WILLIAMSON'S TRIAL.

Damaging Evidence Against Defendants.

PORTLAND, July 8.—Damaging admissions to the defense were made this morning on the trial of Congressman Williamson et al, by Campbell A. Duncan, Greene Beard and Henry A. Beard, who stated that they had made timber entries at the request of Van Gesner who advanced the necessary money.

Each received \$75 for filing, Gesner indicating the land to be entered. Henry Beard admitted he had perjured himself in making his final proof.

Letter from Van Gesner to Beard was introduced wherein the latter advised, "Department has tip, relinquish claim and get out of trouble."

A Portland Tragedy.

PORTLAND, Or. July 8.—As the result of a picnic fracas, the blood pouring from half a dozen cuts and stabs, inflicted by Mattie Hunter while in a jealous rage, Mamie Williams was taken to the city prison this morning and is in a critical condition. Both the razor wielder and her victim are negroes. The trouble is said to be due to jealousy caused by the attention paid Mamie Williams by Ace Graham.

A Divorce Record.

PORTLAND, Or. July 8.—A new divorce record was made by circuit Judge George yesterday when he granted ten divorces in 90 minutes. Nine of the applicants were women and cruelty and desertion were the charges made in all the cases.

Probate:—In the estate of A. Settlemier, in the matter of the petition for the removal of Mrs. Louise Settlemier as executrix a answer was filed by Whitney and Stites attorneys and July 17th was given for a reply by the attorneys for the petitioners, Judge Hewitt and P. R. Kelly.

Mr. and Mrs. J. B. Barber went to Salem this afternoon to be with a cousin, in the hospital, a young lady who came with them from Eureka.

MISFITS.

A Mixture of Things and Thoughts

Getting newcomers is more than a matter of paper figures.

There are three Pine streets in Albany and its additions. One of a kind is enough.

It is entirely proper that Linn County's first fire warden should be named Marrs.

It seems warm, but read about the eastern cities and think about our cool nights before grumbling.

The DEMOCRAT's Williamson prediction is: either conviction or disagreement with chances in favor of conviction.

The papers are telling about a New Jersey lawyer giving up a \$300,000 practice for a \$5,000 judgeship. Elephants!

Lawyer Lord, of Portland, has sued District Attorney Heney for \$50,000 damages. Mr. Lord is liable to run into a cyclone before he gets through with Heney.

"All men make mistakes," says Senator Mitchell. All indications are that the Senator made one in the selection of a law partner and a private secretary.

A Chorus Girl Now.

PORTLAND, Or. July 7.—Eleanor Dole, formerly the wife of Attorney General E. P. Dole, of Hawaii has been discovered here playing at the Marquam Grand theatre in the chorus of the Kolb and Dill Company. She was formerly a society girl and beauty of San Francisco and much younger than her husband. She was married at the Palace hotel and her divorce caused a sensation.

A Reported Engagement.

NEW YORK, July 8.—The Odessa correspondent of the London Standard telegraphs a report that Admiral Kruger's squadron engaged the Kniaz Potemkin and that many of the mutinous crew were killed and wounded, says a London cable dispatch. The vessel escaped.

Looks Like 'Var.

STOCKHOLM, July 7.—The Associated Press has high military authority for stating that Sweden is taking precautionary measures on the frontier to offset the reported threatening attitude of Norway. The Swedish treasury today borrowed \$8,500,000 to pay extraordinary expenditures.

A Conspiracy.

LONDON, July 8.—The Chronicle's correspondent at Vienna wired last night that he had excellent information that the reactionary party in St. Petersburg is at present moment conspiring to dethrone the Czar.

Sanitary Refrigerators

This is one of the lines of Refrigerators you can place milk and butter on the same shelf with meats and fruits without it becoming tainted. The circulation in this Refrigerator is complete and unobstructed. It has been constructed to comply with the well-known principle that warm air rises and cold air falls. This system keeps the air in constant contact with ice at all times, owing to this method the Refrigerator uses far less ice than other makes. Be sure and see our line.

Screen Doors

Now is the time to put up your Screen Doors. After the fly gets into the house it takes ten times the work to get him out than what it does to keep him out in the first place by putting up your doors on time. The fly is not only a nuisance to have around, but he also brings disease germs into your house. Our stock of doors is complete and can not be equaled either in price or quality. The prices range from \$1.25 to \$2.50, each according to quality.

Fancy Ranges

We have one of the highest grade and finest Steel Ranges made. By its patented two-fue construction, the heat is so distributed that the lids are heated evenly, also the oven is heated in the same manner. Baking can be done in this Range with about one-half the trouble and work than on other Ranges. All of the parts are made of two thickness of extra heavy steel with thick asbestos between. This insures the Remp to last a lifetime. See sample in our West Window.

Two years ago W. E. and William Spence purchased the Peter Bither farm near Brownsville, paying \$8,000 for the 316 acres. They have just sold it to G. W. Bowers, recently of Minnesota, for \$15,000, including stock and machinery.

Seth McAllister, of Eugene, a former Albany young man, and Miss Mae Erickson, a worthy young lady of that city, were married at 7 o'clock yesterday morning, and immediately left for the Blue River mines, where the groom is electrician.

Oakville.

The people of this place celebrated the fourth by picnicking in various places. A Sabbath school picnic at Curtis's grove was well attended by the small Johnnies, but the best picnic of the season was at Smith's on the Independent telephone line where a royal dinner was spread in the grove, and at 12 o'clock all hands fed themselves for about one hour. After dinner speeches were made by Mr. Whitlow of Yamhill county, A. Y. Smith, ex-postmaster of Oakville, and Al Carey. After the program was completed the fire works were set off. After the fire works foot races were indulged in and after the races the "plug uglies" made a display on Willamette avenue. Thus the day we celebrate was spent by the people on the avenue.

Miss Althea M. Smith, of Tacoma, is visiting friends here.

The annual log drive is now passing down the river.
