Secretary Taft has received so much attention on his Philippine trip that he is seriously thinking of running for President. Some people don't know the difference between curiosity and admiration.

Of course, it rained down at Astoria whether anywhere else or not. It has a way of doing it there twice as much as anywhere else in the state. Some of it in the valley just at the right time would have been a fine thing.

The Russians and Japs will agree on nearly everything but two or three points. These will be continued until the last, and then there will be the tag of war that will test the metal of the commissioners and bring out in full the real appreciation of the situation by the men.

If peace negotiations fail, it is stated that General Oyama will at once order a forward movement. If he does, the Russians, the DEMOCRAT believes, will receive the worst defeat in the history of the war. The body of the Russian soldierly have no heart in the unholy contest, and are, therefore, in no condition to fight. Direct mutiny would not be surprising.

The cause of the death of Minnie Monteith Vandran should be thoroughly investigated. If it is a case of murder no punishment can be considered too severe for the murderer. Any kind of murder is bad enough, but it is particularly bad when one person becomes the victim of what was intended for another. In this case it is doubtful if the murderer is ever discovered, the earnest wish is that he may be and then receive the deserts he deserves.

Making guesses as to the appointment of a federal judge seems to be the business of some of the papers, which go even further than that and state a fact for a guess. So anxious is the newspaper nowadays for scoops that it easily jumps at conclusions, and there is often more fiction than reality in an issue of a paper. Lately there has been considerable of this in Portland. It creates interesting reading, but of a character difficult to understand.

Albany people should never lose an opportunity to do something for Albany College. The institution has been a blessing to Albany. It has played its part well. It has now been placed on a better business basis than ever before in its history, and will begin the new college year with an exceptionally strong faculty, mostly new and well trained blood. The college needs the best backing Albany people have.

Candidates for Congress in this district are going to be plenty, like flies when sugar has been spilled. Under the referendum, candidates are easily created. This is proper. The more the better. The people will do the rest, and many will learn how much less influence and friends they have than they supposed. It is an easy thing for a man to gauge the public pulse, but after the beats have been counted there can be no question. Anybody can find taffy, if they are hunting for it, but few can actually get a superabundance of votes.

A visitor at a lunatic asylum noticed one of the inmates walking about the grounds pushing in front of him a wheelbarrow turned upside down. The visitor stopped him and inquired the reason for the unusual procedure. "Why, you see," said the demented one, "if I turned it right side up they'd put bricks in it."

President David R. Francis, of the Louisiana Purchase Exposition, is a guest of the Lewis and Clark Exposition this week, with Mrs. Francis and two sons of the distinguished couple. Mr. Francis has been the mayor of St. Louis, governor of Missouri and Secretary of the Interior under President Cleveland.

A decision knocking out pool selling at Irvington race track, Portland, it is stated, has completely knocked out the racing itself. That is, it is admitted that the races cannot run without a revenue from the gambling part of the arrangement. Then it will be a good thing to entirely do away with horse racing. There are few more interesting contests than a horse race that is on the square, but if it is to be bolstered up by gambling then let it stop.

"No man becomes great," said Gladstone, "except through many and great mistakes." All history, all progress, all success is a record of triumph over blunder. In business, in political or social life, a perfect man has never been found, and never will be. Every man must work out his own salvation in the activities of life. He may profit—if he is wise, he will profit—by the experience of others; but if his career is to be a success, it must be built up upon many and great mistakes. Experience is the greatest teacher, because it shows us not so much how to do things as how not to do them. Every mistake is a stepping stone for something better, something higher.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Ocatarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

A Stupendous Show

Nearly all the European papers have said "they saw too much" in the Barnum & Bailey Greatest Shows on Earth, and that "it certainly required four visits to see all the attractions." These are wonderful acts. Twenty-five champion riders appear at various times during the exhibition, all of whom do novel and daring feats. The grand equestrian tournament is still another great feature, and contains all kinds of riding exhibitions. Two thrilling and perilous headforemost slides are made from the roof of the canvas, and the turning of several triple somersaults in mid-air causes everyone to wonder at each performance why the daring performer is not instantly killed. The Ancillotti brothers are modern Ariels, tempt death in defying the law of gravitation in executing the quadruple airy paradox. Cosmic episodes are enacted in the three rings and upon the stages with great rapidity, which, in turn, are succeeded by an exhibition of the trained animals. Three herds of elephants and a herd of giraffes are in the menageries, with cages of wild beasts. The exhibition in the menagerie tent contains giants, midgets, and a troupe of Scandinavian vocalists, musicians and dancers, and specialists. It is a grand and glorious exhibition, and will come here with 500 horses, elephants, 12 acres of tents, and a stupendous advance corps, and will exhibit its thousand novel features in three rings, on three elevated stages, and hippodrome race track—or what is equivalent to six rings. The big show's date here is Thursday, Aug. 24.

The Dip of Death, the sensational feat of "looping the gap" in an automobile, will be presented here just as seen in New York, Portland and San Francisco.

Bridge Notice.

Notice is hereby given that the County Courts of Linn and Marion Counties Oregon, sitting in joint session, will on Friday, September 8th, 1905, at 10 o'clock a. m., at the Court Room in the Court House in the City of Albany, Linn County, Oregon, receive sealed bids for the construction of a wagon bridge across the North Fork of the Santiam River at either Mill City or at a selected site about one mile above said town of Mill City, according to plans and specifications now on file at the Clerk's Office in each of said counties. Each bidder will be required to deposit with his bid, in money or certified check five per cent. of the amount of his bid, which will be forfeited to the counties above mentioned in case the contract for building said bridge is awarded to him and he fails, neglects or refuses, within a period of two days, to enter into contract and file his bond according to law, to the satisfaction of the courts above mentioned. The right is reserved to reject any or all bids. Dated this 10th day of August, 1905. H. M. PAYNE, County Clerk, Linn County, Oregon.
