THURSDAY.
TWO SHOTS

Fired at W. L. Pason, the Detective.

About 11 o'clock last night W. L. Pason, the detective, was passing along Lyon St. just after the arrival of the 10:57 train, when, as he crossed the bridge over the canal, a couple of men standing near the barn in the rear of X. Boom's residence, on the alley running along the canal, fired twice at him, the bullets whizzing past his head. The men then fled westward along the canal, disappearing in the dark.
Pason fired three shots in return. One of the three at the hospital, saw the flash of the revolver, just before the men ran.

Mr. Pason hurried to the depot and informed Nightwatch Catlin, who was at the train, and he made a search, but the only thing he found was a strange dog, which he locked up in the city jail, as perhaps a clue.

The dog proved to be the property of Ex-Sheriff White, who resides near the place, the animal not having been tagged not being recognized by Mr. Catlin.
This is supposed to be the result of Mr. Pason's connection as a witness with the local option cases.

Mr. Mitchell also reports a little shooting experience at his home at Crabtree the other night. Hearing a noise he went out with his lantern, when some one in the dark fired at him. He had a revolver and returned the compliment twice, answered by another shot, and two more by him, the man running away along the railroad track near his place.

One of the New Residences

Among the many new residences to be erected in Albany this year will be one for A. D. Barker, a fine two story, eight room building, somewhat after the style of the residence of Councilman J. L. Tomlinson. It will be on the lot Mr. Barker recently purchased of Mrs. Brenner, on Ellsworth street, opposite the college. The plans have been drawn by C. H. Burggraf, a modern place, with all the latest conveniences.

Some Big Hogs.

William Obermeyer recently dressed two hogs weighing 555 and 475 pounds when cut up. Instead of selling he is making hams, sides, shoulders, lard and sausage, getting about \$15 more a hog. Oregon certainly can raise big hogs.

A DEBATE

Upon the U. of O. Appropriation Bill.

A live debate is reported at Clevelander Hall last evening between C. H. Walker and Eugene Palmer against the U. of O. \$125,000 appropriation, and Prof. Alderman, of Eugene in favor of the bill making the appropriation.

Mr. Walker opened the discussion by presenting the action of the legislature, showing the politics of it, the character of the unsegregated bill and numerous things displaying the animosity of the proceedings leading up to the bill. Mr. Palmer dealt in figures showing the immense cost per capita at the University, how the tax payer has to put up for it, and the great need of all the money the people have to spare in the building up of the common schools of the state.

Prof. Alderman spoke twice, having the closing argument in favor of the bill, showing what the university has done, the smallness of the appropriation compared with those of other states, and the need of more money than has been asked for to properly equip and run the school in the manner that shall be creditable to the state. He was enthusiastic in his advocacy of the bill and the demand for a patriotic support of the University in the interest of the education of the young people of the state.

Mr. Alderman said in part, if Oregon is to keep her direct legislation she must have a general intelligence. The University of Oregon can do for this state what the University of Wisconsin has done for that state. There different university departments, including a legislative reference bureau connected with the university, enabled Governor La Follette to do what he did in making its railways pay \$400,000 in back taxes and in securing a corporation tax law that yields all the revenues the state needs with a surplus to be distributed among the common schools.

Based upon attendance each student in the public schools last year received something over \$24.

State Supt. J. W. Olsen of Minnesota says, "In my judgment no friend of the common schools can afford to vote against such an appropriation for the higher education as that made by the legislature of Oregon for its university."

Supt. Edward Hyatt of California says: "There is no question whatever that the states possessing the strongest and best conducted state universities have also the best and strongest system of common schools."

The appropriation is from \$82,500 to \$125,000, it is continuing because it then will be unnecessary to go to the legislature each session. If it is continuing it can not be segregated.

WILL GET ON THE TROLLEY

Street Cars to Be Electrified Within Sixty Days.

Albany's horse car will soon be a thing of the past. Mr. Hershberg, the owner, who was in the city recently, has ordered an electric car for the line, and made a contract for power from the Willamette Valley Co. Mr. Ross, manager of the horse car reports, and it is proposed to have a trolley car running within sixty days. The owner did not wish to make the move until he knew for certain where the depot was to be located. A depot trolley car will do a fine business. Will the system be extended, is an interesting question.

The city attorney was recently ordered to begin proceedings to have the franchise forfeited, but this course will undoubtedly change the program.

A piece of ore of the top of the ledge was sent for assaying for gold and copper, to F. H. Colpitts who says these two metals are in sufficient quantities to make a valuable mine if found as indicated.

Colpitts says the ore also contains quite an amount of silver, and looks as if it had nickel also present, which will be determined later.

Mr. Turpin is to return to his new ore body and open it up in a systematic order.

A WONDERFUL COUNTRY

According to Lecturer Thos. E. Green.

Many said the lecture of Dr. Thos. E. Green, at the U. P. church last night, was about the best they ever heard. Eloquent, practical, forceful, it made a strong impression. Here are a few of his pointers:
This is a great turning point.
There has always been long preparation, then sudden fulfillment.
There has never been an accident.
Hereditarily, environment, personality form the temperament of the American.

A characteristic of American philosophy is that everything is all right anyway.

This is the only nation that did not begin in barbarism. She just was.

Our constitution is the greatest specimen of statecraft in the history of the world.

Grafters are not indigenuous to Oregon. King George was surrounded by them. America has the golden key that is to unlock the progress of the world.

Dealing righteously is teaching peace to the world.

Last century was an era of invention, this of realization.

This is an age of marvels, with 48 story skyscrapers, sending ten telegrams over one wire at a time, talking from the middle of the ocean with Chicago, taking pictures through the air, hearing people fifty miles away wirelessly, and wireless power is coming.

Admiral Evans can talk with the sixteen captains of his fleet.
America is at the front all over the world.

Interbreeding is ruining royalty in Europe. 50 per cent are either idiots or cancerous.

Here we have a unique type, a marvelous amalgamation, virile and vigorous.

This is a country of enormous possibilities. Oregon is twice as big as England, capable of supporting the whole 80,000,000 people of the U. S.

No nation ever died of old age. Heart rotteness and greed have done it.

The manly courage of Theodore Roosevelt will play a big part in history. But the simple righteousness of Jesus Christ is at the foundation of all that is best in the world.
