

# Albany Democrat

VOL. XL.

ALBANY, OREGON FRIDAY, MAY 12, 1905.

NO. 41.

## HOME AND ABROAD.

Hartford tires are the best.

Chas. A. Dorcas, the efficient death watch on Guglielmo, went up the Santiam on a fishing trip today.

One of the graduates of the Portland dental college recently was Henry E. Burmaster jr., of this county.

The Oregon will run on the willamette as long as the bars can be crossed. This will be all summer, if the dredger gets in its work soon.

The county court of Lane county has refused to purchase the Lucky Boy road. Under the threat of the owners the road will be closed. If so the Linn county side will have to be used.

The U. of O. track team yesterday ran all around the Willamettes 91 to 25, making a record that will mean fast work by the O. A. C. team to beat, but O. A. C. this year has the goods.

General Jackson, inspector for Oregon, has made a report to the companies after inspection showing the order in which they stand. K Co. is first and G Co. of this city is 17th next to the last, L Co. is at the bottom. Right about face, boys, brace up.

Two incubator boxes of fish eggs were shipped through Albany this afternoon for Prof. W. A. Smith, at Elk City, where they will be placed for spawning, and more salmon than ever will swim the Yaquina. They were from the Clackamas hatcheries.

Mrs. R. Ehret, a former resident of Albany for many years, died at Mt. Angel this morning at the age of 70 years. She was the mother of Mrs. Frank Walsh, of this city, who was with her at her death. Mr. Walsh went to Mt. Angel this afternoon to attend the funeral.

Kasper Vandran, in the hospital at Portland, is reported to be gradually improving, and if blood poisoning does not set in, has a good chance to recover. As the intestines were perforated in five places the case is serious and only the best care will bring him through.

Will Hoflein's Tigers and the Newport Club will play base ball again tomorrow at Toledo. Last Sunday Hoflein's club was beaten by the Elephants 4 to 17, but hope to get a game some time. This is from a Toledo paper. Out in the valley Billy's club always wins on paper.

## MISFITS.

### A Mixture of Things and Thoughts

Albany must keep moving ahead.

Albany carpenters and painters are busy.

Rebuild the woolen mill. Albany is the place for it.

The Salem Journal sarcastically says close everything but the city council.

The Eugene Guard says a Portland carpenter's graft exists in the exposition city. That one wanted \$200 for doing a little job in connection with an exposition display.

A warning is being sent out from Portland against young girls going to that city during the exposition expecting to get employment. The field is more than full, and the greatest dangers in unprotected girls being in a city during a great exposition.

Albany should have extended its limits before taking the census. "Greater Albany" should have certainly included Lebanon and Halsey. — Statesman. Even then it would not have any insane asylums, penitentiaries, etc to boost things.

Eugene has lost the woolen mill, tannery and part of the explosion works. A writer in a local paper there asks: "Are we going crazy on schools only? Many houses are empty and many others for sale. Let us keep our woolen mill and bring in other industries. I am a new neighbor, the poorest of all, but I will be glad to head a subscription with \$100 to retain the industry."

### No Cross Walk Lumber.

The city has been unable to secure any cross walk lumber for a month. Lumber expected a month ago has not arrived, and the result is that several walks needing repairing and rebuilt have not been attended to, a fact due merely to the shortage in lumber, to secure which every effort is being made.

## THE JAPS

### Are Advancing on the Russians.

FENGHUSHIENG, May 6.—(Special)—Oyama today began active operations on the Russian left. The Japanese are preparing for an immense offensive campaign and a big battle is thought to be imminent.

### Stopped by Rain.

CHICAGO, May 6.—A heavy rain prevented violence by strikers and little rioting occurred today. The Mayor is pressing peace negotiations.

### Portland in Primaries.

PORTLAND, May 6.—The betting is odds in favor of Williams as nominee on the Republican ticket and Dr. Harry Lane on the Democratic ticket for Mayor.

### A Plucky Woman.

PORTLAND, OR. May 6.—As Mrs. Mary Schwartz was walking home last night along Yamhill street a burly negro snatched her purse containing about six dollars. The woman gave chase, seized him by the coat and yelled lustily for the police. The negro tried to release himself but she hung to him. After a number of desperate attempts to free himself the negro dropped the purse. Mrs. Schwartz released him and he fled escaping two policemen hastening for the scene.

### A Big Deal.

PORTLAND, OR. May 6.—A deal is under way for the purchase of the Portland Consolidated Street Car Company by an eastern syndicate headed by the Seligman banking interests for a consideration of \$3,000,000.

Stockholders of the company have been officially informed that the deal is under way and that a representative of the Seligmans is now enroute to Portland to complete the purchase.

### The Japs Seen.

SHANGHAI, May 6.—The Russian Consul here has received information from a confidential source that the Japanese fleet under the command of Admiral Togo is still rendezvoused somewhere between Masampo and Chemulpo.

### America Won.

SAN FRANCISCO, May 5.—James E. Britt, of California, became light weight champion of the world tonight when he knocked out James White, of England, at the close of a 20-round battle. With just 20 seconds to go, Britt hooked the Englishman with a left on the jaw.

### Entertainer Coming.

Thomas S. Handsaker, lecturer and entertainer, an old college friend of Rev. Clark Bower, will be in Albany on Monday evening as a guest of the Y. P. S. C. E. of the Christian church. The young people have decided to make it an open evening for all who wish to come. No admission fee will be received. A silver offering will be received. Mr. Handsaker is a classical graduate as well as a graduate in Oratory. He will present his popular lecture entitled "Grit." The entertainment will begin at 8 p. m.

### Lewis and Clark Meeting.

A special invitation is extended to all the ladies of the city to attend a meeting of the Lewis and Clark Woman's Club, Monday afternoon at 2:30 o'clock at the W. C. T. U. hall.

This meeting is called at the request of the Linn Co. exhibit committee, its object being to arrange for display of woman's work in the Linn Co. exhibit at the Lewis and Clark Fair, and it is hoped many ladies will be present and give their assistance.

The famous Pat Crowe, who kidnapped the Cudahy boy five years ago has returned to Omaha and reported. Since leaving he served in the Bear war.

Modern Woodmen meeting next Wednesday last lunch of the season. Come out and spend a pleasant evening.

WANTED.—S me good fresh Dairy Cows. H. Bryant. 61

See our new beautiful line of jardinières just in from the factory. C. E. BROWNELL.

## Sanitary Refrigerators

This is one of the lines of Refrigerators you can place milk and butter on the same shelf with meats and fruits without it becoming tainted. The circulation in this Refrigerator is complete and unobstructed. It has been constructed to comply with the well-known principle that warm air rises and cold air falls. This system keeps the air in constant motion keeping the air in constant contact with ice at all times, owing to this method the Refrigerator uses far less ice than other makes. Be sure and see our line.

## Screen Doors

Now is the time to put up your Screen Doors. After the fly gets into the house it takes ten times the work to get him out than what it does to keep him out in the first place by putting up your doors on time. The fly is not only a nuisance to have around, but he also brings disease germs into your house. Our stock of doors is complete and can not be equaled either in price or quality.

The prices range from \$1.25 to \$2.50, each according to quality.

## Fancy Ranges

We have one of the highest grade and finest Steel Ranges made. By its patented two-flue construction, the heat is so distributed that the lids are heated evenly, also the oven is heated in the same manner. Baking can be done in this Range with about one-half the trouble and work than on other Ranges. All of the parts are made of two thickness of extra heavy steel with thick asbestos between. This insures the Remp to last a lifetime. See sample in our West Window.
