A Fast Young Man

Portland is not behind the times by any means. A young man of that city on a salary of \$80 a month has been spending \$2,000 a month on automobiles, fast horses and women, doing so for about a year, when it was discovered that he had robbed his employers of the Portland Gas Co. of about \$15,000.

At 23 years of age this young man's career is practically ended, his life blighted, all for a year's "good time," that after all presented nothing but shucks.

The lesson is a good one for any young man who gets the idea into his head that a fast life is the one which brings the most enjoyment. It isn't. There is absolutely nothing in it to commend it to any young man.

About Doctored Meats

The Portland Telegram accuses the state food commissioner, Mr. Baily, with whitewashing the wholesale dealers in doctored meats, stopping with the prosecution of a few retail dealers, when it was his duty to go to the fountain head and prosecute the men who brought the meat into the state.

Both President Roosevelt and Andrew Carnegie refuse to stand pat on spelling, but they agree to stand pat on the Steel Trust tariff protection that plunders the people of the United States of untold millions.

SMELLING IT from a large bottle is no way to tell what a Perfume is. The test is in whether it lasts. A Perfume that smells different after being on a handkerchief for a short time is not a genuine Extract of Flowers, but is artificial. We take pains to select odors that last. They're 50c to \$1.00 an ounce.

Respect the Game Law.

The Democrat advises hunters to respect the game law, for there is a deputy game warden on many of the corners, and they are liable to be captured and given some notoriety in the papers. The real reason for respecting the law, though, is the one which should incite every law-abiding citizen, loyalty to the government and its institutions.

Didn't Stand Pat.

The election in Maine reveals the fact that the democrats have made a remarkable gain. The republican vote was as much as four years ago, but the increase of the democratic vote was immense, indicating that the rising generation have been going to the polls with some modern ideas in their heads along tariff lines.

Wanted Fifty Modern Cottages.

Albany ought to have forty or fifty modern cottages, made with all the latest improvements for convenience more than for outside architecture. That is, the demand is increasing for residences with baths, electric lights and proper sanitary arrangements, a good sign of progress.

M. A. Miller at Lincoln.

Lincoln Journal: Many states were represented in the ovation. Personal friends of Mr. Bryan from the South were here, and one gentleman from as far away as Oregon was in the throng at the depot to greet Mr. Bryan when he alighted from the train. The Oregon visitor was State Senator M. A. Miller, of the town of Lebanon. He was not a stranger, however, as Mr. Bryan had been his guest at his Lebanon home, and the former presidential candidate recognized him at once and seemed glad to grasp the visitor's hand.

Frenzied Thoughts.

A Virginia candidate urges the unimportance of his rival's work in Congress as a ground for his defeat. What member of the present Congress, could meet an argument like that?

By this time the South American must have an idea that even our root beer is named after the Secretary of State.

HERPILDE'S BLOOD PURIFIER The digestive organs often need assistance. That's when the Bitters will prove its worth. It cures Flatulency, Heartburn, Poor Appetite, Indigestion, Dyspepsia or Costiveness.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It. Many women weep and wall and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction.
