The Marrying Month.

October is the marrying month of the year in Linn county. During a period of about twenty five years there have been more marriages in the county in this month than in any others with only one or two exceptions. That is rather remarkable, and suggests that there is some reason for it. There is. The harvest is over and there is money in circulation more than usual for work in harvest fields, etc. The poet said: "In the spring a young man's fancy lightly turns to thoughts of love." That might suggest that there would be more weddings in the spring time, but this is not a fact in this part of the world. Young people seem to realize that there is something needed besides love in the marrying business, and that something is money: \$3 for license, \$5 for the minister and enough for a stove or two, some cooking utensils and a few other things, so that the money part predominates. Perhaps the love begins in the spring, which leaves about the right length of time for courtship, which should be neither too fast nor too slow. The young man does well to get enough money ahead to pay the minister and for the license. He should go a good deal further than that and have enough ahead to give his wife the kind of support she deserves and not keep her nose down to the grind stone. It is well to look ahead a little and be sure that you are ready both in love and money.

Hallelujah for William etc.

"It was the greatest conference in the history of the church of this region," says the Salem Statesman, referring to the recent session of the M. E. conference in Portland. Why was it the greatest. Just simply because it voted \$3,000 for the current expenses of Willamette University, a Salem institution, and reported \$15,000 in bequests the past year. That was sufficient to make Salem feel good. The conference did well. It should stand by its church college and take a pride in its prosperity. This reminds us that the Presbyterian presbytery should take a like interest and pride in its college at this city, and should vote \$3,000 for current expenses. It has done something, but hardly with that vim and enthusiasm that has characterized the treatment of Willamette University by the M. E. conference. Albany college deserves to be placed solidly on its feet, and it is in order for the presbytery or synod which has control of it to get a Methodist shout on.

The conference set a good example and the Democrat is glad the Salem papers appreciate it and shout for old Willamette, a good school.

Didn't Want to Go to Cuba.

When it was reported at Vancouver some of the soldiers would be sent to Cuba about twenty five deserted. This is suggestive of the fact that a good many of them are in the business because they think they can have an easy time, with little to do and no fighting. Very few of them ever dream of any real service. Of course among them are some loyal men who are soldiers particularly for a love of their country. But the number is not as large as it might be.

A Lucky Accident.

To receive a full load of bird shot and not get hurt, is what happened to A. Schmidt of the ALBANY GUN STORE. He received a big truck load of fresh Peters shells, the very best money can buy—death medicine for the Chinese Boxers. Try them and be convinced.

FOR RENT.—Two furnished house keeping rooms. Also two six room houses centrally located and in good repair. Inquire at 305 east 4th street. H. Barnes.

LOST.—In the eastern part of the city a girl's tan coat, 3-4 length. Please return to residence of O. A. Archibald.

WANTED.—Horse, immediately, for delivery, at the Royal Bakery, Second and Ellsworth streets.

LOST.—Two account books rubber band around them, between Albany and Fishers on Tangent road. 291 WILBUR CHAMBERS.

FOR SALE.—Household goods of best quality, in excellent condition, including steel range, large walnut sideboard, new book case, etc. at 617 W 6th St., Albany.

One dollar typewriter ribbons for any make machine for seventy five cents. Get a coupon good for six ribbons for \$3.50 and get ribbons as you need them. RAWLINGS, Albany, Ore.

TO SUBSCRIBERS.—These not receiving the Daily by 6 o'clock evenings will please call up Red 202 if residing west of Broadalbin street, Red 2292 between Broadalbin and Montgomery streets, and Black 482 east of Montgomery street.

Tangent

The summer has passed, the harvest is ended and still the residents of Tangent and surrounding country apparently find plenty to occupy all their spare time.

This has been one of the busiest seasons for farmers that was ever known, as very little help could be found to assist in taking care of the large crop of hay and grain which has just been harvested.

The warehouse at this place is well filled with wheat and oats which is of fair quality.

Mr. J. J. Beard who has lived in Tangent for 33 years and has filled the position of R. R. agent ever since the road was built, has resigned his position and will leave for his future home at Merrill, California, this week.

Delmer Smith and wife, of Spokane, Wash., are visiting relatives in and around Tangent.

Austin Bridgefarmer has sold his belongings and gone to Portland, all because his best girl has gone back on him.

Mrs. W. W. Green is seriously ill at her home in Tangent.

S. H. Bryan, of Walla Walla, Wash., was visiting friends in Tangent a few days ago.

Mr. C. Scott who has been sick for the last two months is much better at this time.

A little son of J. E. Jenks is badly afflicted with typhoid fever.

The Tangent school commenced last Monday, with Miss Parker as principal and Miss Ella Stewart as assistant teacher.

There is quite a wood famine around Tangent, as cord wood cannot be bought at any price.

The usual fall moving has commenced and half or more of the residents of Tangent will change residences.

N. P. Slate has moved from his farm into the house belonging to L. B. Marsters, who moved to St. Johns where he is working in a box factory.

The September rain has started the grass and if good weather continues for a month or two there will be plenty of pasture for all kinds of stock.

The hunting season has arrived, and the pheasants will be indiscriminately slaughtered by over zealous hunters from all over the western part of the state.

Farmers should not allow hunters to trespass on their premises without leave as they have rights which all hunters should be compelled to respect.

A dispatch from Southern California says the grape crop is cooked on the vines, so hot has been the season. Sunshine is a fine thing, but too much of it is a bad thing for the land. Any country needs a certain amount of clouds and rain. If it doesn't get them something will happen to the crops. The worst monotony in the world is a continual sameness of weather. Oregon is fortunate in having a variety. Even in the winter, supposed to be an era of rain, we have a good deal of sunshine mixed with the clouds and rain.

Frenzied Thoughts.

Whenever there is need of heavy artillery, send Taft.

If Secretary Taft is going to sit down on the Cuban insurgents that will be the end of them.

The republicans of Missouri are decidedly inconsiderate in endeavoring to make Mr. Roosevelt break his strong, invulnerable, unchangeable determination not to run again for the presidency.

Senator Foraker is out against reformed spelling. It is the general opinion that nearly everything Roosevelt does will have to undergo a very critical scrutiny by Mr. Foraker.

Linn County Council.

There will be a meeting of the Linn County Business Council P. of H. at Grand Prairie Grange Hall on Saturday, Oct. 6, at 10 o'clock a. m. A delegate from all Granges is earnestly requested to be present.

W. H. McELMURRY, President.
MAE PALVER, Secretary.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
