addition to this, the democratic candidate will have the solid 151 votes from the South.

Cleveland Spoke.
NEW YORK, Oct. 21.—Attracted by the presence of Grover Cleveland, thousands of people struggled to get an entrance to Carnegie Hall tonight, where the ex-president of the United States made his first and only speech of the campaign. John G. Carlisle, Secretary of the Treasury under Mr. Cleveland, was also a speaker and shared with Mr. Cleveland the great burst of enthusiasm at the meeting.

The Panama Is
COLON, Columbia, Oct. 21.—News reached here this evening that about 200 armed men, who are thought to be discontented Panamanians, rather than Colombian soldiers, have been seen in the neighborhood of Culebra, threatening hostilities against the Panamanian government.

As soon as the American authorities of the Canal zone became cognizant of this force, marines were sent out to ascertain their purpose.

Judge Parker Spoke.
FLOPUS, Oct. 21.—Judge Parker today addressed a delegation from Hudson County, N. J., on the subject of administration extravagance, answering a speech made by Secretary of War Taft in which the Secretary called upon the democrats to give a bill of particulars in connection with their charge that economy in government affairs had been forgotten in the years the republicans have been in control of National affairs.

A Railroad Straw.
MARSHFIELD, Or., Oct. 21.—A conference with railway men with great significance is taking place here today. Paul Mohr, the Boston railroad promoter, arrived at noon from San Francisco on the steamer Breakwater. He was met at the dock by Elijah Smith, and the two drove off together in a buggy. They are now in conference with J. D. Spreckles, Jr., and Manager Samuels, of the Spreckles steamship lines.

John O'Brien Assaulted.

Guard John O'Brien, the section foreman at Irvine, was viciously assaulted by one of the Japanese section hands the other day. The Jap slipped up behind the foreman and struck him on the head with a rock without apparent reason. The injury was not serious. The Jap has been arrested and the trial will be held soon. Mr. O'Brien was a former resident of Eugene, in later years residing at Albany. His family resides here now.

MISFITS.

A Mixture of Things and Thoughts

There is a clash between the sheriff and council at Portland and something is liable to tumble.

The Salem Journal got a day's scoop on the Statesman in announcing the flight of the wild geese over the city. Quack!

In a recent wedding notice the costume of the bride's maid was given for that of the bride. Perhaps a good omen for the former.

It is said that Homer Davenport's fine collection of birds will be at the Lewis and Clark fair. They are a show of themselves.

According to the Toledo Leader a young man of that city came to Albany to receive special treatment for a sudden something that ailed him. He recovered.

A correspondent speaks of whiskey and candy being made from the same thing. Shakespeare said the king ate the fish that swallowed the worm, and so it goes all through nature.

At a recent wedding in one of the state departments at the world's fair the bride was kissed by Hon. Chas. Galloway, of McMinnville, in response to a dare. Oregon boys never take a dare.

Dr. Rader, of Portland, seems all twisted up on the woman question. Now he declares that Portland women impress him as elegant, refined, educated and noble. That's pretty good, but, really, they are like men, some are and some are not. Another case of a golden mean.

Just thirty years ago the last part of October two boys and girls were born in Albany, three of whom are living, a young man in the east and a young man and young woman in Albany. Today is the birthday of the young lady and a week later will be that of the young man.

School Report.

Report of the Albany Schools for the month ending October 21, 1904:	
Number of boys enrolled.....	350
Number of girls enrolled.....	358
Total enrollment.....	708
Percent of attendance.....	96.7
Number of cases of tardiness.....	108
Number of cases of corporal punishment.....	6
Increase of attendance over that of 1st mo. last year.....	76
Number enrolled in the High Schools boys 29, girls 48, total.....	77
Percent of attendance in High School.....	98.
Increase in attendance in High School over that of 1st month last year.....	14

With the exception of the large number of tardies the record for the first month is an excellent one. The greater number of tardies were made by a few individuals.

The fifth grade of the Madison school made the best record during the month. With an enrollment of 50 there was not a single tardy. An excellent record.
