## CITY COUNCIL

Met, Talked Franchise and Adjourned for a Day.

The city council met last night for the purpose of acting upon the Welch franchise, and, although, it had had two or three regular sessions and numerous secret ones it was not ready to act, and adjourned until tonight when it will probably be passed.

Present: The Mayor, recorder, street superintendent, marshal and all the council but Hand, chairman of the ordinance committee, who was kept away by the illness of his mother-in-law.

In the absence of Chairman Hand there was no report by the ordinance committee.

Mr. Waters said his people objected decidedly to the section requiring the city to sprinkle the streets, and asked that the section be eliminated, as it would require a \$1,000 machine and two men four or five months of the year, and it will take years for the trolley system to pay expenses. After considerable desultory talk the ordinance was read and discussed by sections, informally, and it was decided necessary to hold another meeting to dispose of it. The sprinkling section will probably be eliminated.

### Mrs. Marshall's Concert.

Mrs. Alice B. Marshall, pianist, who assisted by Mrs. Percy B. Young and Mrs. F. P. Nutting, give a concert at P. A. Young's Thursday evening next Sept 19, has had many years successful experience as a pianist and teacher. She had charge of the graduating classes in Morningside College, Sioux City, Iowa. Of her work then Dr. W. S. Lewis, President of the college says:

Mrs. Marshall has been a teacher in Morningside College Conservatory of Music for more than three years. She is a born teacher. She possesses that peculiar insight into character, and power of discrimination in the subject presented, which enables her to inspire, lead and train the heart, brain and fingers of her pupils most efficiently. She is possessed of a charming personality and binds her pupils to her with cords of steel. Mrs. Marshall is an artist and she inspires in her pupils that which is superior to art, refinement, a good conscience and the spirit of service.

### Some Legal Catches.

S. M. Garland, of Lebanon, returned this noon from the Bay, where he had great sport fishing. He was out three times and headed the list in his party in the number of fish caught. His biggest catch was five. One trip was made with Judge C. E. Wolverton, of Portland, who captured four, and Chas. Bilyeu, of this city. While the run is not remarkable, the catches are enough for splendid sport, and many are enjoying it.

### Talbert's Ambition.

### Biggest Prune Orchards.

The big Corvallis prune orchard will have 100,000 pounds of the dried product. E. H. Rhodes of this city, will have just about twice that from the fruit in his Jefferson orchard, five car loads in all, worth about \$10,000. Probably the two largest orchards in this part of the valley. The recent rain did little harm and it is probable the entire prune crop will be saved.
