GARFIELD

At Portland. Some Big Problems.

PORTLAND, July 13.—Secretary Garfield and party arrived in Portland this morning, and immediately began gathering data relative to solving the fuel famine and transportation problem to conserve the water supply, various other plans the government is contemplating.

Astoria Compromisers.

ASTORIA, July 13.—The ministers and saloonmen of Astoria have practically reached an agreement, whereby if saloons close from 9 to 1 Sundays ministers will no enforce Sunday closing law all day.

A STRIKE

At Blue River. Interesting to Albany Men.

Register:
The Great Northern mine once yielded good returns to the owners. They worked for a long time on a rich fissure vein, and the yield of gold was highly satisfactory to the management. The vein, however, ran out, and much money was spent by them in equipping the mine and running an eighty-foot tunnel in search of the mother lode. When the present management took hold of it they changed the course of the tunnel almost at right angles, and have been at work for some time in that direction. Yesterday H. C. Mahon received word from W. T. Shurtleff, who is the manager of the work, that he had struck the main ledge for which they were hunting at eighty feet below the surface. The ledge is of great width, probably about thirty feet, and the ore is of a free milling grade and shows excellent values. There is probably no limit to the amount of ore that can be taken out now.

The mine is equipped with an automatic tramway from the mouth of the tunnel to the mill, which is about as complete as anything of its kind in Oregon. The mill, too, was put in at great expense, and there is plenty of water to operate it.

The directors of the company at present are all Eugene parties, and are: G. G. Gross, George Hunter, H. C. Mahon, W. T. Shurtleff, S. E. Wightman. The officers are: H. C. Mahon, president; G. G. Gross, vice president; S. E. Wightman, secretary, and C. L. Littlefield, treasurer.

The boys are all happy over the lucky strike.

RICH COPPER

Ore Discovered Right in Mill City.

Mill City people are excited over a rich discovery of copper ore at that city. Jack Hammel who returned from there last evening reports a rich discovery in that city. In removing some dirt for the extension of the store of the Curtis Lumber Co. some ore was struck which proved to be valuable in copper. The ledge was traced across the river into Linn county and is thought to be very extensive and remarkably rich. Mill City people were showing ore to everybody, and it is believed there is something in sight which will make the Verdict of Senator Clark look to its laurels.

Si Perkins Hayseed Band.

The Lady Maccabees were very highly entertained last evening by the "Hayseed Band." After lodge closed the band came marching in to appropriate music and in hayseed costumes, truly ridiculous, headed by their leader a veritable Irisman Lady Eagles, and accompanied by the best clown ever seen, Lady Scott, who acted her part to perfection. The band was composed of the following hayseeds, carrying their drums, bugles, horns and other musical instruments: Ladies Eagles, Baker, Smead, Austin, Ethel Crowder, Sarah Willis, Stetter, Rowell, Paulis, Schultz, Riley, Scott and Keats. They were assisted by Ladies Anna Schultz and Miller, and by five little girls and Master Eagles. The following is the excellent program given: Song and music by the band and assistants, duet and encore by Ladies Miller and Anna Schultz. Ring around a rosy by four little girls with song by Wilma Junkin, a recitation by Lucille Keats, song by Elizabeth Eagles and a dance by Rita Medin. Solo with chorus by Ladies Paulis, Stetter and Baker, recitation by Ivy Keats with encore, quartet by four "Hayseeds," Eagles, Sarah Willis, Keats and Scott; duet and encore by Rita Medin and Wilma Junkin, a girls tri to J. mestown by Lady Ethel Crowder. Song by the band followed by martial music as they left the hall.

An enjoyable time was had by visitors and Maccabees. COMMANDER.

Big Tillamook Hotel.

Plans are being drawn for a \$150,000 hotel at Tillamook. It is to be 170-1-4 by 170 feet, the main part being four stories, the wings three. It will contain 135 guest chambers, with private bath and toilet for each. The main lobby will be 60 by 80 feet, a lady's lobby on the second floor 30 by 80 feet. It will be heated by steam electric lighted. It is to have a double front, one facing the ocean the other Tillamook Bay, 100 feet above high tide. It is proposed to make it the finest seaside resort hotel on the coast.

The Bank at Corvallis

Mr. Akers, of the Corvallis saw mill, was in the city yesterday to see the C. & E. people in order to get the company interested in the protection of the bank of the Willamette at Corvallis, the water gradually washing it away and among other things endangering a switch of the railroad. The government will probably be asked to do something.

YOUR SELECTION FOR A WHEEL.

should be made with careful discrimination. You want the best your money can buy. There are more poor and worthless wheels on the market than there are good ones. If you decide on a SNELL I know you will never regret it. Expert testimony furnishes ample evidence of its superiority over any made. The Albany Gun Store has a fine stock on hand. Look at them before you buy, it will pay you.
