

Be a Booster.

Do you know there's lots of people Settin' round in every town, Grownin' like a broody chicken, Knockin' every good thing down? Don't you be that kind of cattle, Cause they ain't no use on earth, You just be a booster rooster, Crow and boost for all you're worth.

Extension Talk.

The Corvallis and Eastern needs to extend its line only twenty or thirty miles to tap all of the Eastern Oregon country, and bring this way a big trade. It would work marvels in the business of the road, and it has always seemed strange that the owners of the road have not appreciated the importance of the movement.

Many Coming Over.

About five thousand people are coming to the United States every day from Europe, a flood of immigrants. That's over 1,500,000 a year. Some of these people may be a desirable acquisition to this country, for we have among us some splendid people who were born across the ocean, but mixed up with them is an anarchistic element that may cause an immense sight of trouble here.

No Technicalities Wanted.

The attorney general displayed good judgment in taking a liberal view of the referendum petitions presented him for consideration. An effort was made to knock out the U. of O. reference on some technicality in connection with the wording of the petitions. This was very narrow. The friends of the U. of O. appropriation should fight it out on its merits and if the appropriation is established as passed by the legislature it will be the biggest thing for the University from a legislative standpoint in its history.

Wheat Up.

Oregon farmers may get a pretty good price for their wheat according to the present indications. The price in Chicago means about 75 cents here when the market gets regulated. That's a pretty good price in this country these days. While wheat doesn't play the part it did years ago it is a good sized item in diversified farming, and to some Oregon farmers means a good deal. Everything else is up, and with wheat bringing a good price it would mean better times in this state than ever before.

Col. Watterson made a good bid for the dislike of Col. Graves by knocking both the latter's heroes.

Frenzied Thoughts.

Some one has discovered that three of the five jurors who voted to acquit Thaw are bald-headed. From which, it appears that Evelyn still makes a hit with the bald-headed row. It is asserted that in Milwaukee, beer is bottled at the rate of a million a minute; but it is really the rate at which the bottles are emptied that has made Milwaukee famous.

WOMEN PAY MORE.

Why Insurance Companies Discriminate Against the Gentle Sex.

If one is to believe the medical examiners the reason a woman pays more for the privilege of life insurance is that she is much more commonly a victim of indigestion and stomach troubles and the fatal ailments that spring from these causes. It is not the acute attacks of disease that influence the insurance examiners alone, but the constant feelings of weakness, headache, indigestion and stomach trouble. These things, physicians say, kill more people than many of the serious diseases.

TO BE RESUMED

The Survey on the Natron Road East.

It is reported that Carl Rankin and gang of surveyors, who quit work on the survey of the road across the mountains from Natron, several months ago, in a short time will again resume the work of surveying the road across into Eastern Oregon, and are expected in Oregon anytime to continue the work on the important job. When the crew quit it gave rise to all manner of speculation and the general opinion was that it meant the abandonment of the project on account of numerous changes in railroad managements and schemes, but the fact that the survey is to be continued means that the project has only been raised, that it is really a permanent affair and that eventually a road will run from this valley into Eastern Oregon by way of Eastern Lane County.

Will Be Installed.

The DEMOCRAT has received a very neatly printed program for the installation of Rev. A. M. Williams tomorrow night, as pastor of the Presbyterian church at McMinnville. Knotts will read the scripture, Rev. Griswold lead in prayer, Rev. J. C. Elliott deliver the sermon, Rev. H. T. Bausock of Salem give the charge to the people, Rev. W. V. McGhee, of Gervais, the charge to the pastor and Rev. W. S. Holt the installation prayer.

O. T. Blounts Death.

Ashland Tidings: The Tidings has received from Fairbanks, Alaska, a copy of the Daily Times of that place of date April 16th, containing particulars of the death of O. T. Blount, a former well known merchant at Ashland, which took place at a hospital in Fairbanks on April 14th. Mr. Blount had been ill for some time with typhoid fever; it seems, but only entered the hospital the day before his death occurred, his serious condition not being realized by himself or his friends at the time. The immediate cause of his death which was sudden, was heart failure. The funeral took place at Fairbanks and was largely attended, Mr. Blount having a large acquaintance and a host of friends there.

It Is the Best.

The DEMOCRAT office has just received a new Webster's International Dictionary, with the figures 1907 on the title page. It is the consummation of the art of dictionary making. There are dictionaries and dictionaries, but after all of them have been examined, we always get back to old Noah Webster's, the best of all of them. This dictionary contains 2311 pages, followed by 228 pages of new words. It is a colossal affair in book making, both in size and importance, and deserves all the praise accorded it from a dictionary standpoint. Every family and school should have a late Webster. The best is none too good.

Better Rural Schools.

A good sign of the times is the great interest being taken in the schools of the country. Better buildings are being erected and more interest taken in grade work and general promotion of education. The Lebanon E. A. tells about one: There is an up-to-date rural school at Berlin, Oregon. About three years ago the people erected one of the best rural school buildings in the county. Through social and contributions have also purchased an organ, bell, library, a teacher's desk, etc. During the present school year 46 pupils have been enrolled, with about 40 daily attendance. The children enjoy marching, so they form on the porch, march to music in and out of the house.

Because once a Mormon shall a man be kept down, if his reformation is genuine, as it is declared to be in the case of President Kerr.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS. The Publishers of Webster's International Dictionary allege that it is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched by new charts, with the purpose of adapting it to meet the larger and severer requirements of another generation.

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition, and as the fountain head from which it will be the source of constant reference.

CHARLES E. NOTT, Chief Justice. LAWRENCE WELDON, JOHN DAVIS, STANTON S. BULLIE, CHARLES H. HOWLEY, Judges.
