**And Tillamook Too**  
It never rains but it pours. The Jones lock bill was hardly dry before Beales had a bill introduced appropriating \$50,000 for the improvement of Tillamook Bay, a U. S. harbor. It is now in order for Jones, a former Lincoln county man, to ask for an appropriation for the improvement of Yaquina Bay, making it such a harbor as it can be made when properly improved. The U. S. government refuses to do anything at the present time, the same as it does in the matter of the locks, therefore it is the business of Oregon to come to its relief.

Again Uncle Sam is mighty slow cutting down the bars between Albany and Salem, so as to make the river navigable the year round. Where is Jones with his bill for relief. Since Congressman Herman was pretty well shelved there has been nothing done for the betterment of the Long Tom. Come on Mr. Jones, or Mr. Smith, or Mr. Somebody and help out your constituents, crying for aid. What's sauce for the goose is for the gander.  
The state legislature these days is establishing precedents, and it is the business of its members to weigh their actions before saddling on the people million dollar bills to pay.

**It Was a Freak of Nature.**  
While Portland was put to an expense of thousands of dollars by the peculiar action of nature in singling it out and freezing up its wires and trees and poles and so forth, so that they fell to the ground, south of the city even as close as Oregon City no damage was done. The freeze seems to have been confined mostly to that city. It is in order for some one to declare it a just judgment against the city for its municipal meanness. But as a matter of fact it was a remarkable freak of nature. It was misting down the valley the same as at Portland, but at that city there seems to have been a particularly cold blast, strike the small particles causing a heavy coating of ice and frost, which prostrated things. The truth is Portland, getting the benefit of blasts of cold from several directions, even the Pacific, is well situated for such things.

Seriously, though, such things are not of a very savage nature either in Portland or any other part of western Oregon, where nature treats us very well from year to year.

**To the Proper Committee.**  
A bill for an act to prohibit making or publishing of false or exaggerated statements by corporations was referred by Speaker Davey to the military committee. Only a newspaper man could have seen through that. Perhaps it would have been more effective to have referred it direct to the O. N. G. with power to act. Certainly the corporations who get business by false representations deserve to be brought up at the end of a bayonet, and it is to be hoped this military committee appreciates the situation sufficiently to put some power into their actions and make an early favorable report.

**THE POWER OF STEAM.**  
Many May See But It Takes Genius to Imitate.  
When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."  
There was, Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.  
Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair.  
Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

**Buena Vista Bubbles.**  
The Newberg Pressed Brick Company loaded 150 tons of clay at this point Tuesday to ship to their works at that place. This we believe is the largest shipment ever made from this place at one time. The Buena Vista clay banks are said to be the best on coast. We ought to have a pressed brick factory here, as there is no better opening for good clay and cheap fuel in the world.

We are informed that parties contemplate a match factory here if other enterprises develop that are promised. Dr. Stanley was called to the Salem hills Saturday professionally.  
Mr. Arthur Whiteman, Mr. Ammon, Mrs. Gibson, Mrs. Thacker, Gale Prather, and Ed Harmon are on the sick list. Ed is having a serious time with a chronic trouble that has recently become worse.

**REV. CARLISLE P. B. MARTIN,**  
L. L. D.

I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." Sold by Foshay & Mason.

**Frenzied Thoughts.**  
While it was getting a new constitution, it is hoped Persia was wise enough to select the kind that follows the flag.  
Mr. Cortelyou insists that where ignorance is Cornelius Bliss, 'tis folly to be wise about campaign contributions.  
"Music will rescue men from the drink habit," is the opinion of a prominent clergyman. Perhaps it will, but most of the stuff now masquerading as music has a decided tendency to drive them to it.
